Board of Adjustment General/Parking Variance Application

WARNING: Filing of this appeal stops all affected construction activity.

This application is a fillable PDF that can be completed electronically. To ensure your information is saved, [click here to Save](#) the form to your computer, then open your copy and continue.

The Tab key may be used to navigate to each field; Shift + Tab moves to the previous field. The Enter key activates links, emails, and buttons. Use the Up & Down Arrow keys to scroll through drop-down lists and check boxes, and hit Enter to make a selection.

The application must be complete and accurate prior to submittal. *If more space is required, please complete Section 6 as needed.* All information is required (if applicable).

For Office Use Only

Zoning District: SF-3

I/We Janae Ryan on behalf of myself/ourselves as
authorized agent for City of Austin, Neighborhood Partnering Program affirm that on
Month August, Day 1, Year 2016, hereby apply for a hearing before the
Board of Adjustment for consideration to (select appropriate option below):

☒ Erect ☐ Attach ☐ Complete ☐ Remodel ☐ Maintain ☐ Other: _____

Type of Structure: A 10' Wooden Fence

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

25-2-899 Fences as accessory uses

M2
2/2

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

The Raintree Estates Neighborhood Association applied to the Neighborhood Partnering Program for a pocket park and the installation of a 10' fence in public ROW along Arabian Trail. This project was approved by the NPP Board (Directors of PZD, PARD, ATD, WPD, and PWD). A six foot fence is currently in place, but the neighborhood feels this (or an 8' fence) does not provide a reasonable barrier from highway noise and tall commercial buildings. The neighborhood requests a 10' fence as it will adequately block noise from the highway and businesses for the park and nearby residents. Please see the attached NPP application.

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

This is a unique circumstance because the neighborhood has adequate ROW for a small pocket park. This is an area where they have neighborhood meetings and would like to have more elaborate neighborhood gatherings. The current code allows a maximum of 8' which the neighborhood feels would not be adequate to shield this pocket park or the neighboring houses that face the highway, as you can see by the attached pictures.

b) The hardship is not general to the area in which the property is located because:

Typically a residential building would back a commercial property, meaning the backyards would be facing the commercial property but in this case the requested pocket park and neighborhood houses front the commercial properties. This configuration makes the noise, lights, and buildings able to be viewed by everyone in the neighborhood and is especially displeasing in the area used for recreation.

m2
3

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The neighborhood feels that putting in the park and a larger fence would restore the character of their residential neighborhood, which can be seen from the vast support of the neighborhood. Currently, each commercial property has installed their own fence, some being wood, some chain link, and there is no consistency. Installing one long consistent fence along this would be an aesthetically pleasing asset to the entire neighborhood and a cohesive look for the pocket park area.

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

Neighborhood Partnering Program Application Summary

Project Name: Raintree Estates Beautification and Pocket Park

Applicant: Raintree Estates Neighborhood Association

Project Location: Arabian Trail between neighborhood and US-183

Project Scope & Description

- Project will create a neighborhood gathering space, landscaping and a 10 foot wooden fence barrier to mitigate the highway noise of US-183 to the interior neighborhood.
- Project concept has been reviewed and approved by staff at the Public Works, Transportation and Watershed Protection Departments.

Project Costs & Cost Match

Total Project Costs: \$91,326

Raintree Estates Neighborhood Association – Cash Match, Professional Services, Materials & Volunteer Hours	\$22,523
City of Austin – Construction & Contingency	\$68,803

Raintree Estates Neighborhood Association Cost Share: \$35,346

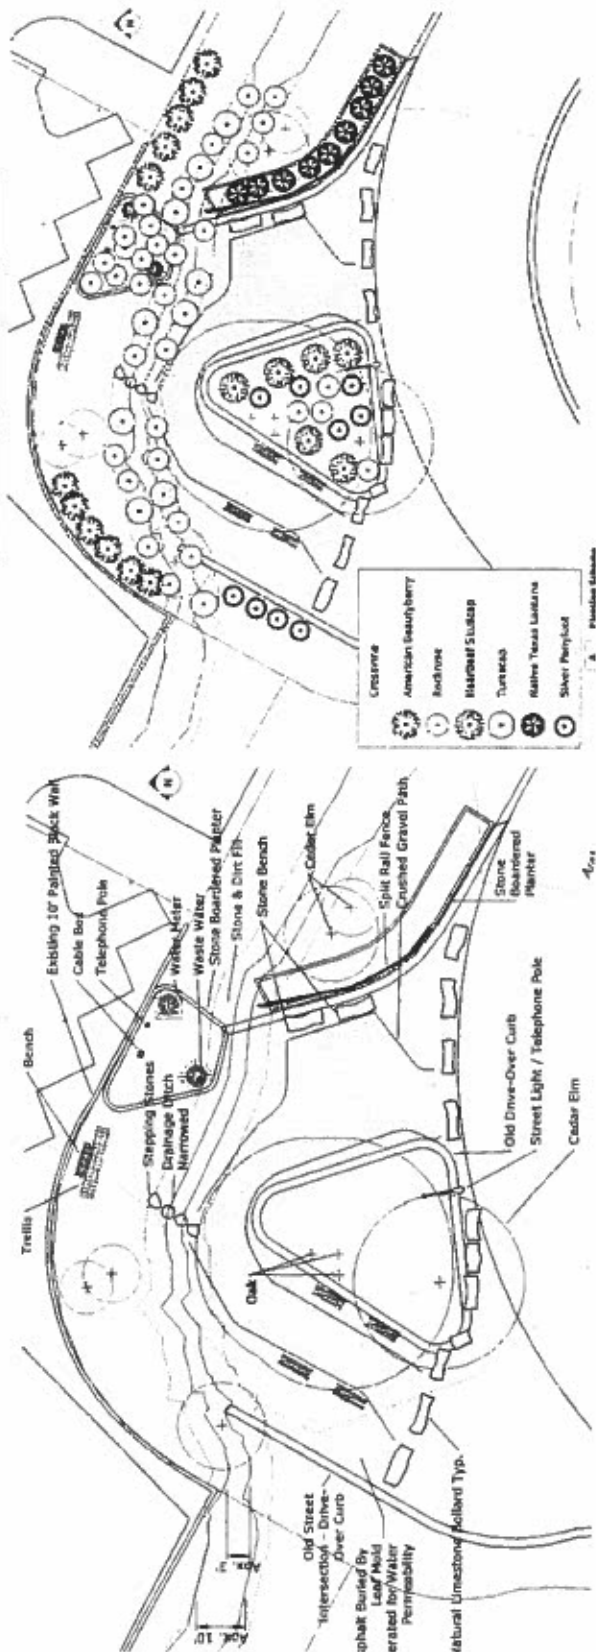

Materials, Professional Services & Volunteer Hours	\$22,523
Maintenance (Not Included in Total Project Costs)	\$12,823

Project Category: Standard : \$0- \$150,000

Cost Match Requirement (Community Cost Share / Total Project Costs): Met

Required Minimum Community Match (%)	30%
Actual Community Match (%)	39%

Raintree Estates Beautification and Pocket Park

2/2

Description of Support, Participation & Maintenance

NEIGHBORHOOD PARTNERING PROGRAM APPLICATION

"Empowering Neighborhoods, Building Community"

STEP 1: PROJECT OVERVIEW & ELIGIBILITY

Here is your chance to partner with the City to enhance your community! To start the process, please fill out the information below, attaching additional pages as needed. For assistance or to submit this application, please contact Justin Golbabai, Neighborhood Partnering Program Manager at justin.golbabai@austintexas.gov or (512) 974-6439.

Name of organization applying	Raintree Estates Neighborhood Association	
Address of organization applying	5820 Secrest Austin, TX	78759
Contact person Note: This person will be the only contact for the project and the only person able to request funding. The contact person <u>must</u> be a member of the neighborhood organization or entity representing the applicant.	Robert Conkright	
Email	b.conkright@sbcglobal.net	
Phone	512-423-5091	
Project name	Raintree Estates Beautification and Pocket Park	
Project location	Arabian Trail between neighborhood and US 183	78759
Expected project budget category	<input checked="" type="checkbox"/> Standard: \$0 - \$150,000 (Cost share minimum is 30%) <input type="checkbox"/> Large: \$150,000 - \$500,000 (Cost share minimum is 50%) <input type="checkbox"/> Grant Assistance Program (Can fund up to 50% of a local match requirement for external grants).	
Partnering organization(s) (Source of funds, labor, or contributions)	Neighborhood Association	

By signing this application, I certify that the information contained in the application is true and correct to the best of my knowledge. I certify that the contact person will be the only contact person for the project, the only person who is able to submit or request funding, and is a member of our neighborhood or community organization.

If the project is approved, I understand that the City will enter into a contract with the applicant's organization to ensure completion of the project as described in the application.

process	YES <u> </u>	NO <u> </u>	N/A <u>X</u>
Community garden project has been through the garden permit			
process			

STEP 2: PROJECT DETAILS

Project Description
Provide the details of the project including physical features, the locations of physical features, and requested quantities of items. Please submit maps and photos of the area, an example project or simple sketches.

m2
13

There is no common meeting area that is easily accessible to the residents of the Raintree Estates Neighborhood Association (RENA) which includes Arabian Trail, Highland Oaks, Hamrick Court, Bell Ave., Secrest and Rain Forest Cove. For the last several years we have used the circle at the sharp turn in Arabian Trail for Neighborhood Night Out and neighborhood meetings. In short, we meet in the street. This project would provide a meeting area, a so-called "pocket park." In addition, this project will greatly improve the aesthetics of this COA easement that has seriously degraded over the years.

We propose to use the city right-of-way along Arabian Trail (behind the businesses fronting US 183) and convert part of it to a meeting/social/park area. A new fence between the businesses and the meeting area will be erected, the trees will be trimmed and maintained and poison ivy and other non native invasive plants will be removed. The area is about 1,100 feet long and averages about 40 feet wide, therefore the project will be divided into 2 phases. The first phase of the project will include construction of a new 10 ft. fence from the curve on Arabian Trail to Bell Ave. The area at the curve of Arabian Trail to behind Brake Check will be converted to a pocket park. The second phase will convert the remaining right-of-way into a pocket park area with new native plant landscaping and amenities.

Phase I: A new fence will be erected between the neighborhood and US 183. RENA will trim the trees, remove dead trees, poison ivy and most of the non native invasive species (Ligustrum, Nandina, etc.) and the existing soil will be amended with new soil. Before the soil is amended, asphalt underneath the trees will be dug up and removed. During amendment of the soil we will remove rocks, weeds and unwanted grasses. The soil will be prepared to accept new plants. The new plants are currently being selected by experts in wildlife habitat design, native species and soils to allow us to design an environmentally responsible area that will attract butterflies, bees and birds. Appropriate mulch will be spread over the area upon completion. A drainage ditch currently runs through the area to be redesigned. We will not be able to do much to any area containing the drainage ditch until a CIP project to provide drainage in the neighborhood is accomplished. A short walking trail will be delineated with decomposed granite.

There ten wooden posts outlining the area to be landscaped (the steel cable that use to be threaded through these posts is broken and lying of the ground). These will be removed and replaced with bollards (it is our understanding that the city has these free of charge). This will keep cars from driving into the area and serve to mark the area from the street.

Pocket park amenities will be purchased and placed in the area. These include benches, paving stones and some type of mulch for the walkable areas.

The area will be maintained by the neighborhood association. This includes watering new plants as well as weeding, trash collection and any other necessary maintenance.

After Phase I is completed, planning will commence to start Phase II. Phase II will consist of converting the remainder of the right-of-way along Arabian Trail to Bell Ave into a more attractive area. However, before phase II can commence, a CIP project will have to be passed and finished in order to improve the drainage in the entire neighborhood. After the CIP project is finished RENA will commence work on phase II.

m2
14

Quality of Life Enhancements

Describe how the project will contribute to environmental improvement and neighborhood quality of life.

This project will improve the quality of life of residents in the area in several ways. First, it gives the residents an area for leisure activity and a meet-up area. There is no such area accessible to residents. To access the nearest such area, one has to cross Jollyville Road (a major artery) and walk about 5 miles.

Second, it provides a barrier between US 183 and the neighborhood. Currently, the area is separated by a small wooden fence that transients easily cross and provides no visual or acoustical relief from US 183. Neither the state nor the city has shown any interest in helping the neighborhood with noise or visual pollution even though we meet the state requirements for noise relief. The fact that businesses separate the neighborhood from US 183 and the city right-of-way behind the businesses disqualifies us from any state action. We have no sidewalks in the area and this would allow us to have an alternative to walking in the street and a place to meet with others. Our Neighborhood Night Out events and other neighborhood meetings are held in the middle of the street because of a lack of an outdoor meeting area. The 6 ft. fence, separating the businesses fronting US 183 and the neighborhood, is in a constant state of disrepair. It does not prevent people from using our neighborhood as a walk through to other areas. In at least one instance it has been used by an armed robber to escape police. People routinely park on our street and walk through the fence and gates to the businesses. Trash from the businesses is a constant source of irritation for residents. We think an 10 ft fence would aid in reducing these problems. One gate in the fence is required by the Austin Fire Department and RENA will provide an approved lock for the gate to minimize traffic in the area.

Thirdly, the area has tremendous drainage issues and this project will provide some minor relief. It will provide a manner for the water to flow down the easement adjacent to Arabian Trail to the drainage culvert at Bell and US 183. We are in the top 20 worst drainage areas in Austin. We have been promised, since the Jollyville Road expansion in the 1980's, that something would be done about our drainage issues. The only thing that the city has done about drainage is to construct the drainage channel.

Lastly, it establishes that this is a residential neighborhood. We have someone trying to convert a house in the area to a business on the average of once every 2-3 years. We think the large fence and the beautification of the area will reinforce the concept of a residential neighborhood.

The neighborhood will ask the city for a variance to make the fence 10ft. We will require assistance from COA staff for the appeal.

Maintenance Plan

Maintenance is a very important component to extending the life of a project. Describe the maintenance required after the project is completed. Who will be responsible for maintenance? What is the plan for maintaining the project?

m2
15

Maintenance of the area will be the responsibility of the neighborhood association and the neighbors in the area. The president of the neighborhood association will establish a maintenance committee to maintain the area. Residents who live in houses facing the area will water plants during the first 2 years until the vegetation is established. The area will be designed to reduce the efforts in maintaining that area. All native vegetation will be used. A Capital Area Master Naturalist, Travis County Master Gardener and a Certified Wildlife Habitat Specialist will consult on the planting of vegetation and the overall design. A designer from a construction company will help with the layout and design of the area.

STEP 3: EVIDENCE OF COMMUNITY PARTICIPATION & SUPPORT

Cost-Share Proposal

Describe how your organization will meet its cost-share requirement. You must list the specific activities and proposed frequency of maintenance efforts. For fundraising efforts, please list proposed timeframes for fundraising and target amounts. *Note: All projects must meet minimum cost-sharing requirements, but additional points are awarded for organizations that assume a greater percentage of the match.*

m2
16

We are asking the city grant to provide for fencing the area, about 60 cubic yards of decomposed granite and about 14 bollards for the area. The neighborhood will provide cash, labor, materials and/or donations for its match. This will allow for the construction of a 10 ft fence between the neighborhood and the businesses fronting US 183. RENA will paint or stain the fence when it is installed. The neighborhood will provide asphalt aeration, soil preparation, new plants, amenities, fence stain, approximately 200 man hours to complete the project and 2 years (5 man-hours per week) of maintenance. Any help the city can provide with any materials will be greatly appreciated.

We will work with the fence company to reduce the cost. For example, if trees need to be removed to put in the fence, we will remove the trees. We will remove the old fence, if possible.

It should be remembered that activities in the area are hampered by the need for the COA to provide some relief for drainage issues. Once these issues are resolved, RENA can then investigate converting the rest of the right-of-way into a more attractive area. It is estimated that the cost of converting the ROW is not covered in the grant request. However, because a CIP project is required before we can complete phase II, planning for the exact design of phase II will not be practical until we know the extent of work and type of work required for the CIP project.

It should be noted that the current fence is under some utility lines and therefore may have to be moved a few feet closer to Arabian Trail. RENA will be happy to work with the contractor and the city to determine the exact course of the fence. RENA, also welcomes input and consultation from COA staff members in the finalization of plans to ensure the success of the project.

The area at the curve in Arabian Trail is not a city ROW. The owner has given verbal permission to convert the area to a pocket park. We have requested this permission in writing and he is providing it. However, he recently had surgery and has been slow to send the written permission. It will be forwarded upon receipt.

One gate is required by the Austin Fire Department. The gate will be located behind PTerry's and will be locked. A "Knox Box" will be placed on the gate and the key will be given to AFD.

m2
m

Community Participation

Describe how your community is pitching in to make your project happen! Indicators of participation include contribution of labor, services, and materials; fund raising efforts; the number of persons contributing financially; and the number of property owners indicating approval of the project.

Many residents have pledged monetary contributions. One person has pledged up to \$3,000.00. Several residents have also pledged at least 50 man hours each to complete the project. It is estimated that we have pledges for a minimum of 600 man hours. A quick glance at the petition will indicate that a majority of persons who signed the petition indicated they were willing to contribute money and or labor.

One resident's son would like to use this project for his Eagle Scout project. Therefore, not only will he be working on the project but so will most members of his troop.

We obtained approval from 97 of the 136 addresses in the neighborhood. The rest of the residents or owners we were unable to reach. It should be noted that 100% of the people asked to approve the project did so. However, several of the businesses along Research Blvd. said that like the project but would not sign the petition because they did not own the property and would not speak for the property owner. We were unable to locate most of those property owners.

OTHER REQUIRED DOCUMENTS

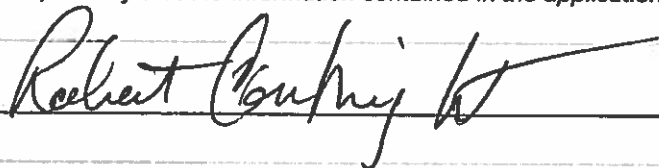

37
18

Not all of these documents are required for every application submitted. If you are unsure whether or not you should submit an item, check with the program coordinator.

- Proof of Support of property owners or impacted individuals and entities (*required for all applications*)
- Endorsement of affected neighborhood association (if the project is within a commonly recognized neighborhood association boundary, they must endorse the project)
- For cash matches: proof of required match or ability to raise funds within 6 months, including:
 - Proof of Cash Availability (Bank Statement) (if applicable)
 - Donation Letters (if applicable)
 - Fundraising Plan (if applicable)
- For in-kind and volunteer matches: proof of required match, including:
 - Signed volunteer pledge sheet
 - Scope and cost estimate of donated materials or professional services
- For Grant Assistance Applications, please provide grant information including grant terms from the funding agency.

By signing this application, I certify that the information contained in the application is true and correct to the best of my knowledge.

We, the undersigned owners, residents and/or occupants, have reviewed the proposed Neighborhood Partnering Program project plan. Below we indicate if we Support, Do Not Support or Choose to Agree with the Majority regarding the planned project.

Please use this petition to document:

- Approval by a minimum of 60% of the property owners or renters impacted by the project prior to final acceptance and approval of any grant. Only one signature from each household will be considered. Any multi-unit rental complex with 8 units or more can be represented by the owner or property manager. A good faith effort to collect all signatures must be made.
- The overall level of support and involvement of your community group. Projects must be endorsed by the appropriate neighborhood association or applicant entity. Include relevant meeting minutes or a description of your organization's endorsement process.

The project as proposed may be revised as necessary by the City of Austin's Public Works Department. The City reserves the right to install the project regardless of support levels.

Please check the appropriate box to indicate whether you SUPPORT, DO NOT SUPPORT or AGREE WITH THE MAJORITY and whether or not you plan to participate in the neighborhood partnering program project and sign in the SIGNATURE column.

COMMUNITY & IMPACTED STAKEHOLDER EVIDENCE OF SUPPORT PETITION

THE NEIGHBORHOOD PARTNERING PROGRAM:
EMPOWERING NEIGHBORHOODS, BUILDING COMMUNITY

3/2/22

Project Name:	RENA Beautification
Project Location:	ARABIAN TRAIL
Sponsoring Community Group	RENA

We, the undersigned owners, residents and/or occupants, have reviewed the proposed Neighborhood Partnering Program project plan. Below we indicate if we Support, Do Not Support or Choose to Agree with the Majority regarding the planned project.

Please use this petition to document:

- Approval by a minimum of 60% of the property owners or renters impacted by the project prior to final acceptance and approval of any grant. Only one signature from each household will be considered. Any multi-unit rental complex with 8 units or more can be represented by the owner or property manager. A good faith effort to collect all signatures must be made.
- The overall level of support and involvement of your community group. Projects must be endorsed by the appropriate neighborhood association or applicant entity. Include relevant meeting minutes or a description of your organization's endorsement process.

The project as proposed may be revised as necessary by the City of Austin's Public Works Department. The City reserves the right to install the project regardless of support levels.

Please check the appropriate box to indicate whether you SUPPORT, DO NOT SUPPORT or AGREE WITH THE MAJORITY and whether or not you plan to participate in the neighborhood partnering program project and sign in the SIGNATURE column.
