Additional Backup Information

The City of Austin Health and Human Services Department (HHSD) receives Community Services Block Grant funds through the Texas Department of Housing and Community Affairs (TDHCA). The allocation for the current grant period from January 1, 2016 to December 31, 2016 is \$1,092,098. These funds support HHSD's six (6) Neighborhood Centers and three (3) outreach sites. The Community Development Commission serves as the required CSBG Advisory Board for HHSD.

Texas Administrative Code Title 10, Part I, Chapter 5, Subchapter B Rule §5.213 and the CSBG Act requires a tripartite board, which is to include representatives from three sectors – public, low-income, and private. The required composition is as follows:

- 1/3 shall be elected public officials, holding office on the date of the selection, or their representatives
- not fewer than 1/3 of the members are persons chosen in accordance with democratic selection procedures adequate to assure that these members are representative of low-income individuals and families in the neighborhood served; reside in the neighborhood served; and are able to participate actively in the development, planning implementation, and evaluation of programs funded by CSBG; and
- the remainder are members of business, industry, labor, religious, law enforcement, education, or other major groups and interests in the community served.

During a recent TDHCA monitoring visit, the current structure of the Community Development Commission was determined to be deficient, as the current number of members is 16, which is not divisible by three. Currently, the Mayor appoints 8 members to the Community Development Commission which represent both the public and private sectors. The other 8 members are elected by the low-income neighborhoods they represent.

The amended ordinance would reduce the number of members appointed by the Mayor to seven (7). Of these, five (5) will represent the public sector and two (2) will represent the private sector. The number of representatives for the low-income sector will remain at eight (8) for a total CDC membership of fifteen (15). Due to a vacancy of one of the mayor-nominated seats, no current Community Development Commission members will be impacted by this change.

The amended ordinance will also specify the CDC as the required CSBG Advisory Board and will set forth the number of members representing each sector.

Performance Measures

The City of Austin's Neighborhood Centers contribute to several of the City's performance measures including:

<u>Measure</u>	<u>Goal</u>
Number of unduplicated persons served for the first time by the Neighborhood Services Activity for basic needs:	60,000
Number of unduplicated persons served by the Public Health Nursing activity	7,000
Percent of clients who followed through with referrals to a health provider	85%
Number of jobs obtained by individuals enrolled in the employment support services program	50
Number of unduplicated households receiving case management through Neighborhood Services Unit	315
% of households enrolled in self-sufficiency case management who report a reduction or elimination of income barriers	75%
