Contractor acknowledges and agrees that the Confidential Information is the valuable property of the City and/or its licensors and any unauthorized use, disclosure, dissemination, or other release of the Confidential Information will substantially injure the City and/or its licensors. The Contractor (including its employees, subcontractors, agents, or representatives) agrees that it will maintain the Confidential Information in strict confidence and shall not disclose, disseminate, copy, divulge, recreate, or otherwise use the Confidential Information without the prior written consent of the City or in a manner not expressly permitted under this Contract, unless the Confidential Information is required to be disclosed by law or an order of any court or other governmental authority with proper jurisdiction, provided the Contractor promptly notifies the City before disclosing such information so as to permit the City reasonable time to seek an appropriate protective order. The Contractor agrees to use protective measures no less stringent than the Contractor uses within its own business to protect its own most valuable information, which protective measures shall under all circumstances be at least reasonable measures to ensure the continued confidentiality of the Confidential Information.

6.11 **Advertising.** The Contractor shall not advertise or publish, without the City's prior consent, the fact that the City has entered into the Contract, except to the extent required by law.

6.12 **No Contingent Fees.** The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure the Contract upon any agreement or understanding for commission, percentage, brokerage, or contingent fee, excepting bona fide employees of bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty, the City shall have the right, in addition to any other remedy available, to cancel the Contract without liability and to deduct from any amounts owed to the Contractor, or otherwise recover, the full amount of such commission, percentage, brokerage or contingent fee.

6.13 **Gratuities.** The City may, by written notice to the Contractor, cancel the Contract without liability if it is determined by the City that gratuities were offered or given by the Contractor or any agent or representative of the Contractor to any officer or employee of the City with a view toward securing the Contract or securing favorable treatment with respect to the awarding or amending or the making of any determinations with respect to the performing of such contract. In the event the Contract is canceled by the City pursuant to this provision, the City shall be entitled, in addition to any other rights and remedies, to recover or withhold the amount of the cost incurred by the Contractor in providing such gratuities.

6.14 **Prohibition Against Personal Interest in Contracts.** No officer, employee, independent consultant, or elected official of the City who is involved in the development, evaluation, or decision-making process of the performance of any solicitation shall have a financial interest, direct or indirect, in the Contract resulting from that solicitation. Any willful violation of this section shall constitute impropriety in office, and any officer or employee guilty thereof shall be subject to disciplinary action up to and including dismissal. Any violation of this provision, with the knowledge, expressed or implied, of the Contractor shall render the Contract voidable by the City.

6.15 **Independent Contractor.** The Contract shall not be construed as creating an employer/employee relationship, a partnership, or a joint venture. The Contractor's services shall be those of an independent contractor. The Contractor agrees and understands that the Contract does not grant any rights or privileges established for employees of the City.

6.16 **Assignment-Delegation.** The Contract shall be binding upon and enure to the benefit of the City and the Contractor and their respective successors and assigns, provided however, that no right or interest in the Contract shall be assigned and no obligation shall be delegated by the Contractor without the prior written consent of the City. Any attempted assignment or delegation by the Contractor shall be void unless made in conformity with this paragraph. The Contract is not intended to confer rights or benefits on any person, firm or entity not a party hereto; it being the intention of the parties that there be no third party beneficiaries to the Contract.

6.17 **Waiver.** No claim or right arising out of a breach of the Contract can be discharged in whole or in part by a waiver or renunciation of the claim or right unless the waiver or renunciation is supported by consideration and is in writing signed by the aggrieved party. No waiver by either the Contractor or the City of any one or more events of default by the other party shall operate as, or be construed to be, a permanent waiver of any rights or obligations under the Contract, or an express or implied acceptance of any other existing or future default or defaults, whether of a similar or different character.

6.18 **Modifications.** The Contract can be modified or amended only in writing signed by both parties. No pre-printed or similar terms on any Contractor invoice, order or other document shall have any force or effect to change the terms, covenants, and conditions of the Contract.

6.19 **Interpretation.** The Contract is intended by the parties as a final, complete and exclusive statement of the terms of their agreement. No course of prior dealing between the parties or course of performance or usage of the trade shall be relevant to supplement or explain any term used in the Contract. Although the Contract may have been substantially drafted by one party, it is the intent of the parties that all provisions be construed in a manner to be fair to both parties, reading no provisions more strictly against one party or the other. Whenever a term defined by the Uniform Commercial Code, as enacted by the State of Texas, is used in the Contract, the UCC definition shall control, unless otherwise defined in the Contract.

6.20 **Dispute Resolution.**

6.20.1 If a dispute arises out of or relates to the Contract, or the breach thereof, the parties agree to negotiate prior to prosecuting a suit for damages. However, this section does not prohibit the filing of a lawsuit to toll the running of a statute of limitations or to seek injunctive relief. Either party may make a written request for a meeting between representatives of each party within fourteen (14) calendar days after receipt of the request or such later period as agreed by the parties. Each party shall include, at a minimum, one (1) senior level individual with decision-making authority regarding the dispute. The purpose of this and any subsequent meeting is to attempt in good faith to negotiate a resolution of the dispute. If, within thirty (30) calendar days after such meeting, the parties have not succeeded in negotiating a resolution of the dispute, they will proceed directly to mediation as described below. Negotiation may be waived by a written agreement signed by both parties, in which event the parties may proceed directly to mediation as described below.

6.20.2 If the efforts to resolve the dispute through negotiation fail, or the parties waive the negotiation process, the parties may select, within thirty (30) calendar days, a mediator trained in mediation skills to assist with resolution of the dispute. Should they choose this option, the City and the Contractor agree to act in good faith in the selection of the mediator and to give consideration to qualified individuals nominated to act as mediator. Nothing in the Contract prevents the parties from relying on the skills of a person who is trained in the subject matter of the dispute or a contract interpretation expert. If the parties fail to agree on a mediator within thirty (30) calendar days of initiation of the mediation process, the mediator shall be selected by the Travis County Dispute Resolution Center (DRC). The parties agree to participate in mediation in good faith for up to thirty (30) calendar days from the date of the first mediation session. The City and the Contractor will share the mediator's fees equally and the parties will bear their own costs of participation such as fees for any consultants or attorneys they may utilize to represent them or otherwise assist them in the mediation.

6.21.1 All City procurements are subject to the City's Minority-Owned and Women-Owned Business Enterprise Procurement Program found at Chapters 2-9A, 2-9B, 2-9C and 2-9D of the City Code. The Program provides Minority-Owned and Women-Owned Business Enterprises (MBEs/WBEs) full opportunity to participate in all City contracts.

6.21.2 The City of Austin has determined that no goals are appropriate for this Contract. **Even though no goals have been established for this Contract, the Contractor is required to comply with the City's MBE/WBE Procurement Program, Chapters 2-9A, 2-9B, 2-9C and 2-9D, of the City Code, as applicable, if areas of subcontracting are identified.**

If a Plan has been approved, the Contractor is additionally required to submit a monthly Subcontract Awards and Expenditures Report to the Contract Manager and the Purchasing Office Contract Compliance Manager no later than the tenth calendar day of each month.

The City may require, as a condition to such further subcontracting, that the Subcontractor post a payment bond in form, substance and amount acceptable to the City;

6.22.2.3 require Subcontractors to submit all invoices and applications for payments, including any claims for additional payments, damages or otherwise, to the Contractor in sufficient time to enable the Contractor to include same with its invoice or application for payment to the City in accordance with the terms of the Contract;

- (3) To post in conspicuous places, available to employees and applicants for employment, notices to be provided by OWNER setting forth the provisions of this chapter.
- (4) To state in all solicitations or advertisements for employees placed by or on behalf of the Contractor, that all qualified applicants will receive consideration for employment without regard to race, creed, color, religion, national origin, sexual orientation, gender identity, disability, veteran status, sex or age.

For the purposes of this Offer and any resulting Contract, Contractor adopts the provisions of the City's Minimum Standard Nondiscrimination Policy set forth below.

City of Austin
Minimum Standard Non-Discrimination in Employment Policy:

As an Equal Employment Opportunity (EEO) employer, the Contractor will conduct its personnel activities in accordance with established federal, state and local EEO laws and regulations.

If this is not a suitable avenue for addressing their complaint, employees are advised to contact another member of management or their human resources representative. No employee shall be discriminated against, harassed, intimidated, nor suffer any reprisal as a result of reporting a violation of this policy. Furthermore, any employee, supervisor, or manager who becomes aware of any such discrimination or harassment should immediately report it to executive management or the human resources office to ensure that such conduct does not continue.

Contractor agrees that to the extent of any inconsistency, omission, or conflict with its current non-discrimination employment policy, the Contractor has expressly adopted the provisions of the City's Minimum Non-Discrimination Policy contained in Section 5-4-2 of the City Code and set forth above, as the Contractor's Non-Discrimination Policy or as an amendment to such Policy and such provisions are intended to not only supplement the Contractor's policy, but will also supersede the Contractor's policy to the extent of any conflict.

UPON CONTRACT AWARD, THE CONTRACTOR SHALL PROVIDE A COPY TO THE CITY OF THE CONTRACTOR'S NON-DISCRIMINATION POLICY ON COMPANY LETTERHEAD, WHICH CONFORMS IN FORM, SCOPE, AND CONTENT TO THE CITY'S MINIMUM NON-DISCRIMINATION POLICY, AS SET FORTH HEREIN, **OR** THIS NON-DISCRIMINATION POLICY, WHICH HAS BEEN ADOPTED BY THE CONTRACTOR FOR ALL PURPOSES (THE FORM OF WHICH HAS BEEN APPROVED BY THE CITY'S EQUAL EMPLOYMENT/FAIR HOUSING OFFICE), WILL BE CONSIDERED THE CONTRACTOR'S NON-DISCRIMINATION POLICY WITHOUT THE REQUIREMENT OF A SEPARATE SUBMITTAL.

**ADDENDUM
CITY OF AUSTIN, TEXAS**

Solicitation: RFP 2200 JXP0501

Addendum No: 1

Date of Addendum: 4/6/16

This addendum is to incorporate the following changes to the above referenced solicitation:

I. Questions:

(Q1) What was the nutrient content of the previous compost piles?

(A1) Please see Attachment A below.

(Q2) Is the make-up of the compost material the same as the make-up of previous compost material from the City?

(A2) It is similar.

(Q3) Can offerors do independent testing of the compost piles?

(A3) No.

(Q4) The selected Contractor will be guaranteed five compost piles, correct?

(A4) The City cannot guarantee quantities, but will do everything possible to provide at least five piles.

(Q5) If a compost pile catches on fire while on City property will the selected Contractor still get at least five piles?

(A5) In the event of an onsite fire that destroys one of the first five piles, the City will attempt to replace the destroyed pile with a new one. Again, the City cannot guarantee quantities, but will do everything possible to provide at least five.

(Q6) Can the selected Contractor screen the compost material onsite?

(A6) No.

(Q7) Does the No Contact Period apply to other contracts? For example, if an offeror wants to submit an offer on this solicitation, and that offeror already has a separate contract with the City, can the offeror still contact the department about the existing contract?

(A7) The No Contact Period only applies to this solicitation. Offerors may contact the department regarding contracts already in place.

(Q8) How quickly should the selected Contractor notify the City of any spills?

(A8) Within 24 hours.

(Q9) Considering the amount of equipment that will be going in and out of Hornsby once the work begins, can the City provide a standard on traffic control to the selected Contractor?

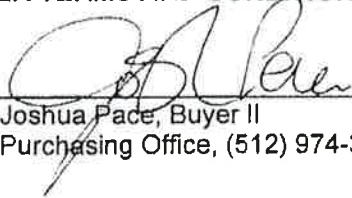

(A9) Yes, the City will request a meeting with the selected Contractor one week prior to beginning work to discuss traffic guidelines.

(Q10) What was the price of the compost piles in the previous contract?

(A10) The City sold each pile for \$26,212.50.

II. ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.

ii. Innovative reuse methods consistent with goals of the City

This process will also add fertility and enhance soil water holding capacity through addition of organic materials.

Tab 3 - Contingency Plans

a. Contingency plan

i. Odor and Dust Control

Most properties adjoining the identified locations are agricultural so there is limited impact to residential and/or commercial users. Unscreened material will be spread unscreened with standard agricultural machinery. Spreading rates will be adjusted to minimize any dust and/or odors.

Offeror will publicize contact information (eg, telephone number and email) as needed. Offeror will investigate and validate complaints. If determined valid, Contactor will cease operation near complainant.

Offeror also carries general liability insurance on each property where material will be spread.

ii. Fire Prevention

Offeror employees will participate in Fire Drills. Furthermore, they will receive training on how to respond to a fire emergency. Specifically, if a fire is reported, they will sound a fire alarm, (if available and not already activated) to warn Hornsby site occupants to evacuate. Then they will Dial 911 to alert Austin Fire Department. They will provide the following information:

- Business name and street address

iii. Spill Response

Prevention

Offeror will manage all hazardous substances, including chemical wastes, in a way that prevents release.

Employee Training

All Offeror employees will receive periodic training on the proper handling of hazardous substances; spill prevention practices, and emergency response procedures. Training will include a review of the spill prevention and emergency response plan, and a review of location and use of emergency response

equipment. Training can be recorded through safety committee meetings, staff training logs, or other equivalent record keeping.

Hazardous Substance Inventory

Offeror will maintain an inventory for all hazardous substance stored in quantity (<55 gallons), and/or list of locations where non-bulk hazardous substances are stored.

Spill Response Equipment

Spill response equipment must be maintained and located in areas where spills are likely to occur. Spill kits should provide adequate response capabilities to manage any anticipated spill or release. The following general requirements are to be followed.

Control

In the event of a compost material spill, your first goal should be to eliminate the source of the spill. Whether it be caused by equipment malfunction, storage overflow, or improper application techniques, address the situation immediately, if Offeror can do so safely.

Containment

After addressing the source of the spill, Offeror will focus on protecting waterways and other environmentally sensitive areas. This could be done by building small dams to contain the flow of liquid compost material, or covering culverts and drain tile inlets with plywood or plastic sheeting.

Compliance

Offeror will assess the damage and report the spill to the City and other proper authorities. Offeror will contact both Austin emergency responders as well as regional/statewide agricultural and environmental agencies as needed.

Clean Up

Offeror will remove the spilled compost materials and make any repairs needed to restore the affected area.

Evaluation

Finally, after each incident, Offeror will conduct an investigation and issue an After-Action Report (AAR) to the City and other applicable parties.

b. Prevention of public health nuisances and responds to public complaints

Operations

Compost site operators need to optimize certain conditions in order to produce high-quality mature compost without nuisance odors and pests.

Oxygen

During the active composting stage (the first 2 to 3 weeks), turn material once per week at a minimum. Composting generates odors. The key is not generating nuisance odors. Something is wrong if your piles are emitting strong putrid odors. Bad odors could be a sign that the pile has gone anaerobic or has

anaerobic pockets. If this is the case, turning and remixing will help inject more oxygen. (Not enough carbon could also create nuisance odors.)

Moisture

Offeror can most practically gauge proper moisture levels (40 to 65%) on-site by conducting a “hand squeeze test.” The squeeze test entails taking a handful of decomposing material from the compost system and squeezing. If the material sticks together, and the hand is moist and glistening, this is an indicator of ideal moisture content ranging between 50 to 60%. Material that is crumbly, leaving the hand dry indicates inadequate moisture, whereas material that sticks together with excessive dripping down the arm indicates too much moisture.

Storing and Collecting Materials

All storage units (as well as the composting system itself) should be adequately secured. Properly sealed and fastened lids, bungee chords, combination locks, and other devices should be used to securely close units until composting is finished. Composters that closely monitor for and prevent vector disturbances, unsightly and unsanitary messes, and unpleasant smells will have the greatest success.

Avoidance

Odors: Odor control is critical to advancing community-based composting. Maintaining aerobic (adequate oxygen transport) conditions in the composting system (e.g. by using the correct C:N ratio, mixing wet feedstocks with porous bulking amendments, consistently turning or aerating the composting system) is key to controlling odor.

Pests: Controlling odors will help control pests. Offeror will create favorable, aerobic conditions for the microorganisms within the properties, not for pests. Offeror will ensure site and tools are left clean with no visible food and that all vector deterrents on their composting system are securely in place (e.g. hardware cloth fastened, holes repaired).

Contact and storm water: Offeror will maintain sites with good drainage in order to avoid pools of standing water, which can attract mosquitoes and other unwanted pests. Offeror may also implement proactive watershed protection measures by installing a buffer (e.g. a vegetated filter strip or compost or wood chip berm) between the composting system and any surface or groundwater resources to intercept potential “contact” water (this is water that has contacted raw feedstocks or actively composting materials).

Unsanitary practices: Composting systems are resource recovery sites, not waste disposal facilities and are treated as such. Offeror will maintain a clean, safe, and friendly environment. Offeror will wear protective gloves while composting and washing their hands to avoid the spread of bacteria when finished.

Response

Clear and visible signage facilitates awareness, and proper site maintenance. Offeror will use signage to provide public with contact information (including telephone and email address) to report any complaints. Signs can either be mounted on posts in the ground or fastened directly to an object, so long as they are solidly in place.

Complaints will be reviewed within 24 hours to determine their validity. Valid complaints will be remediated immediately, documented, and evaluated.
