Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

The current regulations do not allow for a reasonable use of the property because the long, narrow configuration of the property makes the property not reasonably developable if compatibility standards are applied.

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

Hardship is unique to this property because the property is zoned for dense commercial use but has a long, narrow configuration that makes it infeasible to develop in compliance with the City's comprehensive plan if the compatibility standards are applied.

b) The hardship is not general to the area in which the property is located because:

The hardship is not general to the area because no other tracts in the area are similarly situated and similarly configured.

m3
4

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The variance will not alter the character of the neighborhood because the area is highly commercial, the adjacent property which triggers compatibility functions as a multi-family development that would not normally trigger compatibility, and the property is located on a major mobility corridor.

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

N/A

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

N/A

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

N/A

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

N/A

Comments: We consistently use the entirety of our property and to have either the hotel drive way or hotel itself towering 5 feet away from our property line would greatly detract from our privacy and tranquility. Also, we're concerned with the noise as we held many events and educational programs.

Comments: Preserving the serene atmosphere at the divider property is a must for its proper use. Granting the requested variances infringes on the use & suitability for our property. The 50' set back for the pool should be maintained to keep the noise of social life at night at bay. Putting the driveway 5' from our property will certainly cause nightly disturbances. Putting the front building right on our property line is totally unacceptable & will cause privacy issues & increase the noise problem from balconies.

Comments: I object the proposed development because this change would disturb the present quiet and comfortable atmosphere around my home. This is personally very important to me and my health. Furthermore, a 4-story building next to my home would potentially invade my privacy by having guests look over on my property at 2530 Congress.

Comments: I have lived at 2510 S Congress for

half my life, over 15 years. A hotel that

will take away my views of the sky, my privacy,

and my quiet is not welcome. I object to the

building so close to our property.

Comments: I strongly object to the proposed developments by the building contractors, including a 4-story building because such developments would greatly affect the adjacent residents, disrupting the integrity and peaceful environment that exists around the house holds of many Christian missionaries @ 2530 S. Comments: As a missionary, what I call my "quiet time" spent in prayer and reflection before God is crucial. In it I prepare both to publicly speak and counsel people I meet with. Having the flow of traffic and noise the hotel would bring nearer to our property than such allows would disrupt my preparation. As a low income resident, I have nowhere else to go - this is both my home and office. Having the least amount of disruption (and our privacy protected) is necessary.

Comments: As a resident of the property adjacent to the proposed development of the Guest Hotel, I feel concerned about the increase in noise and traffic such as might be attracted by the hotel. We have an infant. While I don't object to a nice establishment replacing the previous fast food restaurant, I do prefer that it be built within code - specifically, being maintained out of respect for the families next door.

Comments: I object to the proposed variances. I feel that hotel will disrupt the overall atmosphere of the neighborhood. There will be less privacy due to the towering height of the hotel. The noise level will increase and the higher traffic of occupants could increase crime rates.

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or

Comments: I have lived on the church property for about ten years.

This is my home and place of rest from my busy schedule. The further away the hotel activities are from the church property the less disturbance it will cause me. If the hotel is built so close to us I will be very uncomfortable having their windows facing the place where I live, being a single woman privacy & security are very important to me. If they build a 4 story building so close to us the church property will be very enclosed making the place where I live a noisy and busy place to live in.

Comments: As a middle age, single woman living at 2530 S. Congress, I object to the City of Austin's approval of the developer's requested waivers (driveway, swimming pool, building). The requested

variances would invade personal space + privacy, disrupt the view, and increase noise levels in the neighborhood.

Comments: The unit I am living in borders the lake built hotel. The head of my bed will be only 11 FEET from their driveway. Furthermore, the lack of distance between their buildings and ours violates my personal privacy and encroaches the church's building. This will drastically affect my life & sleep.

However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing; and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.
