

Hi Steve,

Sorry for the delay on getting back to you on this. I don't have any issues with the provisions. I would prefer section 5.1.6 be titled "Energy Efficiency" rather than sustainability as I think it is more accurate. I would also prefer 5.1.7 use a different title. Mechanical equipment and satellite dishes are not really sustainability equipment. Possibly "Mechanical and Electrical Equipment".

Let me know if you need anything else,

Heidi Kasper
