

**Recommendation for
Water & Wastewater Commission**

| | |
|---|---|
| Commission Meeting Date: | December 14, 2016 |
| Council Meeting Date: | January 27, 2016 |
| Department: | Capital Contracting Office |
| SUBJECT | |
| <p>Authorize execution of a construction contract with SANTA CLARA CONSTRUCTION, LTD., for the Wastewater Line Renewal And Spot Rehab Service Contract (2017 to 2019) Indefinite Delivery/Indefinite Quantity in the initial amount of \$3,200,000 with two 12-month extension options, for a total contract amount not to exceed \$9,600,000, over an estimated three years or until financial authorization is depleted.</p> | |
| AMOUNT AND SOURCE OF FUNDING | |
| <p>Funding in the amount of \$2,900,000 is available in the Fiscal Year 2016-2017 Capital Budget of Austin Water. Funding in the amount of \$300,000 is available in the Fiscal Year 2016-2017 Capital Budget of the Watershed Protection Department. Funding for the extension options is dependent on availability in future budgets.</p> | |
| Purchasing Language: | Lowest responsive bid of seven bids received through a competitive Invitation for Bid solicitation. |
| Prior Council Action: | N/A |
| For More Information: | Rolando Fernandez, 512-974-7749; Greg Kirton, 512-972-2053; Denise Avery, 512-972-0104; Sarah Torchin, 512-974-7141 |
| Boards and Commission Action: | December 14, 2016- To be reviewed by the Water and Wastewater Commission. |
| MBE/WBE: | This contract will be awarded in compliance with City Code Chapter 2-9A (Minority Owned and Women Owned Business Enterprise Procurement Program) by meeting the annual/project participation goals or through the achievements of Good Faith Efforts with 1.64% African American, 3.63% Hispanic, 0.98% Asian/Native American, and 0.73% WBE participation. |

This project involves the rehabilitation and replacement of deteriorated wastewater mains throughout the city using an Indefinite Delivery/Indefinite Quantity (ID/IQ) construction contract including performing emergency repairs on wastewater mains and the wastewater collection system. In general, work sites are larger or more complex than City crews can complete, but too small, isolated, or time sensitive to competitively bid as individual construction contracts.

The wastewater collection system includes over 2,800 miles of piping throughout the city that transports wastewater from residences and businesses to the wastewater treatment plants. Due to growth in Austin and deterioration from age and harsh wastewater environment, existing collection system assets require on-going maintenance including repair and replacement.

The base bid was used to identify and determine the lowest responsive bidder and to determine contract unit prices for each bid item. The not-to-exceed contract amount of \$9,600,000 is the amount budgeted for this contract and Council authorization will allow Austin Water to issue work assignments up to the budgeted amount within the specified contract time. This request allows for the award and execution of a construction contract with the recommended firm for an estimated period of 1 year with two 1-year extensions. The extension options are subject to the mutual agreement of both parties.

The work performed by this service contract may be located anywhere within Austin Water's service area and may be performed in all Districts. The project will be managed by Austin Water. Construction to be performed by Santa Clara Construction, Ltd. located in Austin, Texas.

This construction contract is time sensitive and is a critical component of maintenance and emergency repairs to the wastewater collection system. Failure to enter into contract will place an undue burden on City construction crews.

Funding in the amount of \$300,000 will be used for the repair and replacement of storm water mains throughout the city, including performing emergency repairs on storm water mains, paid for by the Watershed Protection Department.

Participation sub goals stated in the solicitation were 1.64% African American, 3.63% Hispanic, 0.98% Native American/Asian, MBE and 0.73% WBE. The recommended firm provided a MBE/WBE Compliance Plan which met the goals of the solicitation and was approved by the Small and Minority Business Resources Department.

Notification of issuance of an Indefinite Delivery/Indefinite Quantity for the subject services was distributed on September 5th, 2016, and seven firms submitted bids.

The contract allows 365 days for completion of this project. The work performed by this service contract may be located anywhere within Austin Water's service area and may be performed in all Districts. The project will be managed by Austin Water.

Santa Clara Construction, Ltd. is located in Austin, Texas.

Information on this solicitation is available through the City's Financial Services Austin Finance Online website. Link: [Solicitation Documents](#).

M/WBE Summary

Public notice was given for this solicitation, CLMC619 WW Line Renewal & Spot Rehab Svc-2017-2019 IDIQ, through the City's Vendor Connection web portal which resulted in 529 contractors receiving notification. 74 contractors obtained the bid documents and seven bids were received and opened on October 13, 2016. Two out of the three lowest bids received were certified MBE/WBE. Santa Clara Construction, Ltd. submitted the lowest responsive bid of seven bids received:

| | | |
|--|------------|-------------|
| Santa Clara Construction, Ltd. (M/H) | Austin, TX | \$3,848,605 |
| Smith Contracting Co. Inc. (Non M/WBE) | Austin, TX | \$3,892,615 |
| Peabody General Contractors, Inc. (F/W) | Austin, TX | \$4,368,650 |

The contractor's choice of work methodology provides for 9 areas of subcontracting opportunities which are listed below. Participation sub-goals stated in the solicitation were MBE: 1.64% African American, 3.63% Hispanic, 0.98% Asian/Native American, and 0.73% WBE. Total participation estimated on base bid amount of \$3,848,605.00.
