Subject: FW: PC Agenda 12/13/16 POSTPONEMENT for Thrasher Lane re-zoning and NPA case

Importance: High

Andrew,

As you are aware the December 13th PC hearing is tomorrow.

Per City records I met with staff and filed the applications as early as June 22, 2016 – almost six months ago. Only today was I able to review both staff reports + backup material *for the first time*.

Although you and I have been diligently working on aspects of the re-zoning report during recent weeks, both staff reports need to be studied concurrently so a more thorough analysis and response can be administered by my office, and thus, a more thorough presentation can be made to the Planning Commission.

Please accept this email as formal request to postpone the case to the January 24th Planning Commission hearing.

Please confirm receipt of this email.

Maureen – I would like to meet with you and your team to better understand the NPA staff report. When can we do so?

Thank you in advance.

Kind Regards,

David C. Cancialosi
