HEALTH AND HUMAN SERVICES EXPERIENCE AND/OR KNOWLEDGE:

1. Background and training in biomedical sciences, public health, demography, and public affairs.
2. Extensive research agenda focusing on publicly-funded reproductive health services in Travis Co., including policies and programs to reduce unintended pregnancy and increase contraceptive access (1115 waivers, Medicaid coverage of postpartum contraception, Women's Health Program, role of FQHCs).
3. Health policy analysis and expert testimony experience in the Texas legislature.
4. Extensive research agenda on reproductive health issues including reduction of unintended pregnancy and obstetric guidelines for high-risk delivery at the national and international level.

PERSONAL STATEMENT: WHY ARE YOU SEEKING MEMBERSHIP ON THIS BOARD?

In my role as Assistant Professor of Public Affairs, I believe that one of my most important duties, both as a public employee and as a citizen of Travis county, is to contribute my knowledge, skills, and expertise to improve the health and wellbeing of our community. Having spent the last six years conducting research with women and men who rely on publicly-funded health services in Travis County, I have in-depth, first-hand knowledge of their experiences, needs, and hopes. It is these perspectives that inform my ideas and opinions about what the board of Central Health must accomplish. My extensive interdisciplinary background in clinical medicine, public health, demography, and public affairs allows me to bring a unique set of skills to the board. Current members already bring considerable depth in public financial management, public administration, law and policy, and medical practice. I believe I can offer a complementary skill set, focusing on policy analysis and outcome evaluation to ensure an effective, evidence-based approach to hearing the voices and meeting the needs of all members of our community.

NOTE: PLEASE ATTACH A RÉSUMÉ.

ABIGAIL R.A. AIKEN

Lyndon B. Johnson School of Public Affairs
University of Texas at Austin
