Re: Compatibility Waivers for Guesthouse Hotel, 2510 South Congress Avenue
(Site Plan No. SP-2015-0300C).

Dear Ms. Courtney:

As you know, I represent the Church in Austin (hereafter "Church") in connection with the application by applicant Wuest Group (owner Krug Development) for two compatibility waivers for The Guesthouse Hotel project at 2510 S. Congress Avenue (Site Plan No. SP-2015-0300C). The Church in Austin is on the southern adjoining property located at 2530 S. Congress Ave.

On June 28, 2016, the Planning Commission granted two compatibility waivers, as reflected on pages 5 and 6 of the Planning Commission minutes attached as Exhibit "A". The Church in Austin has perfected an appeal of the compatibility waivers granted by the Planning Commission. The Church in Austin's appeal is on Council's September 1, 2016 agenda, although I understand that an agreed postponement to November 3, 2016 is pending.

Since the appeal was docketed, staff has been made aware that the waivers were approved on the basis of an erroneous application of the compatibility rules for this site. Staff assumed (and the Planning Commission was told) that compatibility regulations were triggered only by the SF-3 zoned western portion of the Church property adjoining

BARTON OAKS PLAZA, 901 S. MOPAC EXPWY, BLDG 1, STE 500, AUSTIN, TEXAS 78746

WEB: www.coatsrose.com

the site to the south. Under this application of the rules, only the western portion of the site required compatibility waivers.

It is now clear that the proposed development must satisfy compatibility regulations along the entire southern boundary of the site. The eastern portion of the Church tract, although zoned CS-V-CO-NP, is used as a church and therefore triggers compatibility requirements under Section 25-2-1051(A)(1)(a)(ii) of the Land Development Code. The approved compatibility waivers are insufficient to permit the development of the project in the proposed configuration. For example, the Planning Commission approved a waiver for only approximately two-thirds of the length of the driveway along the southern border, not the entire length of driveway along the southern border. The other one-third of the driveway along the southern border was not brought before the Planning Commission. The waiver therefore is insufficient. Indeed, the proposed site plan cannot be approved even with compatibility waivers granted by the Planning Commission because the site plan proposes to exceed the compatibility height limitation on the building closest to South Congress Avenue. As you are aware, the Planning Commission is authorized to grant waivers from the compatibility regulations' height restrictions only in narrow circumstances not applicable here.

The notice of the Planning Commission's hearing on the compatibility waivers, attached as Exhibit "B", falsely portrayed that "Two waivers to Compatibility standards are required", when in fact additional compatibility waivers and variances are required. The Planning Commission considered the waivers in conjunction with a site plan that cannot be approved under the compatibility regulations even with waivers from the Planning Commission. The Planning Commission conditioned the waivers on adherence to "mitigating measures" that were, again, tied to a specific configuration of the site. See Compatibility Waiver Review Sheet, Scott Wuest Memo (March 30, 2016), attached as Exhibit "C".

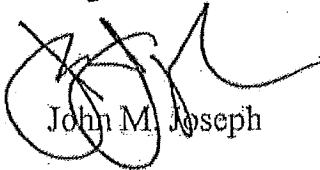

Given these circumstances, it is clear that the compatibility waivers were conditioned on an incomplete and inaccurate notice and an inaccurate depiction of the allowable development. The waivers are void, and the applicant should be required to resubmit its request for compatibility waivers to the Planning Commission. Moreover, the applicant should be allowed to resubmit a waiver request only after submitting a site plan that otherwise complies with applicable compatibility regulations. The Planning Commission cannot make an informed judgment about the need for compatibility waivers without such information.

September 1, 2016

Page 3

We accordingly request that you advise the applicant that the compatibility waivers are void and the existing site plan is rejected, and that the applicant will be permitted to reapply for compatibility waivers only after submission of a site plan that otherwise complies with applicable development regulations.

The City of Austin has sent this letter to inform you that we have received an application for a site plan that requires approval by a Land Use Commission (either the Planning Commission or the Zoning and Platting Commission). We are notifying you because City Ordinance requires that all property owners within 500 feet, residents who have a City utility account address within 500 feet, and registered environmental or neighborhood organizations whose declared boundaries are within 500 feet be notified when the City receives an application.

Applicant:	Wuest Group, Scott M. Wuest, (512) 394-1900
Owner:	Krug Development, David Krug, (773) 750-3706
Project Name:	2510 S Congress
Project Address:	2510 S CONGRESS AVE

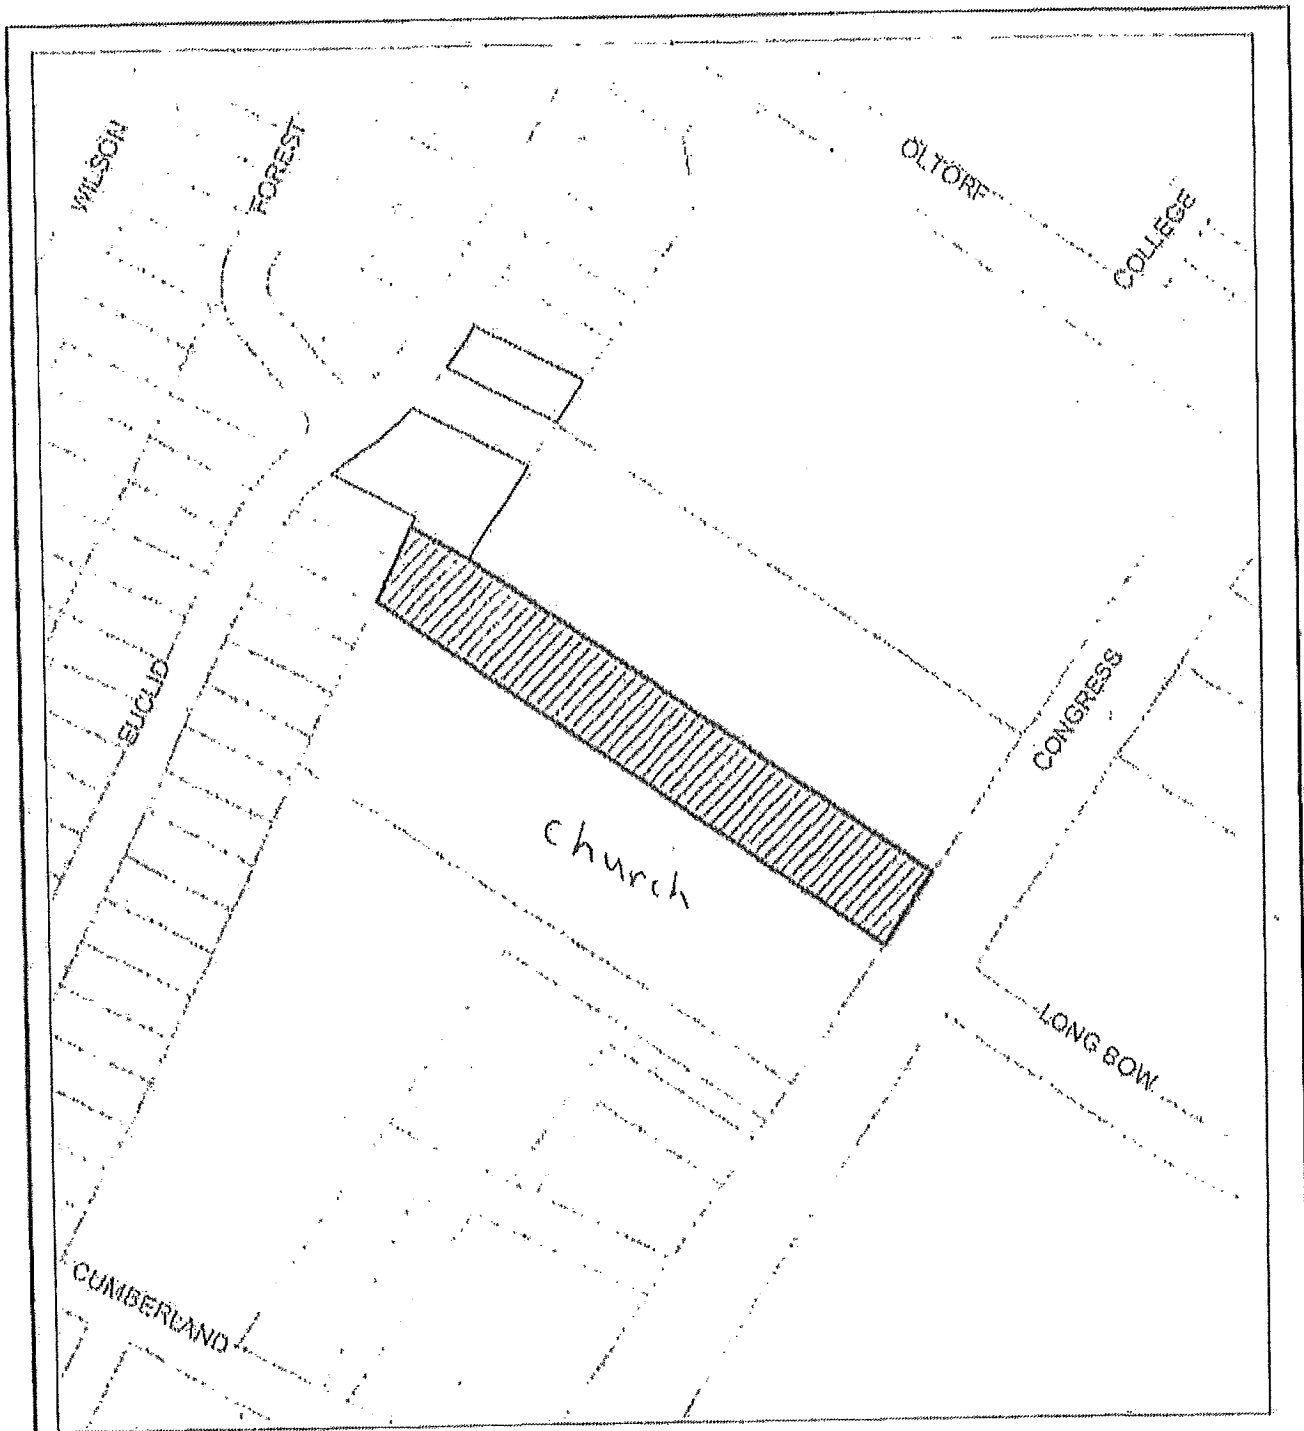

Project Description: The applicant is proposing to construct a hotel with associated improvements. Two waivers to Compatibility standards are required: 25-2-1067(F): to allow an intensive recreational use (swimming pool) within 50' of an adjacent property zoned SF-5 or more restrictive (request 28'); and 25-2-1067(H): to allow a driveway to be constructed within 15' of an adjacent property zoned SF-5 or more restrictive (request 5').

This application is scheduled to be heard by the **Planning Commission on June 14, 2016**. The meeting will be held at City Hall Council Chambers, 301 West 2nd Street beginning at 6:00 p.m.

You can find more information on this site plan by inserting the case number at the following Web site: https://www.austintexas.gov/devreview/a_queryfolder_permits.jsp. PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

A zoning ordinance amendment may include a conditional overlay which would include conditions approved by the Land Use Commission or the City Council. If final approval is by a City Council's action, there is no appeal of the Land Use Commission's action.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 14 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/devservices.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice.

RE: *Compatibility Waiver*
The Guesthouse Hotel
2510 S Congress
SP-2015-0300C
Austin, Travis County, Texas

Dear Ms. Courtney,

Please accept this letter as our formal request for waivers from the City of Austin Land Development Code for the following two items:

- Section 25-2-1067 (F) Design Regulations. Allow an Intensive recreational use (a swimming pool and three small cabanas) to be constructed 50 feet or less from adjoining property zoned SF-5 or more restrictive district. The proposed swimming pool is located over 30' from the closest triggering property and the cabanas are located approximately 28' away from the property line. We request a waiver to reduce the setback from 50' to 28'.
- Section 25-2-1067 (H) Design Regulations. Allow for a driveway to be constructed within the prescribed 15' driveway setback on a tract adjoining property zoned SF-5 or more restrictive district when the subject lot is less than 125' wide. The driveway/fire lane is proposed to be located 5' away from the property line. We request a waiver to reduce the setback from 15' to 5'.

This Guesthouse Hotel property is located on S. Congress Avenue, a Core Transit Corridor. The Dawson Neighborhood Plan has zoned the front portion of this property, as well as the front portions of the properties on either side of it CS-V-CO-NP. The rear portion of the subject property is zoned GR-V-CO-NP. The proposed use is allowed within both zoning districts.

The adjacent property to the south is zoned SF-3-NP along the back two-thirds of the length of the property. All properties along the rear of the site are zoned SF-3-NP and consist of single family houses. The back portion of the southern adjacent property, as well as the single family uses along the west property line trigger compatibility design standards. The property to the north is zoned CS-V-CO-NP throughout the entire property and thus does not trigger any compatibility issues.

Item C-08

7 of 27

March 30, 2016
Ms. Lynda Courtney
Page 2

The first waiver is to allow an intensive recreational use be placed within 50' of properties zoned SF-5 or more restrictive or used as single family. The owner proposes to add a small swimming pool and three small cabanas in the rear of the site outside of the 25' No Build Line, but within 50' setback. The edge of the pool is approximately 30' from the closest single family use and the proposed cabanas within 28' of the closest single family property. Therefore, we request a reduction from the code's 50' setback to 28'. The pool and surrounding deck area are included in the site's Private Open Space requirements, per Subchapter E.

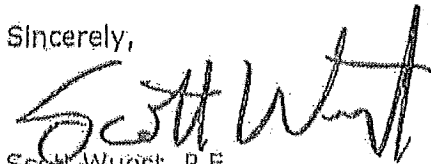

Mitigating Measures: In addition to the 6' privacy fence and a landscape berm at the edge of the property, the owner is proposing to construct a 10' high acoustic wall from the cabanas east along both edges of the pool area. This wall will mitigate sound, in addition to providing a visual screen. Finally, the pool hours will be restricted to 9 am - 10:00 pm to avoid disturbance to the neighbors.

The second waiver request is to allow the construction of a driveway/fire access lane within the 15' code prescribed setback for drives. This 25' driveway will be located 5' from the southern property line and within the setback triggered by the adjacent property to the south. The site is very narrow and contains several heritage trees which are to remain. The proposed hotel has been placed against the north property line to the extent possible to maintain maximum separation from the church property, however compatibility height restrictions and the location of heritage trees on both the north and south property lines dictate the location of the building and thus the driveway.

Mitigating Measures: The owner will construct a 6' privacy fence and add plantings at the edge of the property, to prevent headlights from shining on to the neighboring property. This drive will provide access to underground parking as well as provide required emergency access for the fire department. Basement parking will reduce the noise levels and eliminate possible issues with headlights for the adjacent church property. This driveway location will also push the proposed building to the north, 31' from the church property; 6' further than allowed by City Code.

If there are any questions, please feel free to contact me at (512) 394-1900. Thank you for your consideration and attention to this project.

Sincerely,

Scott Wuest, P.E.

Subject: RE: Churches and Compatibility

Although the language in the Code is a little vague in that area, it has always been my interpretation that since a church (or other civic use) is required to comply with compatibility standards when it is adjacent to a residence, that it would not trigger compatibility upon surrounding development despite the fact that it is a development that could be constructed in SF-5 zoning.

Now if the church happens to be located on SF-5 or more restrictive zoning, then the zoning would trigger compatibility on surrounding tracts, even though the property is developed with a church, but if the church is in a multi-family or commercial district, the use would not trigger compatibility on neighboring properties, since the whole intent of compatibility is to ensure appropriate scale development near residences.

Subject: Churches and Compatibility

Hello.

I have been asked by a client about compatibility being triggered by a church use. The church is on property zoned CS. We have been told this might trigger compatibility but since it is not a "residential" use, I don't believe it would. I looked online at the COA GIS and found a case where a church on land zoned GO was adjacent to a site that did not show compatibility setback for the church. This is a recent condominium site plan (SP-2013-0119C) and is attached. They do show compatibility setback from the adjacent single family residences though.

Caitlin will come in to see whoever is available this morning, but can someone please respond in writing to this email?

Thanks,
