- Melissa Neslund OUT
- Y James Valadez
- Michael Von Ohlen OUT
- Kelly Blume (Alternate) NOT AVAILABLE

APPLICANT: Ted McConaghy

OWNER: Brendan Gilyan

ADDRESS: 6711 BEN WHITE BLVD SVRD EB

VARIANCE REQUESTED: The applicant has requested a variance from Section 25-6 Appendix A (*Tables of Off-Street parking and Loading Requirements*) to reduce the number of required parking spaces from 250 spaces (required) to 235 spaces (requested) in order to add a 89 room hotel to the site with an existing 138 room hotel (proposed total of 227 rooms) in a "LI-CO-NP", Limited Industrial Services – Conditional Overlay - Neighborhood Plan zoning district. (Southeast)

BOARD'S DECISION: Nov 14, 2016 POSTPONED TO DECEMBER 12, 2016 BY APPLICANT DUE TO LACK OF FULL BOARD; Dec 12, 2017 POSTPONED TO JANUARY 9, 2017 BY APPLICANT; January 9, 2017 POSTPONED TO FEBURARY 13, 2017 DUE TO LACK OF A FULL BOARD

FINDING:

1. The Zoning regulations applicable to the property do not allow for a reasonable use because:
2. (a) The hardship for which the variance is requested is unique to the property in that:
(b) The hardship is not general to the area in which the property is located because:
3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

Importance: High

Leane – per my email to you in late December, please request a postponement to the February agenda by applicant. We have reconfigured our parking lot, and may not need the BOA variance at all. I will know within the next 2 weeks and will email you if we want to formally withdraw our request.

Thanks,

Subject: 1/9 Board of Adjustment agenda, back up

Greetings 1/9 Board of Adjustment Applicants, Agents and involved staff:

Please see attached 12/12 BOA meeting agenda, Austin Energy report to follow in separate email – have not received yet.

Note: we know we'll only have 9 of 11 Board member in attendance at Monday's hearing. That will mean that your case will need to get a unanimous vote of members present for a variance or interpretation to be approved.

If you would like to request to have your case postponed or withdrawn from the Board's agenda based on this known Board member number or for other reasons please reply to just me (not all) by noon Monday. Sorry that we have to postpone two cases due to notification errors made by staff – the delay is regrettable but cannot be remedied unfortunately.

Is that what you would like to do? Request postponement to 12/12 hearing?
The Board will actually have a quorum and can take action tonight, but will have one member absent w/no alternate member to serve in his place - such that you'll need 9 of the 10 sitting members to receive a variance rather than 9 of 11 when there are no absences.

Advise -
Leane

Section 1: Applicant Statement

Street Address: 6711 E. Ben White (SH. 71)

Subdivision Legal Description:

Bouhan-Sims Subdivision, Recorded in Book 82, Page 223, Plat Records of Travis County, TX

Lot(s): 1 Block(s): _____

Outlot: _____ Division: _____

Zoning District: LI-CO-NP (Southeast)

I/We Ted McConaghy, MA on behalf of myself/ourselves as authorized agent for H.I. Austin Airport, LP affirm that on Month October, Day 6, Year 2016, hereby apply for a hearing before the Board of Adjustment for consideration to (select appropriate option below):

Erect Attach Complete Remodel Maintain Other: _____

Type of Structure: parking field

13/8

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

LDC 25-6-472 (Parking Facility Standards). Request is to reduce the number of required spaces for the subject tract to 94% of the required spaces listed in Appendix A of Chapter 25-6 of the LDC. (250 spaces required, 235 spaces proposed)

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

The required number of parking spaces per Appendix A in LDC 25-6 is excessive and reduces the allowable number of rooms in the proposed hotel buildings. The existing creek along the southern boundary of the site restricts the available land for parking.

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

The property is situated along Carson Creek which restricts the land available for parking because of topographic constraints and environmental restrictions prohibiting construction in the Critical Water Quality Zone.

b) The hardship is not general to the area in which the property is located because:

The creek lies south of E. Ben White Blvd. (SH 71); properties north of the highway are not restricted by similar creek setbacks and topographic constraints. Moreover, properties north of the highway and granted an automatic reduction of 20% of required parking spaces.

U3
9

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The requested variance is a nominal (6%) reduction in the number of required parking spaces.
The height, location, and general configuration of the hotel buildings will not be impacted by the granting of the variance.

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

1 - historical data and industry standards indicate that the parking requirement of these hotels is much less than that required by the ordinance. Industry standards state that a 1:1 ratio of rooms/spaces is acceptable.

2 - The urban core reduction allows a 20% reduction directly north of the project site.

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

As described above, industry standards on parking requirements for hotel uses has shown that a parking ratio of 1 space per room is sufficient, which is 92.8% of the required parking of 1.1 space/room. The proposed site plan exceeds that amount (94% proposed). An overflow of parking onto the adjacent public street is not anticipated.

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

The proposed parking for the hotel uses will exceed what is required for full occupancy of the hotels. The drive aisles and driveway access meet the design and safety standards of the City of Austin TCM. Granting of the variance will not create a safety or other hazard.

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

The variance will be based on the specific 'hotel' use of the property; if the property was reconditioned as a retail use or some other use appropriate to the zoning, the original parking requirement per Appendix A would apply.

Re: Variance Request
L.D.C. Section 25-6-472 (Parking Facility Standards)
"Candlewood and Holiday Inn- Austin Airport" – consolidated site development permit
SP-2016-0326C

Mrs. Heldenfels:

We respectfully request a variance to the following section of the City of Austin Land Development Code, in association with the 'Candlewood and Holiday Inn – Austin Airport' consolidated site development permit application. The site is located at 6711 E. Ben White Blvd. EB, in the Full Purpose Jurisdiction of the City of Austin. The site is located in the Carson Creek watershed, classified as Suburban.

The following variance is required for successful development of the subject tract. We have provided several Exhibits showing the areas associated with the variance request.

- Sec. 25-6-472 (Parking Facility Standards). This section of the L.D.C. requires 1.1 parking spaces for each hotel room. Our proposed site plan shows 227 hotel rooms. The total required spaces is 250; we are proposing 235 spaces, a 6% reduction. Our request to allow the reduced number of required parking spaces is based on the following:
 - o The southern side of the site is encumbered by a creek (Carson Creek) and the associated Critical Water Quality Zone (CWQZ). The CWQZ significantly reduces the developable area of the subject tract.
 - o The Land Development Code already has a provision to allow a 20% reduction to the required parking (LDC Sec. 25-6-48 – Motor Vehicle Reductions General). This automatic reduction is limited to areas in the 'urban core'. As shown on the Exhibit, our site is immediately adjacent
