APPLICANT: Nikelle Meade

OWNER: David Krug

ADDRESS: 2510 CONGRESS AVE

VARIANCE REQUESTED: The applicant has requested variance(s) from Article 10, Compatibility Standards:

- A. Section 25-2-1063 (*Height Limitations and Setbacks for Large Sites*) (B) to increase the required setback from a property in an urban family residence (SF-5) or more restrictive zoning district or on which a use permitted in SF-5 or more restrictive zoning district is located from 25 feet (required/permitted) to 0 feet (requested); and to
- B. Section 25-2-1063 (*Height Limitations and Setbacks for Large Sites*) (C) (1) to increase the allowed height of a structure 50 feet or less from property in an SF-5 or more restrictive zoning district or on which a use permitted in an SF-5 or more restrictive zoning district is located from 2 stories and 30 feet (required/permitted) to 5 stories and 60 feet (requested); and to
- C. Section 25-2-1063 (*Height Limitations and Setbacks for Large Sites*) (C) (2) to increase the allowed height of a structure more than 50 feet and not more than 100 feet from property in an SF-5 or more restrictive zoning district or on which a use permitted in an SF-5 or more restrictive zoning district is located from 3 stories and 40 feet (required/permitted) to 5 stories and 60 feet (requested); and to
- D. Section 25-2-1064 (*Front Setback*) to increase the minimum front building line setback from at least 25 feet from a right-of-way if the tract on which the building is constructed adjoins property in an SF-5 or more restrictive zoning district or on which a use permitted in a SF-5 or more restrictive district is located and fronts on the same street as the adjoining property (required/permitted) to 0 feet (requested); and to

LY
1/2

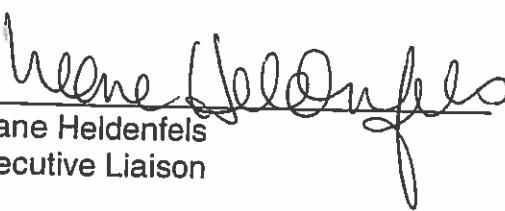

- E. Section 25-2-1067 (*Design Regulations*) (F) to permit an intensive recreational use, excluding a multi-use trail and including a swimming pool, tennis court, ball court, or playground to be constructed 50 feet or less (requested) from adjoining property in an SF-5 or more restrictive zoning district or on which a use permitted in an SF-5 or more restrictive zoning district is located; and to
- F. Section 25-2-1067 (*Design Regulations*) (H) to decrease minimum setback distance of the driveway from adjacent properties to be constructed on a site less than 125 wide from 15 feet (required/permited) to 5 feet (requested)

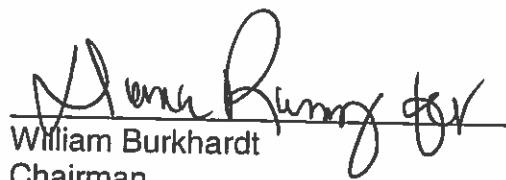

in order to erect a hotel and swimming pool in a "CS-V-CO-NP", General Commercial Services – Vertical Mixed Use – Conditional Overlay – Neighborhood Plan and a "GR-V-CO-NP", Community Commercial – Vertical Mixed Use – Conditional Overlay – Neighborhood Plan zoning district. (Dawson)

BOARD'S DECISION: POSTPONED TO DECEMBER 12, 2016 BY APPLICANT DUE TO LACK OF FULL BOARD

FINDING:

1. The Zoning regulations applicable to the property do not allow for a reasonable use because:
2. (a) The hardship for which the variance is requested is unique to the property in that:
(b) The hardship is not general to the area in which the property is located because:
3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

Re: Compatibility Variances for Guesthouse Hotel, 2510 South Congress Avenue
(Site Plan No. SP-2015-0300C/Board of Adjustment Case No. C15-2016-0124)

Dear Ms. Heldenfels,

I represent The Church in Austin (hereafter “Church”) in connection with the application by Nikelle Meade, on behalf of owner David Krug, for six variances from the City of Austin’s compatibility standards codified in Article 10 of the Land Development Code. The owner seeks these variances for a hotel project at 2510 South Congress Avenue it has named “The Guesthouse Hotel.”

The property in question (the “Property”) is located just south of Oltorf Street. The Church in Austin owns the adjoining property to the south. The eastern portion of the Church property contains the principal church building. The Church maintains residences for clergy on the western portion of the property. Single-family homes adjoin the property to the west. The Property is within the Dawson neighborhood. As discussed in more detail in staff backup, the owner seeks variances from the compatibility standards along the southern boundary of the property in order to allow the hotel to be built taller and closer to the property line than the standards allow. The application also seeks to locate a swimming pool and driveway within the compatibility setbacks, both intended to serve the hotel guests.

You have received extensive objections, evidence and arguments against the requested variances from the Church administration, members of the Church, residents of the Church and residents in the area. We urge you to consider the arguments and evidence submitted by the Church and the other objectors. This letter sets forth the Church’s legal position that the requested variances, as a matter of law, do not meet the requirements for a variance under state law or City Code.

4
4

Procedural Background.

On June 28, 2016, the Planning Commission granted two compatibility waivers for the project. The Church in Austin perfected an appeal of the compatibility waivers granted by the Planning Commission. After the appeal was docketed, staff was made aware that the waivers were approved on the basis of an erroneous application of the compatibility rules for this site. The western half of the Church property is zoned SF-3-NP. Staff assumed (and the Planning Commission was told) that compatibility regulations were triggered only by the SF-3 zoning on the western portion of the Church property adjoining the site to the south. Staff subsequently conceded that the eastern portion of the property, which is used as a civic use (a church) also triggered compatibility requirements. Staff accordingly has required the applicant to request variances from the compatibility regulations from this Board.

The Requested Variances.

The Property is approximately 97-feet wide (at the street) and approximately 700-feet deep, for a total area in excess of 67,000 square feet. The Owner seeks a number of variances to build a 79-room hotel on this deep, relatively narrow lot. The Owner accordingly is presenting to this Board requests for variances for multiple design aspects, including:

- a. Height compatibility.
- b. Building height.
- c. Building and Driveway setbacks.
- d. Swimming Pool setbacks.

The owner specifically seeks to build a four-story structure along the eastern and southern portion of the property within the compatibility setbacks triggered by the use of the adjoining property by the Church in Austin. The owner also seeks to place a driveway and swimming pool within these compatibility setbacks.

Legal Authorities

Section 25-2-474 of the Land Development Code sets forth the findings the Board must make to grant a variance from development regulations. The Board can grant a variance from a requirement only if it finds as a matter of fact that:

- (1) the requirement does not allow for a reasonable use of property;
- (2) the hardship for which the variance is requested is unique to the property and is not generally characteristic of the area in which the property is located; and
- (3) development under the variance does not:

- 5/5
- (a) alter the character of the area adjacent to the property;
 - (b) impair the use of adjacent property that is developed in compliance with the City requirements; or
 - (c) the impair the purposes of the regulations of the zoning district in which the property is located.

State law, similarly, allows a variance to be granted only when, due to "special conditions," "a literal enforcement of the ordinance would result in unnecessary hardship."¹

In order to justify a variance, a hardship must not be self-imposed, nor financial only, and must relate to the very property for which variance is sought – i.e., a condition unique, oppressive, and not common to other property.² Likewise, the hardship must not be personal in nature.³ "An example of a personal or self-created hardship might be a situation in which the owner of a square lot divides it into two triangles and then tries to secure a variance in order to sell the property at a high price. In such an instance, the hardship would be self-created and if the owner could not sell the triangular pieces of property without the variance, then the hardship would be personal."⁴

A financial hardship does not constitute an unnecessary hardship sufficient to support a variance request.⁵ Most pertinently here, there is no hardship merely because a property cannot be developed with its "best and highest use."⁶ A variance is not authorized merely to accommodate the highest and best use of the property, but only where the zoning ordinance does not permit any reasonable use of such property.⁷

Here, there is no dispute that the compatibility rules allow the Property to be developed with significant intensity. The rules allow the construction of one or more two-story buildings to a depth of almost 700 feet. The rules also allow the full development of the northern three-fourths of the Property; only the southern 25 feet lie within the compatibility setback. The Board can take judicial notice of the fact that development along South Congress Avenue between E. Riverside and Ben White Boulevard consists almost exclusively of one- and two-story buildings.

¹ TEX. LOCAL GOV'T CODE § 211.009(a). Section 211.009(a)(3) states in full: "The board of adjustment may: (3) authorize in specific cases a variance from the terms of a zoning ordinance if the variance is not contrary to the public interest and, due to special conditions, a literal enforcement of the ordinance would result in unnecessary hardship, and so that the spirit of the ordinance is observed and substantial justice is done."

There is no impediment to constructing a substantial retail or commercial use that conforms to all code requirements.

LY
b

Although financial considerations are irrelevant to the hardship determination, it should be noted that there are existing (and presumably profitable) hotels along South Congress substantially smaller than the development proposed by the owner. The owner seeks the variances to develop a 79-room hotel. Comparable hotel properties on South Congress, however. Include the Austin Hotel at 1220 S. Congress Ave. has 41 rooms, 31 on the first floor and 10 on the second floor, and the Hotel San Jose at 1316 Congress Ave. has 40 rooms, 32 on the first floor and 8 on the second floor. And, of course, South Congress Ave. has historically been the home of a number of modest one- to two-story motor courts.⁸ As a matter of law, a property owner is not entitled to a finding that the property lacks a reasonable use or that the owner is subject to a unique hardship merely because the rules do not allow him to squeeze a 79-room hotel onto a narrow lot.

The owner's request is similar to that made by the property owner in *Bd. of Adjustment of San Antonio v. Willie*.⁹ There, the board of adjustment granted a variance because it found that the property had "unique" characteristics, including a relatively shallow depth (441 feet) in comparison with the approximately 1,500 feet of frontage, which prevented the property from being utilized as a multi-story building to its "highest and best use." The court of appeals affirmed the reversal of the variance because the property could still be used for food service centers, filling stations, discount stores or franchises. The Property here can likewise be developed with a variety of commercial uses. The mere fact that the subject Property in this case has only 97 feet of frontage is merely an inconvenience for the owner, not a "unique" characteristic that prevents a reasonable use.

It is also highly relevant that Council has specifically considered and addressed the applicability of compatibility regulations to small lots. Section 25-2-1062 provides specific setbacks for lots which have less than 100 feet of street frontage *and* which are smaller than 20,000 square feet. In the case of lots larger than 20,000 square feet, the Code provides that the ordinary setbacks shall apply. In short, the City Council has already considered and rejected the proposition that a large lot should be entitled to less restrictive compatibility regulations merely because it has "only" 100 feet of frontage. The owner essentially asks this Board for a determination that compatibility regulations should not apply to 100-foot wide lots on South Congress. This is a matter for City Council, not this Board. Council and Council alone should determine what compatibility standards should apply on South Congress.

Conclusion

For the foregoing reasons, the owner cannot demonstrate, as a matter of law, that the compatibility regulations deprive him of a reasonable use of the Property, nor that these

⁸ The recently opened South Congress Hotel at 1603 S. Congress has 82 rooms, none on ground floor, about 43 on second floor and about 39 on third floor. We understand that this project fully complied with compatibility standards.

⁹ 511 S.W.2d 591, 594 (Tex. Civ. App.-San Antonio 1974, writ ref'd n.r.e.).

Supplement to Objection Letter

Dear Board of Adjustment Members,

Re: Case # C15-2016-0124

This supplement to The Church in Austin's Objection Letter dated October 31, 2016 addresses the following five points:

1. The developer's lack of due diligence caused it to miss three opportunities to design its site plan to avoid the need of variances.
 2. The driveway variance is to increase space for the building.
 3. Swimming pool area apparent revisions are illegible.
 4. Building right-of-way setback of 0 feet is atypical of our block.
 5. Potential negative impact on other neighbors if variances are granted without conditions.
 6. Summary: Do variances meet legal requirements?
1. The developer's lack of due diligence caused it to miss three opportunities to design its site plan to avoid the need of variances.

Page 7 of our Objection Letter quoted the Guidebook, which states:

"A hardship cannot be self-created."

- *An applicant for a permit or site plan cannot claim a hardship based on conditions that he or she is responsible for creating.*

- *For example, if a structure is designed in a manner that fails to comply with regulations, the structure's non-compliance isn't a hardship." (p.10)*

A. Regarding the building variances, the developer failed to exercise due diligence before purchasing the property on or about January 2, 2015 by not correctly applying compatibility standards. Thus, the developer skipped three of the first four steps (steps 1, 3, and 4) of the Board of Adjustment's "Checklist of Steps for Variances" found in Appendix A of its Guidebook as reproduced below:

"Checklist of Steps for Variances:

1. *Determine what zoning regulations apply to your property. Consider those regulations impact development of the property—i.e., yard setbacks, limits on height and impervious cover, etc.*

4
9

2. *Design what you want to build.*
3. *Determine if a variance is needed—i.e., does your proposed design fit within what's allowed by the zoning regulations.*
4. *If a variance is needed, consider altering the design to avoid the need for a variance.”*

By skipping these steps, the developer has created its “hardship”.

B. Furthermore, the developer had knowledge in April 2015 after it purchased the property that church use of our property may trigger compatibility for its entire property. Exhibit 1 from the Planning Commission’s file is email correspondence on April 16, 2015 between one of the developer’s apparent engineers and the City staff about church use triggering compatibility. Scott Wuest, the developer’s main engineer, was carbon copied. Based on the staff’s statement that “the Code is a little vague in that area,” the developer should have realized the need for an attorney to interpret the law. Therefore, it failed a second time to exercise due diligence before submitting its current site plan to the City on July 2, 2015. The developer is responsible for creating its “hardship”.

C. On September 1, 2016 our attorney informed (see Exhibit 7 of the Objection Letter) the City that our church use triggered compatibility standards on the developer’s entire property. The developer had a third opportunity to design its site plan to avoid the need for variances. Again, it has created its “hardship.”

Redesigning its site plan will obviously increase the developer’s cost. However, according to page 11 of the Guidebook,

“A property is not left with no reasonable use just because a regulation limits the size or design of a structure or increases development costs.”

2. The driveway variance is to increase space for the building.

In addition to the objections already raised against the driveway variance in our Objection Letter, please note the following:

A. The Church in Austin’s Objection Letter, Part 3, section 1 entitled “Reasonable Use”, pages 5 and 6, quoted the Guidebook, pages 4 and 7, which state:

“A property is not left with no reasonable use just because a regulation limits the size or design of a structure or increases development costs.”

“*Self-created or financial hardships are not enough nor are...desire for additional space [in order to prove hardship].*”

The reason the hotel is requesting a reduction in setback from 15 feet to 5 feet for the driveway is because this compatibility standard limits the size of its building on the other side of the driveway.

LJ
TO

The developer's lot is 97 feet wide. Exhibit 2 shows that the driveway variance allows 62 rather than 52 horizontal feet for the building. This property is not left with no reasonable use just because the 15 feet driveway setback limits the size of the building by 10 feet. Nor does the desire for additional space prove hardship.

B. Safety is another concern regarding the sharp turn in the driveway as shown in Exhibit 3. The Guidebook states:

"An applicant should also be able to explain, in general terms, how the variance will not significantly impair the purpose of the regulation. For example, a residential setback restriction is intended to protect privacy, provide for open space, and avoid the aesthetic and safety concerns associated with overcrowding. An applicant requesting a setback variance, therefore, should be able to explain how decreasing the setback will not undermine those objectives."

There are frequent accidents on South Congress Avenue in front of the hotel's property and our property, the last two being August 25, 2016 and September 27, 2016. An earlier accident resulted in a car crashing onto our property and causing damage.

If the sharp turn is missed by an inebriated driver, their car could easily crash through their six-foot privacy fence, probably constructed with wood, and land in our adjacent children's play area. Denying the requested driveway variances provides 10 more feet of protection.

C. At the Planning Commission hearing the developer showed photos of the driveway of the apartment complex adjoining us on the other side (south) of our property in order to justify its requested driveway variance. This driveway and parking lot are about 2 feet from our southern property line. The apartment complex was built before we purchased our property so that civic use did not trigger compatibility standards on the front half of their property. Whether the complex obtained a variance on the back half of their property because we are SF-3 would need to be researched. Regardless if the complex's driveway is legal or not, it does not justify the developer's requested driveway variance. (Neither does the 0 feet setback of the drive through of the fast food restaurant that is currently on the front half of the developer's property justify the variance. It was built in 1993 without obtaining the required variance.)

3. Swimming pool area apparent revisions are illegible.

It appears from two of the three developer's site plan drawings attached to its Board of Adjustment application that it has redesigned the swimming pool area (see Exhibit 4). However, because its drawings are illegible we cannot determine the revisions. Since October 20 we have requested legible copies of these three drawings through numerous emails to the applicant, Ms. Nikelle Meade, but have yet to receive them. On October 26 we delivered a 2x3 foot copy to her demonstrating that an enlarged copy was equally illegible (see Exhibit 5). Since the developer cannot produce a legible copy of its revisions to the Board of Adjustment or the neighbors, the requested swimming pool variance should be denied.

4
T

4. Building right-of-way setback of 0 feet is atypical of our block.

We did not object to the variance requesting a decrease from 25 feet right-of-way to 0 feet in the minimum front building line setback from South Congress Avenue unless the other building variances are granted.

However, please note that this variance is atypical of the setbacks of the other buildings along both sides of our block of South Congress Avenue as shown below (southbound from Oltorf Street to Cumberland Road on west side of street).

#	Building	Setback from S. Congress Ave (feet)
1	HEB	90
2	Laundromat	119
3	Restaurant on developer's property	65
4	Church	25
5	Apartments	367
6	Gardner Betts Juvenile Center	233
7	AutoZone	74
8	Funeral home	34

5. Potential negative impact on other neighbors if variances are granted without conditions.

We asked the case manager two questions about the variances if they are granted: Can the site plan be redesigned afterward to exploit the variances? And, do the variances convey? Her responses are summarized as follows:

A. If the Board of Adjustment grants the building setback from 25' to 0' and a height increase from 2 stories to 5 stories, then the developer can revise its site plan and move the building or add additional buildings according to the variances approved unless there is a condition placed on the variances that requires a certain layout or requires the site to be developed as illustrated in a site plan submitted at the hearing.

B. If the current owner does not build and sells the site, the variances convey to the next owner as long as they are used as part of a site plan or building permit application within one year of their approval date. That site plan or building permit must not expire or the variances expire with them.

Exhibit 6 illustrates the potential negative impact on the residents behind (west of) the hotel if the variances are granted without conditions and the developer redesigns its site plan to place a four-story building 0 feet from its other neighbors' adjoining properties. Therefore, if the building variances are granted, we request that strict conditions be applied.

6. Summary: Do variances meet legal requirements?

The evidence presented in our Objection Letter to the Hotel's Requested Variances and this Supplement to Objection Letter has proven that the developer has failed to meet all three of the legal requirements for granting these variances as shown in the chart below.

Ly
P2

Do the Variances Meet Legal Requirements?

Legal Requirement	Variance		
	Pool	Driveway	Building
1. Reasonable Use	Failed	Failed	Failed
2. Hardship			
a. Unique	Failed	Failed	Failed
b. Not general	Failed	Failed	Failed
c. (Not self-created)	Failed	Failed	Failed
3. Area Character			
a. Not alter character of area	Failed		Failed
b. Not impair use	Failed	Failed	Failed
c. Not impair purpose of the regulations	Failed	Failed	Failed

We reiterate our request that the Board of Adjustment deny the developer's requested variances.

Thank you again for your consideration.

Sincerely,

Tym Seay
 Chairman of the Board
 Of The Church in Austin

Subject: RE: Churches and Compatibility

Although the language in the Code is a little vague in that area, it has always been my interpretation that since a church (or other civic use) is required to comply with compatibility standards when it is adjacent to a residence, that it would not trigger compatibility upon surrounding development despite the fact that it is a development that could be constructed in SF-5 zoning.

Now if the church happens to be located on SF-5 or more restrictive zoning, then the zoning would trigger compatibility on surrounding tracts, even though the property is developed with a church, but if the church is in a multi-family or commercial district, the use would not trigger compatibility on neighboring properties, since the whole intent of compatibility is to ensure appropriate scale development near residences.

Subject: Churches and Compatibility

Hello.

I have been asked by a client about compatibility being triggered by a church use. The church is on property zoned CS. We have been told this might trigger compatibility but since it is not a "residential" use, I don't believe it would. I looked online at the COA GIS and found a case where a church on land zoned GO was adjacent to a site that did not show compatibility setback for the church. This is a recent condominium site plan (SP-2013-0119C) and is attached. They do show compatibility setback from the adjacent single family residences though.

Caitlin will come in to see whoever is available this morning, but can someone please respond in writing to this email?

Thanks,

Joan Ternus Angil, P.E.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
 - appearing and speaking for the record at the public hearing;
- and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
 - is the record owner of property within 500 feet of the subject property or proposed development; or
 - is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/devservices

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. All comments received will become part of the public record of this case.

Comments: I support this project. lot live variance

on Congress we live with downtown Austin city policy I am off to work across from us across lot live variance on south side is still a driveway fire lane with only small dwarf fence separates neighbor church in Austin's SF-5 property structure has some character protection so far of a residential building West boundary is just far a surviving goal is intact as church in Austin programming (at fault) for 5 stores lot because intended to reflect existing thus was given form is sympathetic actually an original sign at the church. As the church continues around 40 what it wants our transparency.

This is a good project (as good as we'll get) Comments must be returned by noon the day of the hearing to be seen by the Board at this hearing. They may be sent via:

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/devservices

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. All comments received will become part of the public record of this case.

Objection to Land Developer's Requested Variances

Dear Dawson neighborhood residents/owners,

Land developers plan to construct a hotel with associated improvements at 2510 S. Congress Avenue, Austin, TX 78704. They are requesting from the Board of Adjustment variances to the city code in order to develop the land closer to the adjoining residential properties and our adjoining church property (2530 S. Congress Avenue) than allowed by city code. Five of the land developer's variance requests are as follows:

1. Building: Section 25-2-1063 (*Height Limitations and Setbacks for Large Sites*) (B) to increase the required setback from a property in an urban family residence (SF-5) or more restrictive zoning district or on which a use permitted in SF-5 or more restrictive zoning district is located from 25 feet to 0 feet; and to

2. Building: Section 25-2-1063 (*Height Limitations and Setbacks for Large Sites*) (C) (1) for a structure 50 feet or less from property in an SF-5 or more restrictive zoning district or on which a use permitted in an SF-5 or more restrictive zoning district is located from two stories and 30 feet to five stories and 60 feet; and to

3. Building: Section 25-2-1063 (*Height Limitations and Setbacks for Large Sites*) (C) (2) for a structure more than 50 feet and not more than 100 feet from property in an SF-5 or more restrictive zoning district or on which a use permitted in an SF-5 or more restrictive zoning district is located from three stories and 40 feet to five stories and 60 feet; and to

4. Swimming pool: Section 25-2-1067 (*Design Regulations*) (F) to permit an intensive recreational use, excluding a multi-use trail and including a swimming pool, tennis court, ball court, or playground to be constructed 50 feet or less from adjoining property in an SF-5 or more restrictive zoning district or on which a use permitted in an SF-5 or more restrictive zoning district is located; and to

5. Driveway: Section 25-2-1067 (*Design Regulations*) (H) to decrease minimum setback distance of the driveway from adjacent properties to be constructed on a site less than 125' wide from 15 feet to 5 feet

We are asking you to help the neighbors by signing this form stating that you object to the Board of Adjustment granting these requested variances.

Thank you for your support.

Sincerely,

The Church in Austin

I object to the Board of Adjustment granting the abovementioned requested variances.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/development.

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. Any comments received will become part of the public record of the case.

Comments: I am a church officer. I other officer, Tym Seay, is filing an objection form to represent the church in Austin. We believe the variances will alter the character of the area and impair the use of our property. They will also impair the purpose for which compatibility standards exist. Tym & I do not live at 2530 S. Congress Ave.

WES

My name is Jacob Daniel Apodaca. My wife Julia and I have lived on Euclid Ave. for 30 years. We own two houses (2421 and 2423 Euclid Ave). Several years ago we connected both houses into one larger home. We have always loved our neighborhood and hope to retire there.

14
32

South Congress looked very differently when my wife and I first moved into the Dawson neighborhood 30 years ago. We knew the area would change. Over time the abandoned buildings and spaces were filled with hotels, restaurants, small businesses, which we welcome and greatly appreciate.

I am here today because my family and I think it is important to have a good relationship with all of our neighbors. Until recently, we had a wonderful relationship with most of our neighbors.

On December the 19th 2014 that changed. Our house was flooded 3 different times in 24 hours with approximately 1,500 gallons of raw sewage which was caused by HEB and the COA. HEB was a good neighbor and hired an adjustor to assess the damage and have offered to pay for part of the damage. COA claimed sovereign immunity and has refused to pay for any of the damages even though the COA workers admitted the problem was a botched waste water drainage pipe replacement in front of our house several years ago.

Again I bring this up, because we would like to have good relationships with our neighbors.

My wife and I welcome the Guesthouse Hotel on South Congress, but we cannot support the request for a variance from 50ft. to 25 ft. for the setback from our property line. We have not had the opportunity to meet any representatives from the Guesthouse Hotel, but my family hopes that they will be good neighbors. We also hope that the City of Austin will do the right thing this time, and not be a bad neighbor to us.

Again my family and I do not support the request for a variance and hope the COA treats us better than they did on 2014.

Jacob Daniel Apodaca

Comments: I understand that 2510 S. Congress has been zoned commercial for many years and that the neighbors understand that commercial zoning allows greater imposition on adjoining properties than residential. However 5 stories with a zero setback is unconscionable. They should build within their existing limitations or ask for only minor variances.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
 - appearing and speaking for the record at the public hearing; and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/dcservices

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. All comments received will become part of the public record of this case.

However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

Comments: We neighbors did not object to the original plan for the hotel. It is fundamentally wrong for them to now require variance upon variance. They should have considered their needs when they bought the property, which is apparently too small for their need. Their going would be our loss. Please put Austin residents!

Heldenfels, Leane

From: Cynthia Medlin 
Sent: Tuesday, November 08, 2016 1:34 PM
To: Heldenfels, Leane
Subject: C15-2016-0124, 2501 S Congress Ave.

Ms. Heldenfels, I am a property owner at 2501 Wilson St., a member of the Dawson Neighborhood Contact Team and Neighborhood Association and a former member of the Austin Planning Commission.

I received a packet of information on my door Monday, Nov. 6, 2016 apparently left by "The Church in Austin" located at 2530 S. Congress Ave. The packet included deceptive images of what the above referenced project would look like from their property and from the backyards of the homes backing up to it on Euclid. You may or may not be aware of this. However, I am mailing to you today the documents and my responses for the Board of Adjustment hearing on November 14, 2016.

I am personally very disappointed in the attempts at deception and misinformation perpetrated by "The Church in Austin". I will hopefully be able to attend the hearing in person as well. My printer is not functioning properly or I would have scanned the documents and emailed them to you. I am hoping you receive them in time to make them available to the Board. I am sure, however, that officers of the Contact Team will also share these documents with you. Should you wish to speak with me my phone number is 512-440-1966. -- Cynthia Medlin

PUBLIC HEARING INFORMATION

Comments: I believe this type of small hotel is entirely compatible with our neighborhood plan and F2.U.M. If we encourage mixed-use residential friendly uses along this busy transit corridor. The variance sought will not negatively impact the residential integrity of the neighborhood.

MEDLIN CYNTHIA
PO BOX 40964
AUSTIN TX 78704-0017

The attached documents were found on my door the morning of Nov. 6, 2016. These documents were apparently distributed by members of "the Church in Austin" which owns adjoining property to the south of this project. The information they distributed is not an accurate reflection of the project as presented to the Dawson Neighborhood Contact Team and Neighborhood Association. The variances sought would not create this type of intrusion upon the neighbors residing on Euclid as portrayed.

It is my opinion that this is yet another "disinformation campaign" launched by the church, for whatever reason, to prevent development on the adjacent lot. Their motivation is unclear. If they want the lot to remain undeveloped they should buy it. It cannot be fear of increased taxes, they don't pay any. The church has few restrictions on their rights because of "religious freedom protections".

4/1

"The Church in Austin" has never before participated in any meetings or planning processes in our neighborhood. They were asked to participate in Neighborhood Plan development years ago but did not now suddenly there is a concern. I fail to understand what that concern is, however. Perhaps they will express it more fully to the Board.

It is my opinion that every effort should be made, by the developers and boards and commissions, to protect the rights of the residential property owners on Euclid. That can be done by assuring the development is built as presented and all protections enforced.

Finally, our neighborhood has endured years of negativity and unpleasantness brought about by similar "disinformation" campaigns. I personally cannot support any person or organization that utilizes such tactics. Respectfully yours,

Cynthia Medlin

I was chair of the original Plan Team and have served many times as officers of the neighborhood & contact teams.

Comments: Besides the obvious negative impacts to the immediate neighborhood, such as the loss of good sight lines, congestion from added traffic, loss of off street parking, there will be other impacts that won't show up until construction is complete. For instance, seemingly simple variances in the code for the 3rd so across at 2602-2604 W. San Jacinto have been impacted by the home owners/occupants along 2500-2600 Wilson St.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or

- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/devservices

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/devservices

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. All comments received will become part of the public record of this case.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

- and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
 - is the record owner of property within 500 feet of the subject property or proposed development; or
 - is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/development.

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. Any comments received will become part of the public record of the case.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/devservices

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. All comments received will become part of the public record of this case.

Objection to Land Developer's Requested Variances

Dear Dawson neighborhood residents/owners,

Land developers plan to construct a hotel with associated improvements at 2510 S. Congress Avenue, Austin, TX 78704. They are requesting from the Board of Adjustment variances to the city code in order to develop the land closer to the adjoining residential properties and our adjoining church property (2530 S. Congress Avenue) than allowed by city code. Five of the land developer's variance requests are as follows:

1. **Building:** Section 25-2-1063 (*Height Limitations and Setbacks for Large Sites*) (B) to increase the required setback from a property in an urban family residence (SF-5) or more restrictive zoning district or on which a use permitted in SF-5 or more restrictive zoning district is located from 25 feet to 0 feet; and to
2. **Building:** Section 25-2-1063 (*Height Limitations and Setbacks for Large Sites*) (C) (1) for a structure 50 feet or less from property in an SF-5 or more restrictive zoning district or on which a use permitted in an SF-5 or more restrictive zoning district is located from two stories and 30 feet to five stories and 60 feet; and to
3. **Building:** Section 25-2-1063 (*Height Limitations and Setbacks for Large Sites*) (C) (2) for a structure more than 50 feet and not more than 100 feet from property in an SF-5 or more restrictive zoning district or on which a use permitted in an SF-5 or more restrictive zoning district is located from three stories and 40 feet to five stories and 60 feet; and to
4. **Swimming pool:** Section 25-2-1067 (*Design Regulations*) (F) to permit an intensive recreational use, excluding a multi-use trail and including a swimming pool, tennis court, ball court, or playground to be constructed 50 feet or less from adjoining property in an SF-5 or more restrictive zoning district or on which a use permitted in an SF-5 or more restrictive zoning district is located; and to
5. **Driveway:** Section 25-2-1067 (*Design Regulations*) (H) to decrease minimum setback distance of the driveway from adjacent properties to be constructed on a site less than 125 wide from 15 feet to 5 feet

We are asking you to help the neighbors by signing this form stating that you object to the Board of Adjustment granting these requested variances.

Thank you for your support.

Sincerely,

The Church in Austin

I object to the Board of Adjustment granting the abovementioned requested variances.

(Phone number (optional) so we can contact you about the time of the hearing: _____)

Dear Dawson neighborhood residents/owners,

On Saturday you should have received from the City of Austin another Notice of Public Hearing regarding the proposed hotel in our neighborhood. The hotel is requesting variances from City code for their pool, driveway, and four-story building (**new request**). Although the current site plan includes a four-story building 0 feet from our church property, the case manager informed us that if these variances are granted the developer can redesign the site plan and **build a five-story hotel 0 feet from the Euclid residents**. This building would greatly impact the atmosphere of our neighborhood, especially for those living on Euclid. We have included a photo of what the four-story building would look like from the backyard of 2501 Euclid Avenue. We have also included a photo of what it would look like across the street from the front yard of 2500 Euclid Avenue.

What can we do to prevent the granting of these variances?

1. Each resident **sign** the enclosed form from the City of Austin **objecting** to these variances. Make sure you check the box "I Object" and mail it in the enclosed pre-addressed, stamped envelope back to the City of Austin by Wednesday. (These forms need to be postmarked by Wednesday in order to arrive before the hearing on Monday.) If you are planning on mailing the form by then, please check the box at the bottom of the church form (see #2 below) so we know who has notified the City of their objection.
2. Each resident **sign** the church form and mail it back to The Church in Austin by Wednesday in the enclosed pre-addressed, stamped envelope. This helps us keep a record of who is supporting the neighborhood and objecting to the variances. We will create a map of the homes objecting and present it at the City hearing on November 14.
3. Optional: Attend the public hearing by the City of Austin's Board of Adjustment on Monday, November 14 at City Hall located on the 1st floor, Council Chambers, 301 W. 2nd Street. The hotel's case probably will not be heard until 8:00 or 9:00pm. If you do plan to attend, we will be re-contacting you to let you know the approximate time of the hotel's case in order to minimize your time at City Hall. If you do plan to attend, please check the box at the bottom of the church objection form. Parking is free underneath City Hall and is accessible from southbound Guadalupe St.

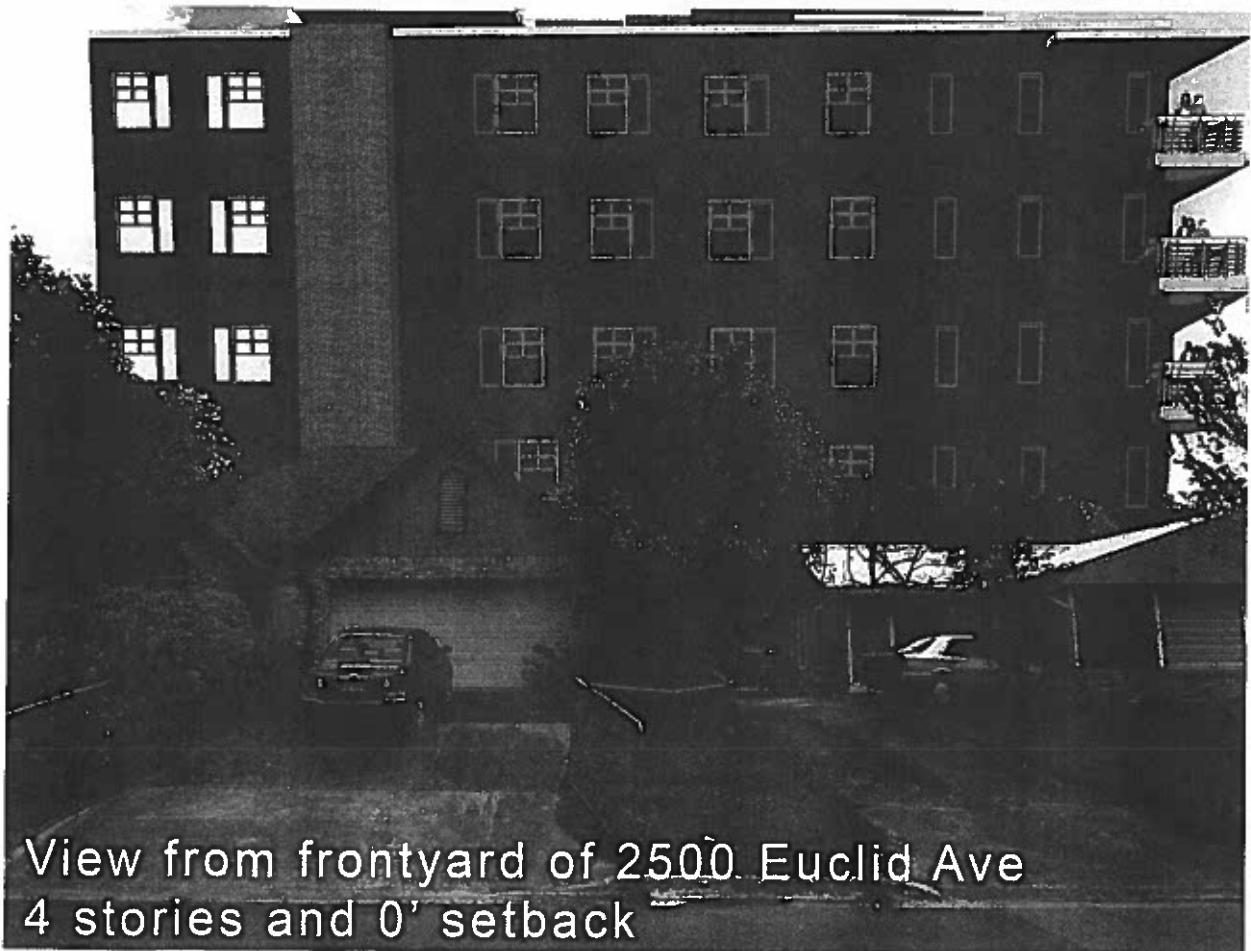

If you prefer for us to pick up your completed forms from you, we will be in the neighborhood Monday and Tuesday evenings.

Thank you for supporting the neighborhood. If you have any questions, please call Tym at 512-731-7364. By standing together we have an opportunity to ensure the continuation of our quiet, peaceful neighborhood.

Thank you for your support,
The Church in Austin

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/devservices

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. All comments received will become part of the public record of this case.

Comments: A hotel would be a good addition to
the area it is reflected of its neighbors
Unfortunately, these requested
various encroachments on the privacy and
the environmental quality of neighbors' property.
I oppose them and respectfully
request that you not approve them.
Thank you.

Comments must be returned by noon the day of the hearing to be seen by the Board at this hearing. They may be sent via:

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, **you are not required to attend**. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/deservices

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. All comments received will become part of the public record of this case.

Objection to Land Developer's Requested Variances

Dear Dawson neighborhood residents/owners,

Land developers plan to construct a hotel with associated improvements at 2510 S. Congress Avenue, Austin, TX 78704. They are requesting from the Board of Adjustment variances to the city code in order to develop the land closer to the adjoining residential properties and our adjoining church property (2530 S. Congress Avenue) than allowed by city code. Five of the land developer's variance requests are as follows:

1. **Building:** Section 25-2-1063 (*Height Limitations and Setbacks for Large Sites*) (B) to increase the required setback from a property in an urban family residence (SF-5) or more restrictive zoning district or on which a use permitted in SF-5 or more restrictive zoning district is located from 25 feet to 0 feet; and to
2. **Building:** Section 25-2-1063 (*Height Limitations and Setbacks for Large Sites*) (C) (1) for a structure 50 feet or less from property in an SF-5 or more restrictive zoning district or on which a use permitted in an SF-5 or more restrictive zoning district is located from two stories and 30 feet to five stories and 60 feet; and to
3. **Building:** Section 25-2-1063 (*Height Limitations and Setbacks for Large Sites*) (C) (2) for a structure more than 50 feet and not more than 100 feet from property in an SF-5 or more restrictive zoning district or on which a use permitted in an SF-5 or more restrictive zoning district is located from three stories and 40 feet to five stories and 60 feet; and to
4. **Swimming pool:** Section 25-2-1067 (*Design Regulations*) (F) to permit an intensive recreational use, excluding a multi-use trail and including a swimming pool, tennis court, ball court, or playground to be constructed 50 feet or less from adjoining property in an SF-5 or more restrictive zoning district or on which a use permitted in an SF-5 or more restrictive zoning district is located; and to
5. **Driveway:** Section 25-2-1067 (*Design Regulations*) (H) to decrease minimum setback distance of the driveway from adjacent properties to be constructed on a site less than 125 wide from 15 feet to 5 feet

We are asking you to help the neighbors by signing this form stating that you object to the Board of Adjustment granting these requested variances.

Thank you for your support.

Sincerely,

The Church in Austin

I object to the Board of Adjustment granting the abovementioned requested variances.

Comments: This is a neighborhood - not a place for a 5-story hotel to be looming over. This would drastically decrease our property value and that of our neighbors and our neighborhood. In addition, it would increase noise, traffic, garbage, all while reducing our privacy. I would object to this because our neighbors are very vocal. Comments: I passionately object to a 5 story hotel being built in such close proximity to where I live. The noise, the unsightliness, and the additional traffic and garbage that this will bring to my home is totally unacceptable. It will also have a negative effect on my property value. I would no longer have privacy in my fenced backyard, because a 5 story building is in back.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/development.

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing, the Case Number; and the contact person listed on the notice. Any comments received will become part of the public record of the case.

I am a member of the Dawson Neighborhood Planning Team. I strongly object to all the variances requested here. The DNPT's vote in August was based on inaccurate and incomplete information. The developer did not exercise "due diligence" to determine all compatibility issues regarding Civic Use of the adjacent Church property before purchasing the property and designing a site plan. The developer is now attempting to subvert the normal planning process and go around the Planning Commission by going directly to the Board of Adjustment for multiple variances, when the developer should be going back to the Planning Commission to re-visit the site plan. The Board of Adjustment is traditionally a "court of last resort." The developer has not exhausted all of his other remedies yet before coming to the Board, likely because he would not get the votes he needs at the Planning Commission nor at City Council for the multiple additional waivers he wants. He would definitely not get approval from the Dawson Neighborhood Planning Team either. I object to the developer's application additionally because of the following:

1. "Reasonable Use." The developer is saying that he cannot reasonably build his hotel on his property because the property is too narrow and thus he should have special variances. He should have thought about that before buying the property. Additionally, a vacation-destination party hotel which sells alcohol is not a reasonable use for a property that is adjacent to a church which also runs a school, and which is across the street from Gardner-Betts school, a school for children who are in trouble with the law mainly because of alcohol and drugs. The developer may claim reasonable use because there is a bar "C-Boys" a few blocks north of Oltorf, and another hotel north of Oltorf. However, if one looks at the types of businesses that are south of Oltorf in the immediate area, including a funeral home, it is easy to see that "the party ends at the HEB" when heading south on S. Congress from downtown. Again, the party ends at the HEB. It is not appropriate or reasonable to build a party hotel next to a church and a school.

2. "Hardship." There is no hardship here. Two points to address on the developer's application:

a. The developer is saying on his application that the City Code and compatibility requirements *in and of themselves* are a "hardship." The rules themselves cannot be counted as a "hardship." The developer's property is mostly green land. There are no utilities such as large power lines, water mains, sewer mains, gas mains, or large impervious cover issues that the developer has to work around. There is ZERO hardship here. It is not necessary to get density by violating compatibility. The developer can re-design his site plan to have a smaller hotel with only one or two stories as well as redesigning the rest of the site plan in order to meet compatibility requirements and still get density for the City.

Suggestions were made to the developer by members of the DNPT at the October meeting on how to redesign his site plan to meet compatibility. One such suggestion was to put the swimming pool on top of the hotel. The developer rejected this suggestion because "there wouldn't be enough room" to do that and still have a 4-story hotel. Not being able to build to one's desire because of compatibility requirements does *not* count as a hardship. "I won't be able to make as much money as I want to if I have to follow the rules," does *not* count as a hardship. The developer wholly rejected every suggestion made to him by members of the DNPT at the October meeting to try to help the developer find ways to meet compatibility. The developer refuses to revisit his site plan to redesign to meet compatibility because the developer has a product model in his own economic interests and he won't be able to generate the profit he desires if he has to meet compatibility. This is not a reason for a hardship.

b. Furthermore, the developer is saying that the "hardship" is not general to the area because there are no other tracts in the area similarly situated and configured. That is not true. There are many narrow and deep lots all up and down South Congress and South Lamar that have been commercially developed within compatibility standards. One needs only to look at an aerial map to see this.

3. "Area Character." The developer claims his hotel will not change the area character. This is not true. A party vacation-destination hotel is not in character with an area where there are schools, a church, a funeral home, a grocery store, an auto-parts store, etc. As stated before, when heading south from downtown, the party ends at the HEB. South of Oltorf is primarily a residential neighborhood with small businesses that cater to nearby residents. A party hotel is not in sync with that. It simply boggles the mind. Who in their right mind would want to build a party hotel next door to a church and a school, and across the street from a juvenile detention center and two doors down from a funeral home?

Ly
120

Additionally there are many narrow and deep lots that back up into residential neighborhoods in this area which have only been commercially developed on the front half bordering the major road, while leaving the back half undeveloped so as not to disturb neighborhood residents or destroy the area character. Most of the narrow and deep lots that have been developed all the way to the back of the lots are at major intersection nodes. Neither the developer's property nor the Church property is at an intersection node, yet the developer wants to develop all the way to the back of his property even though adjacent property owners (other than the Church) strongly object.

4. Parking. The developer has not addressed this section of the application at all. He says there would be no traffic impact. This cannot possibly be true. The DNPT has not seen any traffic count statistics to show what the increased traffic would be or how the increased traffic would be addressed. There have been multiple accidents in that area recently because there is already too much traffic from cars turning across traffic, etc.

The bottom line here is that this developer has absolutely zero ground for asking for any of these variances. Furthermore it is obvious that he is attempting to do an "end-run" around the Planning Commission and the Dawson Neighborhood Planning Team by subverting the normal planning process and going straight to the Board of Adjustment which is normally a "court of last resort." It is entirely inappropriate for a party hotel to be built in this area, there is no hardship, it is out of sync with area character for many reasons not the least of which is that it would be the only 5-story building in that area, and it would violate the Church's rights. I strongly urge the Board of Adjustment to deny all requested variances and instruct the developer to go back to the drawing board to redesign his site plan within code and compatibility requirements.

Sincerely,

Deborah Stevens
Member, Dawson Neighborhood Planning Team
And nearby property owner

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/development.

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. Any comments received will become part of the public record of the case.

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application-affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing;

and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austin.texas.gov/development.

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. Any comments received will become part of the public record of the case.
