City of Austin 2016 Community Survey Executive Summary

Overview and Methodology

During the summer and fall of 2016, ETC Institute administered a community survey for the City of Austin. The purpose of the survey was to assess satisfaction with the delivery of major City services and to help determine priorities for the community as part of the City's ongoing planning process.

A five-page survey was mailed to a stratified random sample of households in the City. Each survey packet contained a cover letter, a copy of the survey, and a postage-paid return envelope. Residents who received the survey were given the option of returning the survey by mail or completing it on-line. Ten days after the surveys were mailed, ETC Institute sent emails and placed phone calls to the households that received the survey to encourage participation. The emails contained a link to the on-line version of the survey to make it easy for residents to complete the survey. To prevent people who were not residents of the City of Austin from participating, everyone who completed the survey on-line was required to enter their home address prior to submitting the survey. ETC Institute then matched the addresses that were entered on-line with the addresses that were originally selected for the random sample. If the address from a survey completed on-line did not match one of the addresses selected for the sample, the on-line survey was not counted. A minimum of 200 surveys were completed in each of the City's ten council districts. The results for the random sample of 2,099 households have a 95% level of confidence with a precision of at least +/-2.1%.

Location of Respondents. To better understand how well services are being delivered in different parts of the City, the home address of respondents to the survey was geocoded.

Don't knows. Since the number of "don't know" responses often reflects the utilization and awareness of city services, the percentage of "don't know" responses has been included with the tabular data in Section 6 of this report. When the "don't know" responses have been excluded, the text of this report will indicate that the responses have been excluded with the phrase "who had an opinion."

This report contains:

- a summary of the methodology for administering the survey and major findings
- charts showing the overall results for most questions on the survey (Section 1)
- trend charts comparing the 5-year averages from the 2010-2014 surveys to the results in 2015 and 2016 (Section 2)
- benchmarking data that show how the results for the City of Austin compare to other cities (Section 3)
- importance-satisfaction analysis that identifies priorities for investment (Section 4)

- GIS maps that show the results of the survey on maps of the City (Section 5)
- tabular data showing the overall results for all questions on the survey along with a copy of the survey instrument (Section 6)

Appendices A-G, which include open-ended comments and cross-tabular data by key demographics, have been published separately.

Perceptions of the Community

Most residents have an overall positive perception of the City. Eighty percent (80%) of those surveyed, who had an opinion, indicated they were either "very satisfied" (31%) or "satisfied" (49%) with Austin as a place to live; 76% gave positive ratings for Austin as a place to work, 70% gave positive ratings for the overall quality of life in Austin, and 68% gave positive ratings for Austin as a place to raise children.

Overall Satisfaction with Major Categories of City Services

To help the City track its overall performance in major categories of City services, residents were asked to rate the City's overall performance in the following 18 major categories:

- Overall quality of parks and recreation programs and facilities
- Overall quality of city libraries
- Overall quality of public safety services (i.e. police, fire and ambulance)
- Overall quality of municipal court services (i.e. traffic and parking ticket processing, misdemeanor court cases, fine collection)
- Overall quality of the Austin-Bergstrom International Airport
- Overall quality of drinking water provided by Austin Water Utility
- Overall quality of wastewater services provided by Austin Water Utility
- Overall quality of electric utility services provided by Austin Energy
- Traffic flow on major highways (Ex. IH-35, Mopac Expy, US-183, Loop 360, SH-71)
- Traffic flow on major city streets (Ex. Congress Ave., Lamar Blvd., South First St., Burnet Rd., Parmer Lane, Riverside Drive, etc.)
- Overall maintenance of major city streets
- Overall maintenance of city sidewalks
- Overall management of stormwater runoff
- Overall effectiveness of communication by the City of Austin
- Overall quality of health and human services provided by the City (social services, public health services, and restaurant inspections)
- Overall quality of planning and zoning services (Imagine Austin comprehensive plan, neighborhood/small area plans, zoning)
- Animal Services (shelter, adoptions, animal control, etc.)

The major categories of city services that had the highest levels of satisfaction, based upon the combined percentage of "very satisfied" and "satisfied" responses among residents, who had an opinion, were: the overall quality of Austin-Bergstrom International Airport (79%), the overall quality of parks and recreation programs and facilities (74%), the overall quality of drinking water provided by Austin Water (73%), the overall quality of public safety services (72%), the quality of City libraries (71%) and the quality of wastewater services (65%). Residents were least satisfied with traffic flow on major city streets (10%) and traffic flow on major highways (5%). Traffic flow on major highways and major city streets were also the two most important city services to respondents.

Satisfaction with Services within Major Categories

In addition rating the City's performance in major categories, residents were also asked to rate the City's performance with the delivery of specific services within each of the major categories. The results for specific services that were assessed are described on the following pages.

Transportation Infrastructure

The highest levels of satisfaction with the transportation infrastructure of the City, based upon the combined percentage of "very satisfied" and "satisfied" responses among residents, who had an opinion, were: condition of streets in neighborhoods (58%) and the off-street bicycle accessibility (The City's urban trail network) (50%). The condition of major City streets and the timing of traffic signals on City streets are the two most important aspects of the City's transportation infrastructure that respondents feel are most important for the City to provide.

Public Safety Services

The highest levels of satisfaction with public safety services, based upon the combined percentage of "very satisfied" and "satisfied" responses among residents, who had an opinion, were: the overall quality of fire services (83%), the timeliness of Fire response to emergencies (82%), medical assistance provided by EMS (81%), and the timeliness of EMS response to emergencies (81%). Residents were least satisfied with the enforcement of local traffic laws (48%). The overall quality of police services and the speed of emergency police response to emergencies are the two aspects of public safety services that respondents feel are most important for the City to provide.

Environmental Services

The highest levels of satisfaction with environmental services, based upon the combined percentage of "very satisfied" and "satisfied" responses among residents, who had an opinion, were: water quality of lakes and streams (56%), the Water Conservation program (54%), and the Energy Conservation program (51%). Respondents indicated that flood control efforts were the most important aspect of environmental services for the City to provide.

Recreation and Cultural Services

Residents were generally satisfied with Austin's recreation and cultural services; seventeen percent (17%) or less of the residents surveyed were dissatisfied with <u>any</u> of the recreation and cultural services rated. The highest levels of satisfaction with recreation and cultural services, based upon the combined percentage of "very satisfied" and "satisfied" responses among residents, who had an opinion, were: the number of City parks (74%), the cleanliness of library facilities (73%), the appearance of park grounds in Austin (73%), the overall quality of parks and recreation programs (72%), and the number of walking and biking trails (70%). Respondents indicated that the safety in City parks and facilities is the most important aspect of the recreation and cultural services offered by the City that is most important.

Residential and Neighborhood Services

The highest levels of satisfaction with residential and neighborhood services, based upon the combined percentage of "very satisfied" and "satisfied" responses among residents, who had an opinion, were: the reliability of electric service (82%), the quality of residential garbage collection services (82%), the quality of residential curbside recycling services (80%), and the safety of drinking water (76%). The safety of drinking water is the most important service for the City to provide according to respondents.

Customer Service

The highest levels of satisfaction with customer service, based upon the combined percentage of "very satisfied" and "satisfied" responses among residents, who had an opinion, were: helpfulness of library staff (77%), the services provided by 3-1-1 (69%) and Austin Energy Customer Service (61%).

• Other City Services

The highest levels of satisfaction with other City services, based upon the combined percentage of "very satisfied" and "satisfied" responses among residents, who had an opinion, were: efforts to support diversity by serving people equally regardless of their race, religion, ethnicity, age, or abilities (48%), the Shots for Tots and Big Shots program (47%) and the Food Safety Inspection program (43%). Sixty-one percent (61%) of the residents surveyed were dissatisfied with the availability of affordable housing.

Comparisons to Other Cities

Of the major categories of city services that were rated in the City of Austin in 2015 and 2016, satisfaction levels were significantly lower in 2016 in the following areas:

- Quality of drinking water (-5.3%)
- Quality of public safety services (-3.2%)
- Traffic flow on major streets (-7.3%)
- Quality of wastewater services (-6.2%)
- Overall effectiveness of communication (-12.5%)
- Overall management of stormwater runoff (-9.1%)
- Austin-Bergstrom International Airport (-3.3%)
- Quality of municipal court services (-10%)
- Quality of electric services (-9.1%)

The table below shows that although satisfaction with services provided by the City of Austin decreased in many areas, the decrease in satisfaction in Austin are similar to decreases in other large U.S. cities. Among 41 areas that were assessed at both the national level and in the City of Austin, satisfaction decreased in 35 of the 41 areas at the national level and in 31 of the 41 areas in Austin. One significant decrease at the national level involved satisfaction with police, fire, and ambulance service, which decreased by 7.8% from 2015 to 2016. Austin's performance compared to other cities with regard to public safety services increased, even though the City's rating decreased by 3.2%. National data was not available for all areas.

Investment Priorities

Recommended Priorities for the Next Two Years. In order to help the City identify investment priorities for the next two years, ETC Institute conducted an Importance-Satisfaction (I-S) analysis. This analysis examined the importance residents placed on each City service and the level of satisfaction with each service. By identifying services of high importance and low satisfaction, the analysis identified which services will have the most impact on overall satisfaction with City services over the next two years. If the City wants to improve its overall satisfaction rating, the City should prioritize investments in services with the highest Importance Satisfaction (I-S) ratings. Details regarding the methodology for the analysis are provided in the Section 3 of this report.

Overall Priorities for the City by Major Category. This analysis reviewed the importance of and satisfaction with major categories of City services. This analysis was conducted to help set the overall priorities for the City. Based on the results of this analysis, the major services that are recommended as the top priorities for investment over the next two years in order to raise the City's overall satisfaction rating are listed below:

- Traffic flow on major highways (IS=0.5921)
- Traffic flow on major City streets (IS=0.4235)

The table below shows the importance-satisfaction rating for all 18 major categories of City services that were rated.

Major Categories of City Services										
Category of Service	Most Important %	Most Important Rank	Satisfaction %	Satisfaction Rank	Importance- Satisfaction Rating	I-S Rating Rank				
Very High Priority (IS >.20)	2007		5 0/	40	0.5004	_				
Traffic flow on major highways	62%	1	5%	18	0.5921	1				
Traffic flow on major City streets	47%	2	10%	17	0.4235	2				
High Priority (IS .1020)										
Overall maintenance of major City streets	25%	5	28%	14	0.1800	3				
Quality of planning & zoning services	22%	6	20%	15	0.1732	4				
Quality of public safety services	43%	3	72%	4	0.1187	5				
Medium Priority (IS <.10)										
Development review, permitting and inspection services	12%	10	16%	16	0.0967	6				
Quality of health & human services	16%	9	41%	9	0.0945	7				
Quality of drinking water services	33%	4	73%	3	0.0913	8				
Quality of electric services	18%	7	58%	8	0.0732	9				
Overall maintenance of City sidewalks	9%	11	31%	13	0.0593	10				
Overall management of stormwater runoff	7 %	13	40%	11	0.0433	11				
Quality of parks and rec programs/facilities	17%	8	74%	2	0.0424	12				
Effectiveness of city communication	6%	17	34%	12	0.0369	13				
Quality of wastewater services	7%	14	65%	6	0.0249	14				
Animal services	6%	16	59%	7	0.0242	15				
Quality of municipal court services	4%	18	41%	10	0.0241	16				
Quality of City libraries	7%	12	71%	5	0.0214	17				
Austin-Bergstrom International Airport	6%	15	79%	1	0.0131	18				

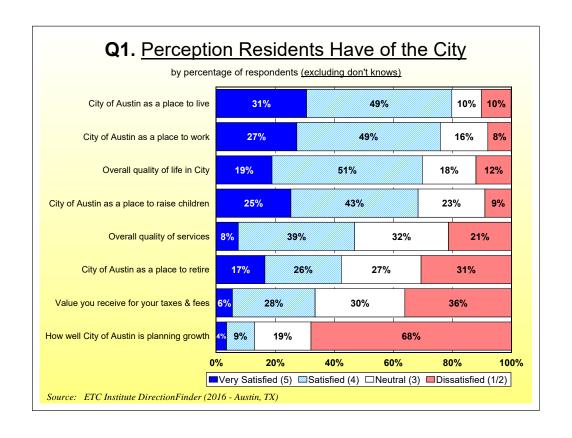

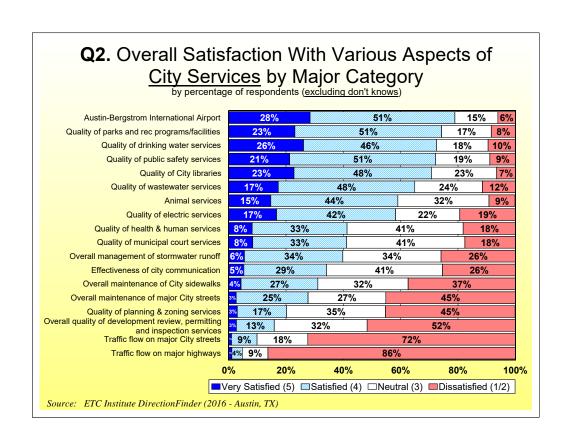

Conclusions

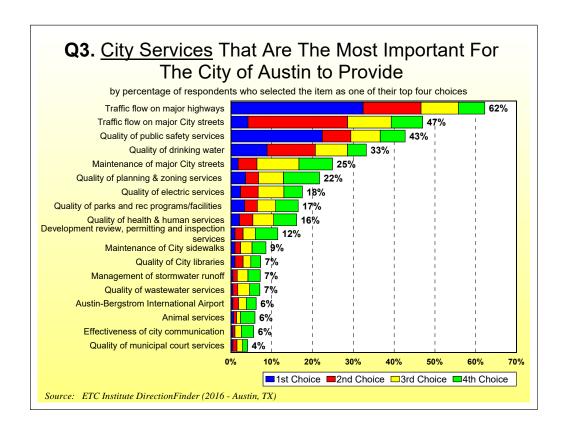

Based on the results of the City's 2016 survey and the subsequent analysis of the survey data, ETC Institute has reached the following conclusions:

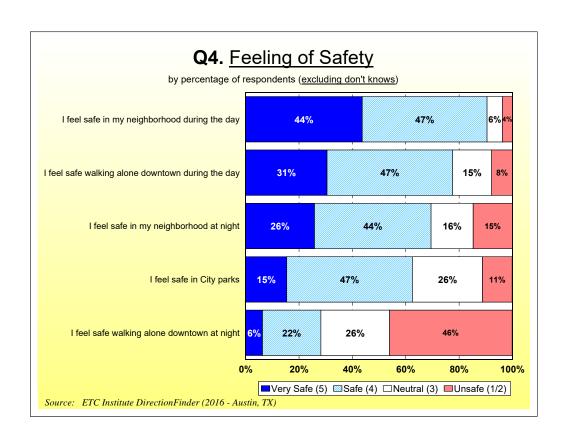

- Four major areas have been identified to emphasize over the next two years. By investing in these four areas, the City of Austin will increase the probability that the overall satisfaction rating for the City will improve in future years. The four major areas are listed below:
 - 1) Traffic Flow. Traffic flow on both major highways and City streets had the highest Importance-Satisfaction rating among all 18 items that were ranked.
 - **2) Condition and Maintenance of City Streets.** The overall maintenance of City streets, the condition of major city streets, the condition of streets in neighborhoods, and the timing of traffic signals on City streets all ranking very high in their respective Importance-Satisfaction ratings.
 - **3) Public Safety.** Safety in City parks and facilities ranked number one among the 15 recreation and cultural services that were rated.
 - **4) Flood Control.** Forty-six percent (46%) of respondents indicated that flood control efforts were the most important environmental service for the City to provide, this item also received the lowest levels of positive satisfaction among the five items that were listed.

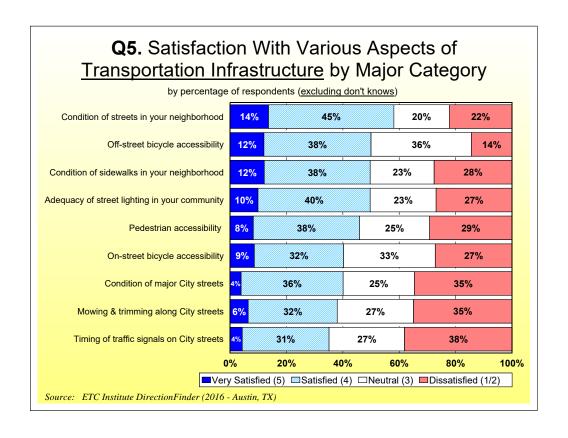

Section 1 Charts and Graphs

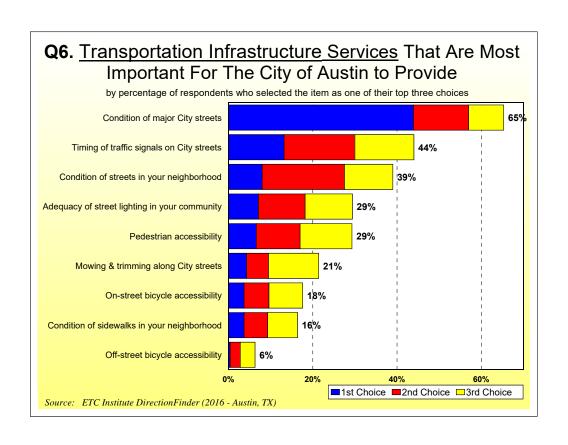

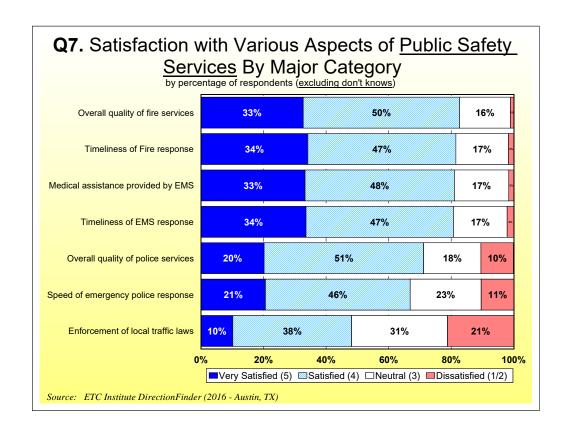

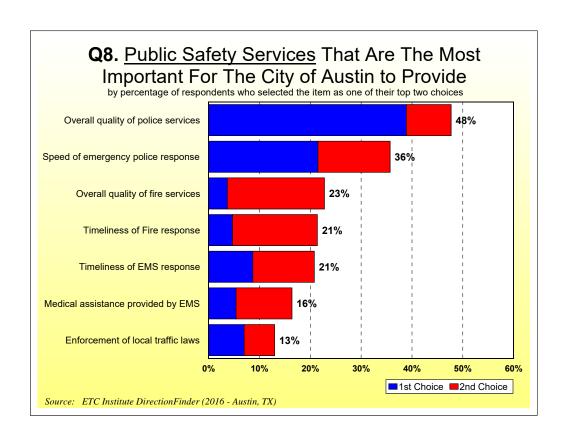

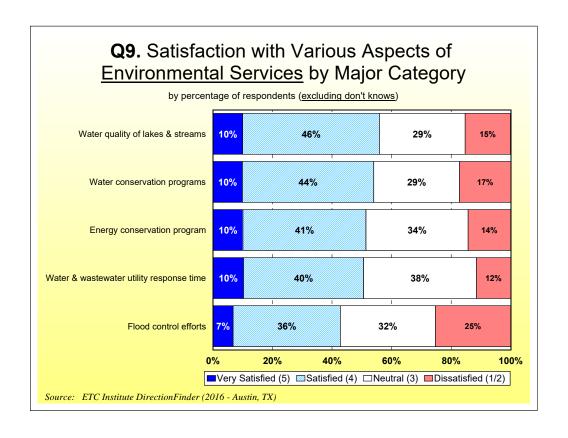

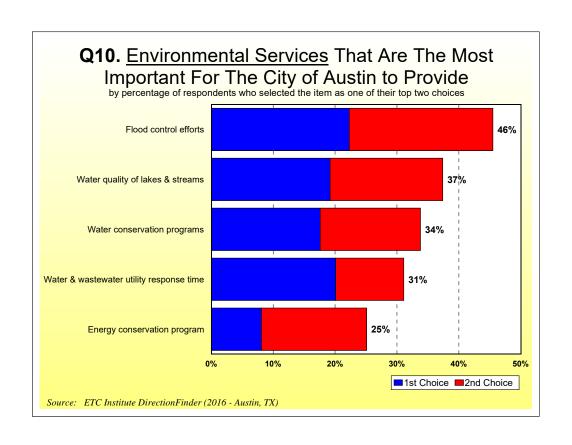

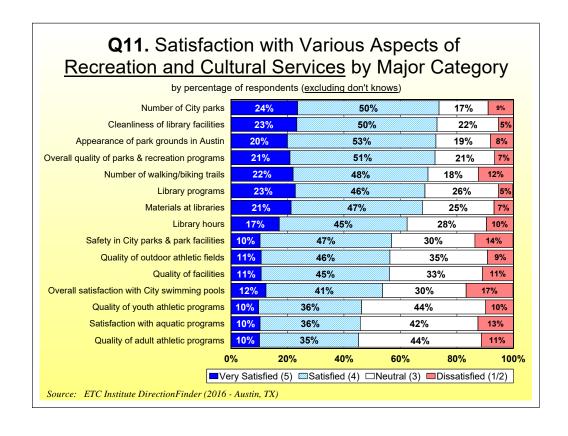

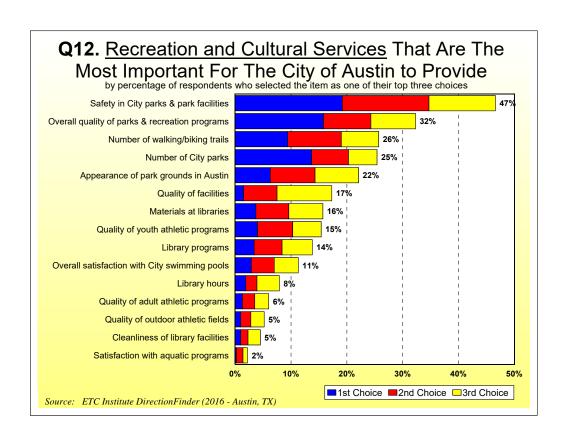

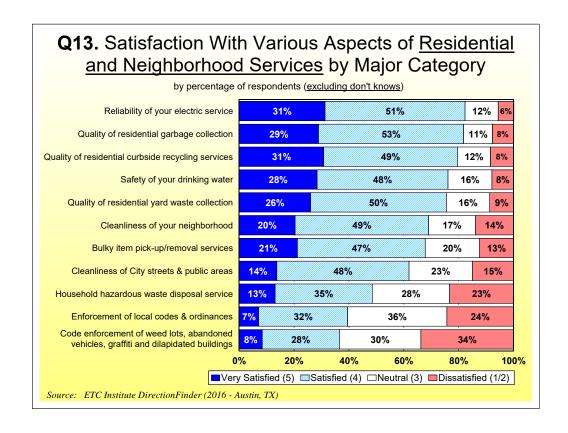

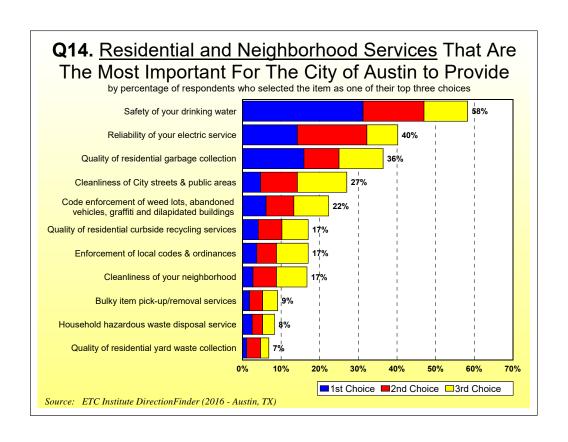

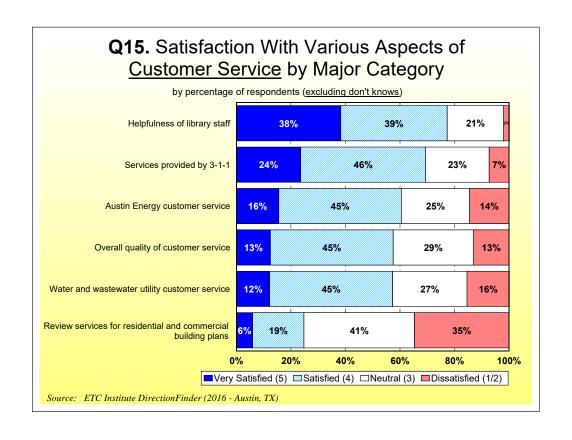

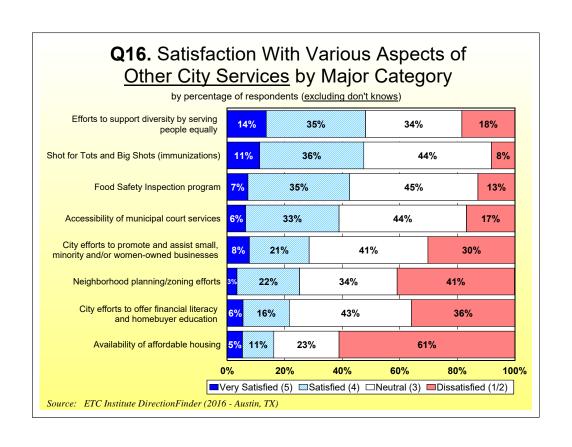

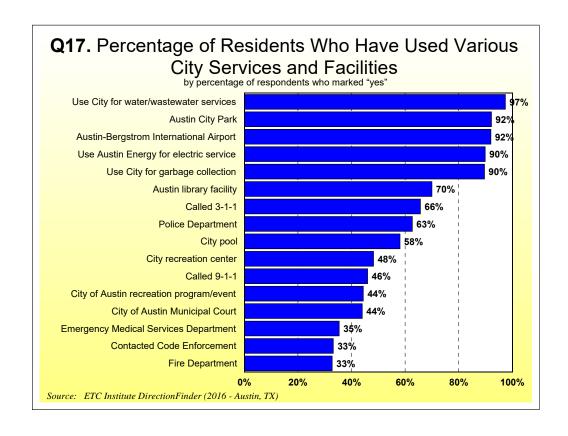

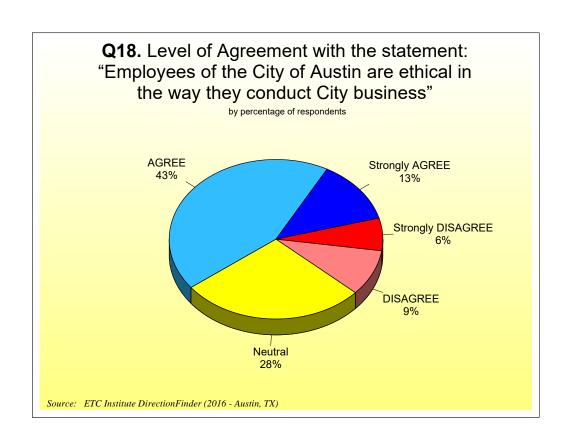

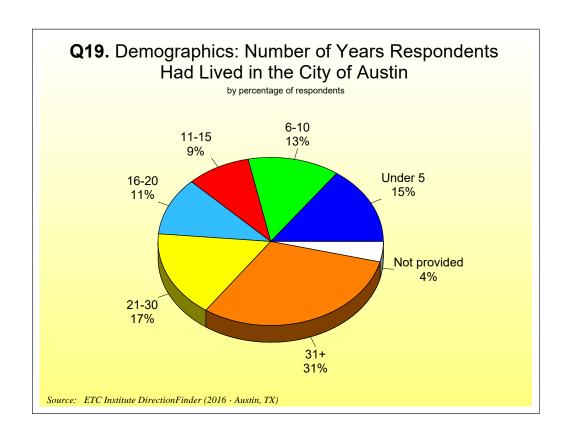

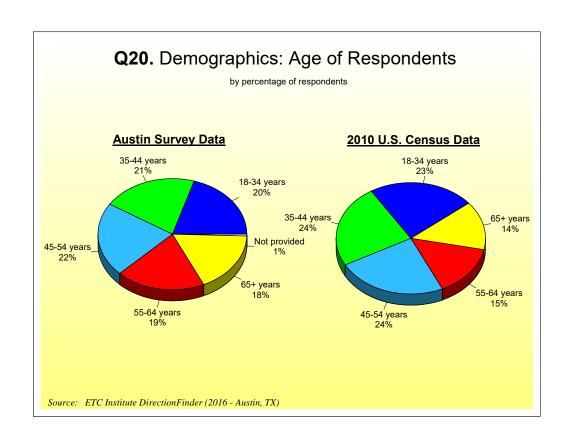

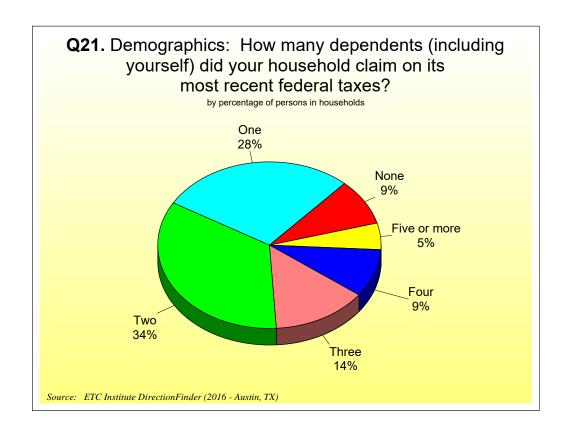

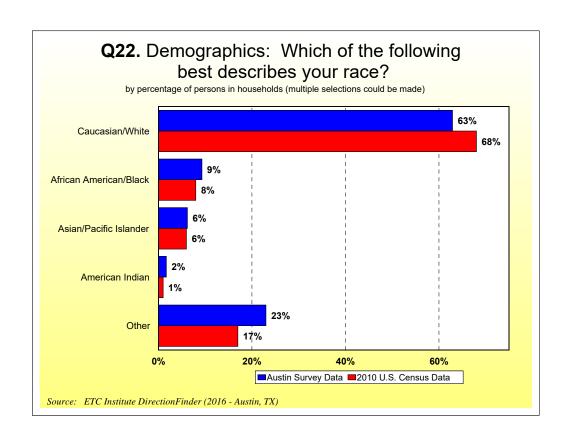

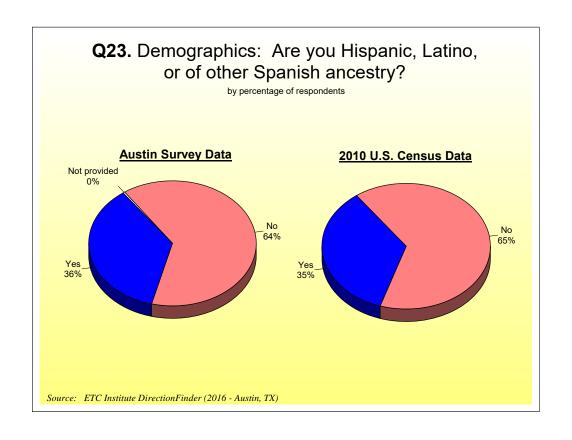

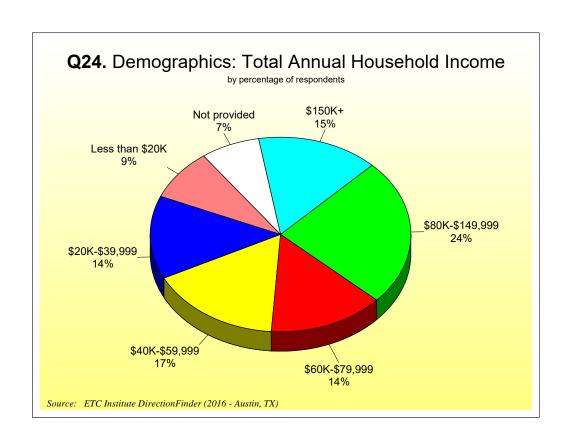

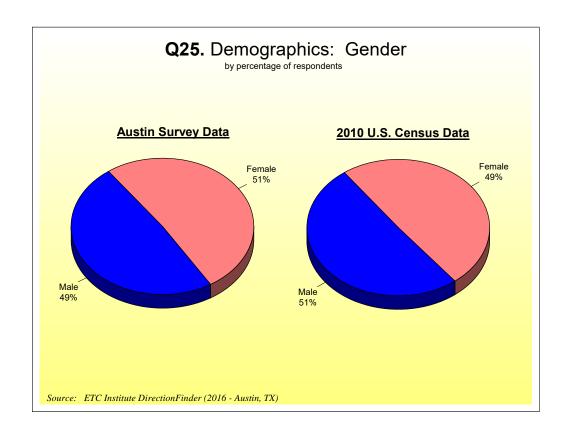

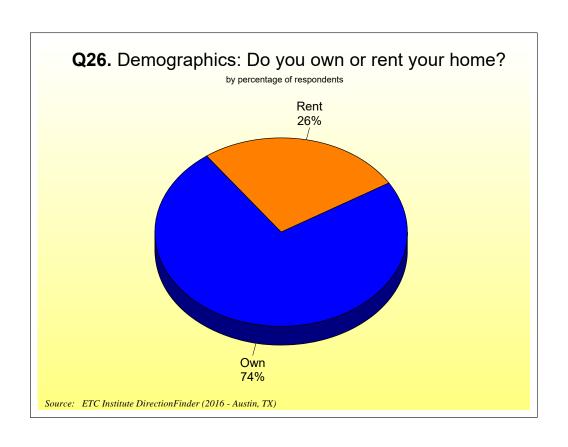

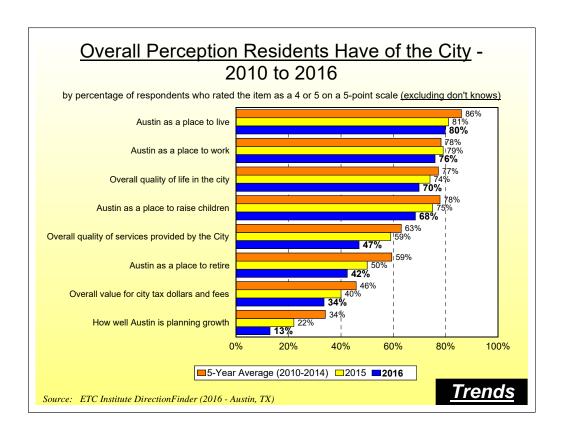

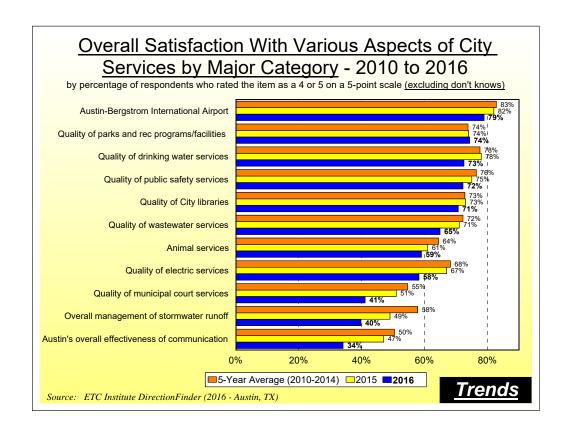

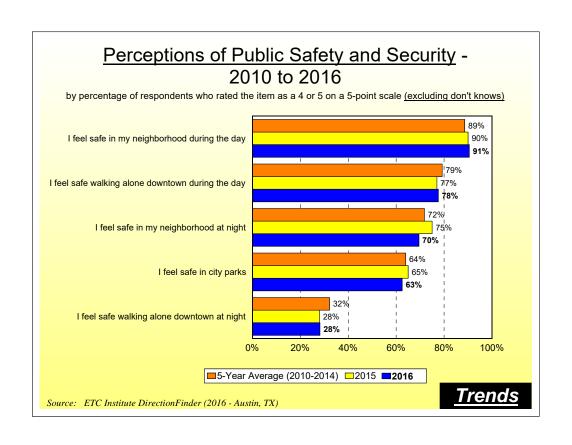

Section 2 Trend Charts (2010-2014, 2015, & 2016)

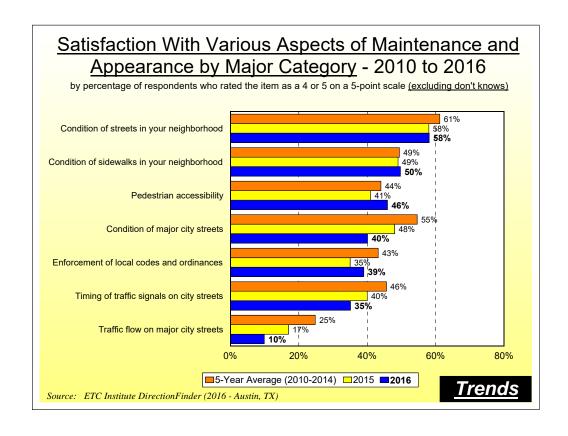

2010-2014, 2015, & 2016 Trends

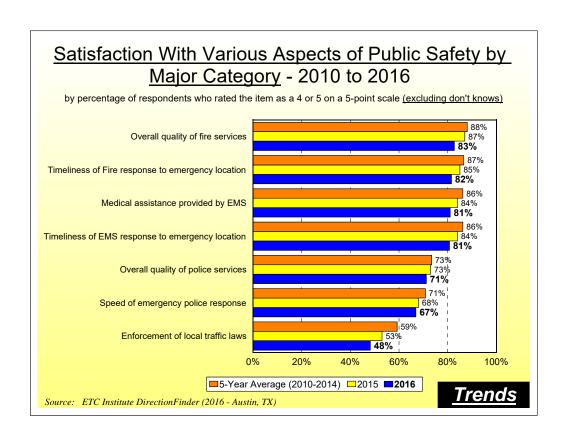

The 2015 and 2016 data shown in these charts are based on results from the 10 Council Districts within the City of Austin, while the 5-year averages calculated from the 2010-2014 surveys are based on the 6 Planning Districts. This should be taken into consideration when making comparisons of the data.

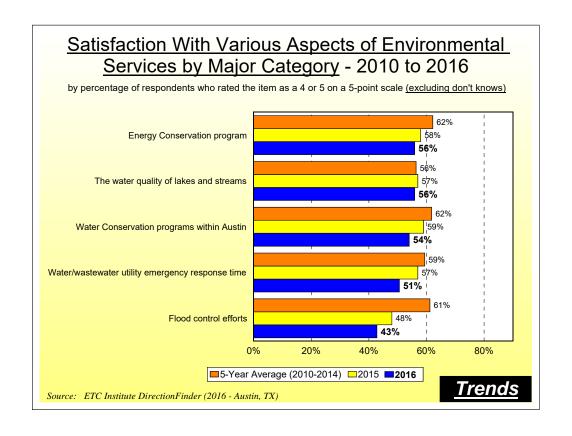

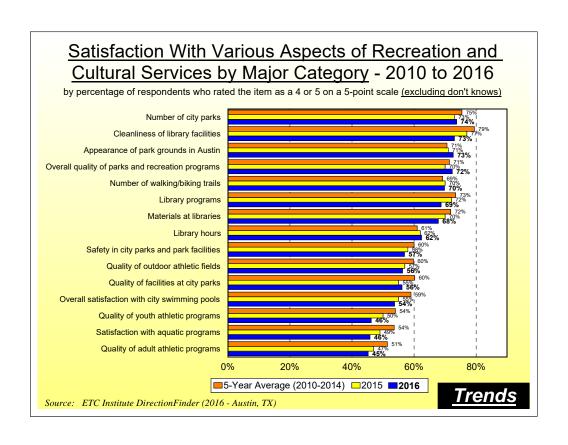

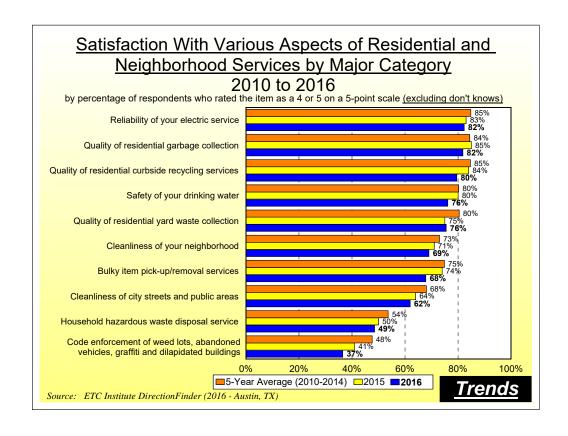

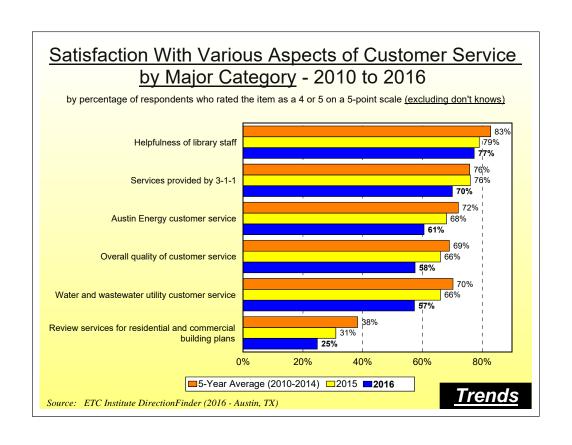

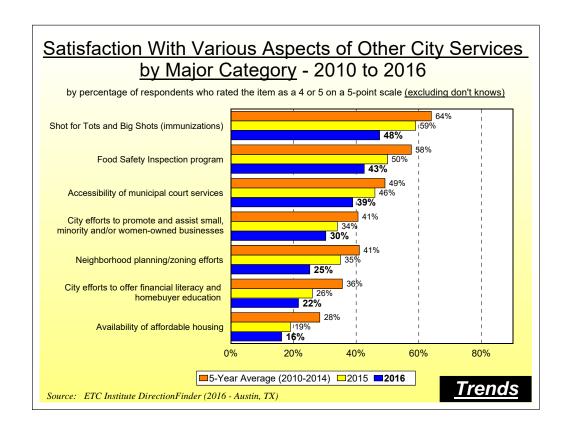

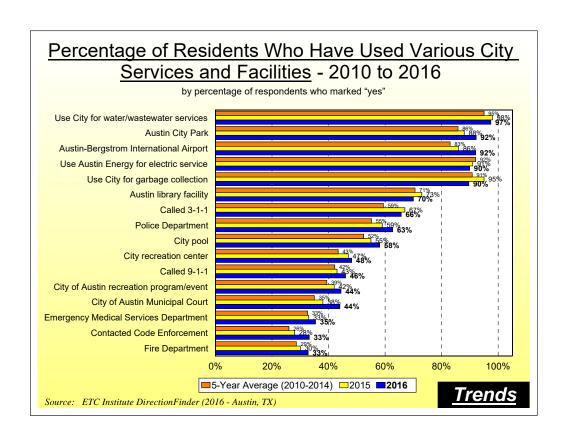

Section 3 Benchmarking Analysis

DirectionFinder Survey Year 2016 Benchmarking Summary Report

Overview

ETC Institute's *DirectionFinder*® program was originally developed in 1999 to help community leaders use statistically valid community survey data as a tool for making better decisions. Since November 1999, the survey has been administered in more than 200 cities and counties in 43 states. Most participating communities conduct the survey on an annual or biennial basis.

This report contains benchmarking data from three sources: (1) a national survey that was administered by ETC Institute during the fall of 2016 to a random sample of residents in the continental United States living in cities with a population of more than 250,000 residents, (2) survey results from 30 large communities (population of more than 250,000 residents) where the *DirectionFinder*® survey was administered during the fall of 2016, and (3) survey results from 9 large communities (population of more than 500,000 residents) where the *DirectionFinder*® survey was administered during the fall of 2016. These communities include Austin, Dallas, Fort Worth, Houston, Kansas City, Las Vegas, Oklahoma City, San Antonio, and San Diego.

The national survey results were used as the basis for the average performance ratings that are shown in this report. The results from individual cities were used as the basis for developing the range of performance and head-to-head comparisons. The communities included in the performance comparisons that are shown in this report are listed below:

- Arlington County, VA
- Arlington, TX
- Austin, TX
- Dallas, TX
- Denver, CO
- Des Moines, IA
- Durham, NC
- Fort Lauderdale, FL
- Fort Worth, TX
- Houston, TX
- Indianapolis, IN
- Johnson County, KS
- Kansas City, MO
- Las Vegas, NV
- Mecklenburg County, NC

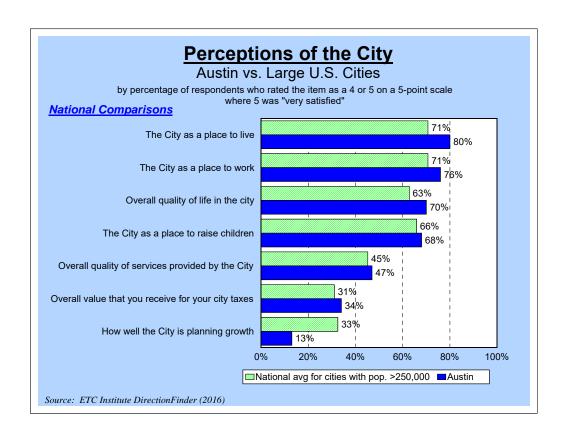

- Miami-Dade County, FL
- Minneapolis, MN
- Oklahoma City, OK
- Plano, Texas
- Providence, RI
- San Antonio, TX
- San Diego, CA
- San Francisco, CA
- Seattle, WA
- St. Louis, MO
- Tempe, AZ
- Tulsa, OK
- Tucson, AZ
- Wichita, KS
- Yuma County, AZ

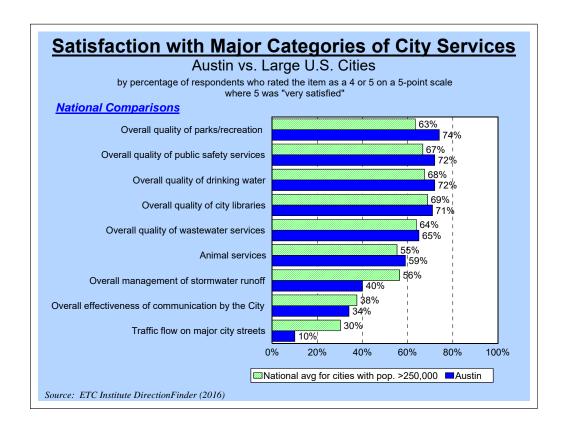

There are five sets of charts in this report:

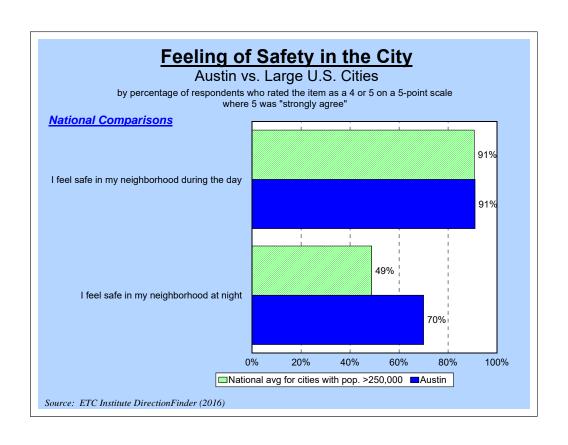

- The **first set** shows how the results for the City of Austin compare to the national average for large U.S. cities with a population of more than 250,000. The blue bar shows the results for the City of Austin. The green bar shows the results of a national survey that was administered by ETC Institute to a random sample of U.S. residents living in cities with a population of more than 250,000 during the fall of 2016.
- The **second set** shows head-to-head comparisons between the City of Austin and other large cities in the United States. The gray bars show the results for the individual cities. The blue bar shows the results for the City of Austin. The yellow bar shows the results of a national survey that was administered by ETC Institute to a random sample of U.S. residents living in cities with a population of more than 250,000 during the fall of 2016.
- The **third set** shows how the results for the City of Austin compare to the range of performance for other large U.S. cities. A total of 30 large U.S. cities were included in this analysis (these cities are listed on the previous page). The horizontal blue bar shows the range of performance for each of the areas that were surveyed. The percentage on the left shows the results for the worst performing city. The percentage on the right shows the results for the best performing city. The yellow dot shows the results for the City of Austin. The green vertical bar shows the results of a national survey that was administered by ETC Institute to a random sample of more than 2,000 U.S. residents living in cities with a population of more than 250,000 residents during the fall of 2016.
- The **fourth set** shows how satisfaction with services in the City of Austin compare to the national average for large U.S. cities with a population of more than 500,000. These communities include Austin, Dallas, Fort Worth, Houston, Kansas City, Las Vegas, Oklahoma City, San Antonio, and San Diego. The blue bar shows the results for the City of Austin. The yellow bar shows the results of a national survey that was administered by ETC Institute to a random sample of U.S. residents living in cities with a population of more than 500,000 during the fall of 2016.
- The **fifth set** provides benchmarking trend data in table format, and shows how the ratings for the City of Austin compare to the National Average for communities with more than 250,000 residents between 2015 and 2016, as well as changes in Austin's performance vs. changes in the National Average.

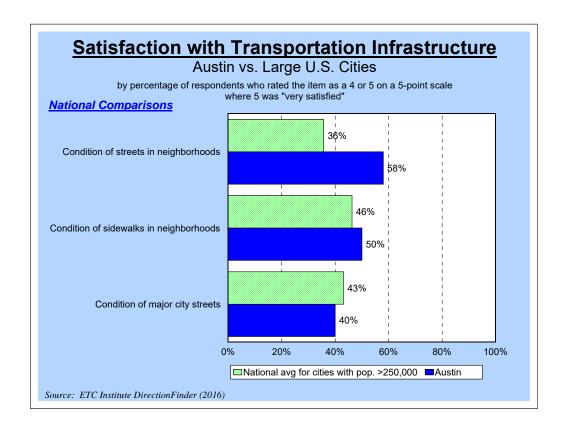

Benchmarking Data National Comparisons

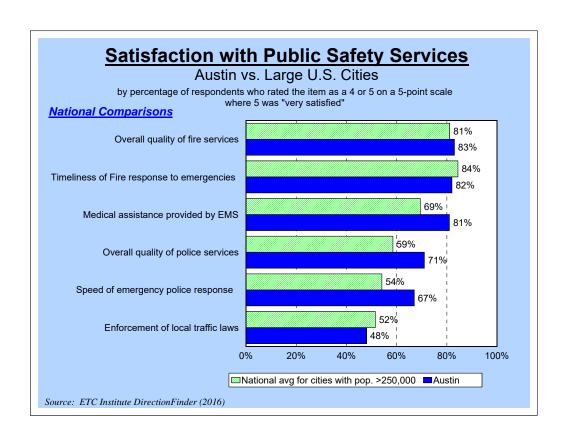

The charts on the following pages show how the results for the City of Austin compare to the national average for large U.S. cities. The blue bar shows the results for the City of Austin. The green bar shows the results of a national survey that was administered by ETC Institute to a random sample of U.S. residents living in cities with a population of more than 250,000 residents during the Fall of 2016.

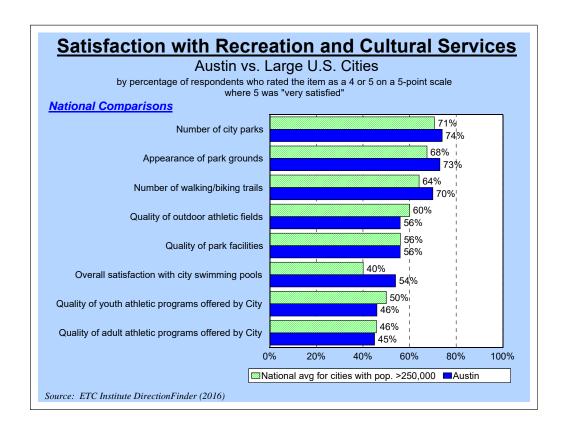

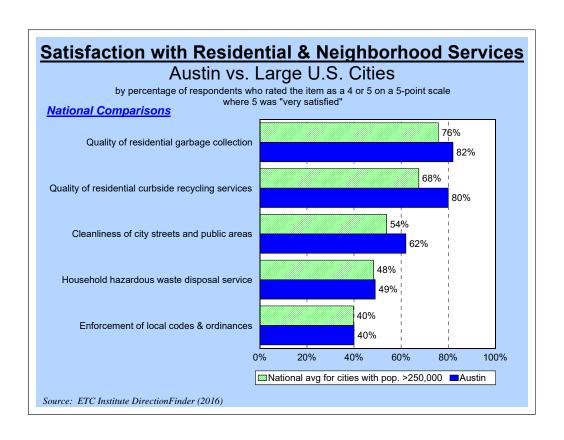

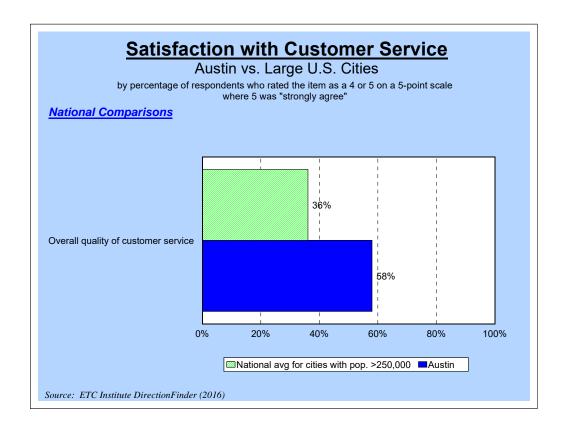

Benchmarking Data

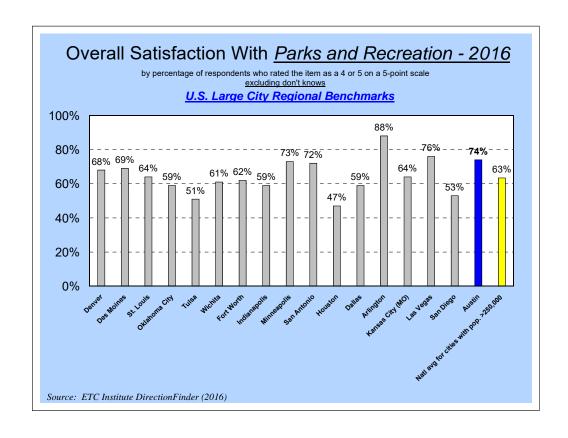

Selected Head-to-Head Comparisons for Large Cities in the U.S.

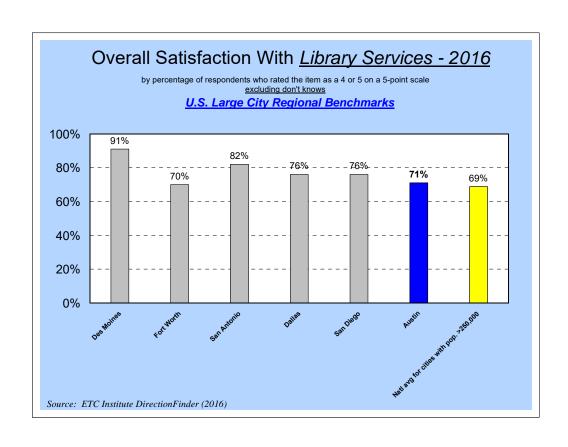

The following charts show head-to-head comparisons between the City of Austin and other large cities in the United States. The gray bars show the results for the individual cities. The blue bar shows the results for the City of Austin. The yellow bar shows the results of a national survey that was administered by ETC Institute to a random sample of U.S. residents living in cities with a population of more than 250,000 residents during the Fall of 2016. The cities included for these head-to-head comparisons are listed below.

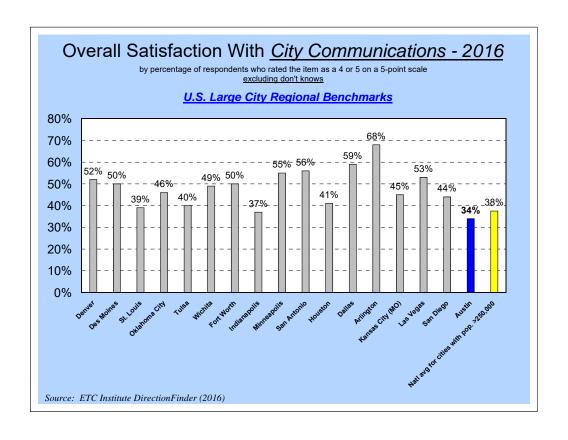

- Arlington, TX
- Austin, TX
- Dallas, TX
- Denver, CO
- Des Moines, IA
- Fort Worth, TX
- Houston, TX
- Indianapolis, IN

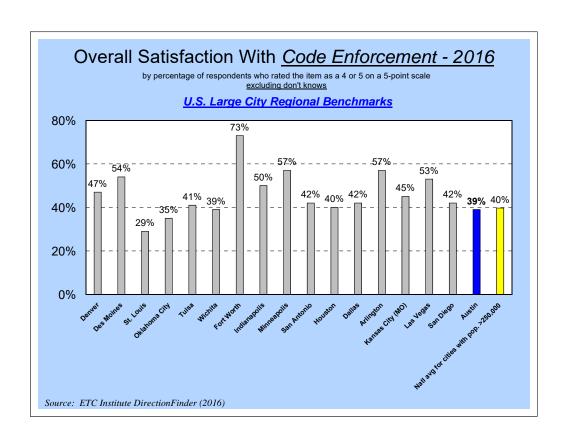

Kansas City, MO

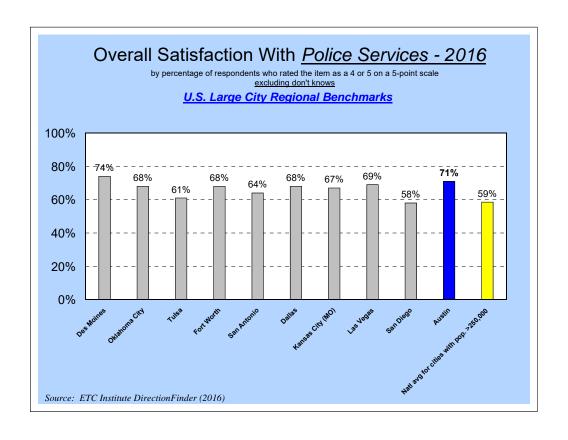

- Las Vegas, NV
- Minneapolis, MN
- Oklahoma City, OK
- St. Louis, MO
- San Antonio, TX
- San Diego, CA
- Tulsa, OK
- Wichita, KS

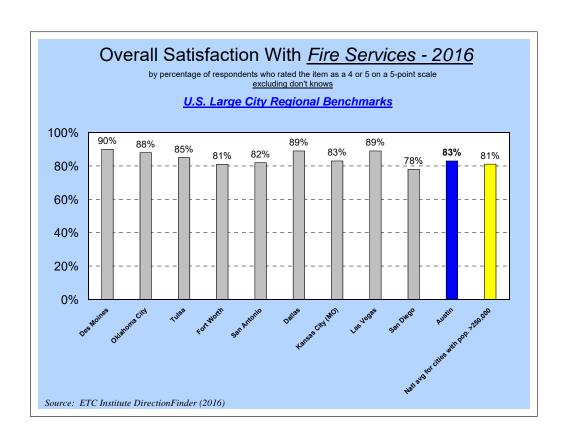

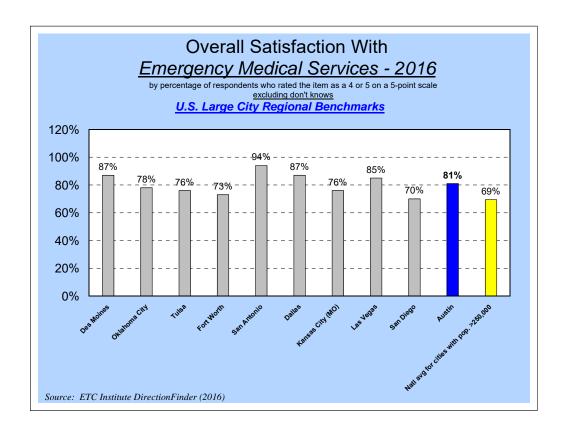

Benchmarking Data Comparisons to a Range of Performance

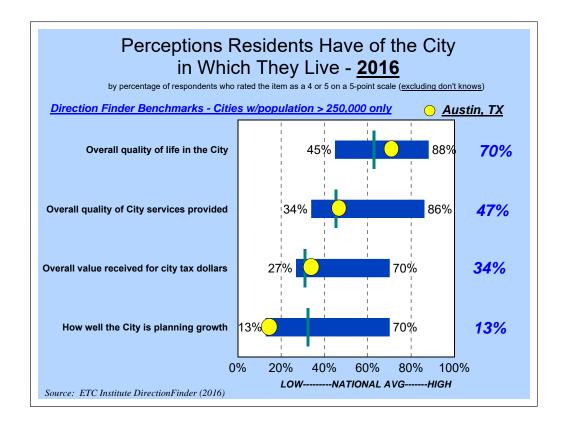

The following charts show how the results for the City of Austin compare to the range of performance for other large U.S. Cities. A total of 30 large U.S. cities were included in this analysis. These cities are listed in the following chart.

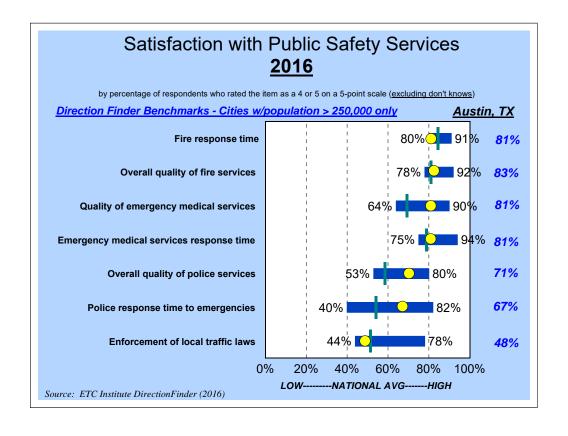

The horizontal blue bar shows the range of performance for each of the areas that were surveyed. The percentage on the left shows the results for the worst performing city. The percentage on the right shows the results for the best performing city. The yellow dot shows the results for the City of Austin. The green vertical bar shows the results of a national survey that was administered by ETC Institute to a random sample of more than 2,000 U.S. residents living in cities with a population of more than 250,000 residents during Fall of 2016.

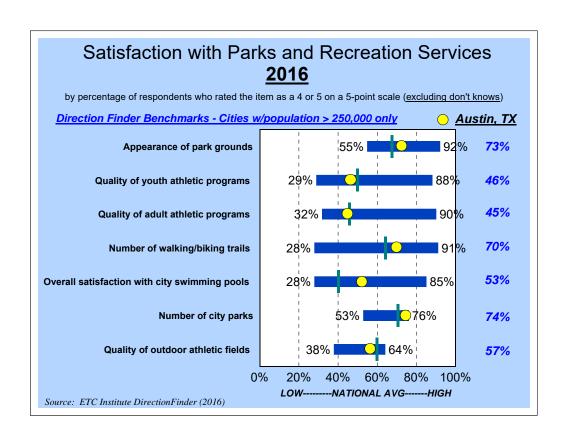

Benchmarking Communities

Benchmarking Communities With Populations Greater Than 500,000

- Austin, TX
- Dallas, TX
- Fort Worth, TX
- Houston, TX
- Kansas City, MO

- Las Vegas, NV
- Oklahoma City, OK
- San Antonio, TX
- San Diego, CA

The table below and on the following page show how ratings for the City of Austin compare to the National Average for communities with more than 250,000 residents between 2015 and 2016. The largest increase in satisfaction for the City of Austin from 2015 to 2016 was in enforcement of codes and ordinances (+4.5%). The largest decrease in satisfaction involved the overall effectiveness of communication (-12.5%). When the changes in Austin were compared to changes in the National Average for cities with more than 250,000 residents, Austin showed the most improvement with regard to satisfaction with outdoor swimming pools (+11.8%). The most significant decrease for the City of Austin compared to the National Average involved satisfaction with the quality of stormwater management (-13.5%).

Section 4 Importance-Satisfaction Analysis

Importance-Satisfaction Analysis

City of Austin, Texas

Overview

Today, City officials have limited resources which need to be targeted to activities that are of the most benefit to their citizens. Two of the most important criteria for decision making are (1) to target resources toward services of the <u>highest importance to citizens</u>; and (2) to target resources toward those services where <u>citizens are the least satisfied</u>.

The Importance-Satisfaction (IS) rating is a unique tool that allows public officials to better understand both of these highly important decision making criteria for each of the services they are providing. The Importance-Satisfaction rating is based on the concept that public agencies will maximize overall customer satisfaction by emphasizing improvements in those areas where the level of satisfaction is relatively low and the perceived importance of the service is relatively high.

Methodology

The rating is calculated by summing the percentage of responses for items selected as the first, second, and third most important services for the City to provide. The sum is then multiplied by 1 minus the percentage of respondents who indicated they were positively satisfied with the City's performance in the related area (the sum of the ratings of 4 and 5 on a 5-point scale excluding "Don't Know" responses). "Don't Know" responses are excluded from the calculation to ensure the satisfaction ratings among service categories are comparable. [IS=Importance x (1-Satisfaction)].

Example of the Calculation: Respondents were asked to identify the major categories of city services they thought should receive the most emphasis over the next two years. Sixty-two percent (62%) of respondents selected *traffic flow on major highways* as one of the most important services for the City to provide.

With regard to satisfaction, 5% of respondents surveyed rated the City's overall performance in the *traffic flow on major highways* as a "4" or "5" on a 5-point scale (where "5" means "Very Satisfied") excluding "Don't Know" responses. The I-S rating for *traffic flow on major highways* was calculated by multiplying the sum of the most important percentages by 1 minus the sum of the satisfaction percentages. In this example 62% was multiplied by 5% (1-0.05). This calculation yielded an I-S rating of 0.5921 which ranked first out of 18 major service categories.

The maximum rating is 1.00 and would be achieved when 100% of the respondents select an item as one of their top three choices to emphasize over the next two years and 0% indicate they are positively satisfied with the delivery of the service.

The lowest rating is 0.00 and could be achieved under either of the following two situations:

- If 100% of the respondents were positively satisfied with the delivery of the service
- If none (0%) of the respondents selected the service as one for the three most important areas for the City to emphasize over the next two years.

Interpreting the Ratings

Ratings that are greater than or equal to 0.20 identify areas that should receive significantly more emphasis over the next two years. Ratings from 0.10 to 0.20 identify service areas that should receive increased emphasis. Ratings less than 0.10 should continue to receive the current level of emphasis.

- Definitely Increase Emphasis (IS>=0.20)
- Increase Current Emphasis (0.10<=IS<0.20)
- Maintain Current Emphasis (IS<0.10)

The results for the City of Austin are provided on the following pages.

2016 Importance-Satisfaction Rating City of Austin Major Categories of City Services

Category of Service	Most Important %	Most Important Rank	Satisfaction %	Satisfaction Rank	Importance- Satisfaction Rating	I-S Rating Rank
Very High Priority (IS >.20)						
Traffic flow on major highways	62%	1	5%	18	0.5921	1
Traffic flow on major City streets	47%	2	10%	17	0.4235	2
High Priority (IS .1020)						
Overall maintenance of major City streets	25%	5	28%	14	0.1800	3
Quality of planning & zoning services	22%	6	20%	15	0.1732	4
Quality of public safety services	43%	3	72%	4	0.1187	5
Medium Priority (IS <.10)						
Development review, permitting and inspection services	12%	10	16%	16	0.0967	6
Quality of health & human services	16%	9	41%	9	0.0945	7
Quality of drinking water services	33%	4	73%	3	0.0913	8
Quality of electric services	18%	7	58%	8	0.0732	9

of 1 to 5 with "5" being Very Satisfied and "1" being Very Dissatisfied.

Importance-Satisfaction Assessment Matrix

City of Austin, Texas

Overview

The Importance-Satisfaction (IS) rating is a unique tool that allows public officials to better understand both of these highly important decision making criteria for each of the services they are providing. The Importance-Satisfaction rating is based on the concept that public agencies will maximize overall customer satisfaction by emphasizing improvements in those areas where the level of satisfaction is relatively low and the perceived importance of the service is relatively high. ETC Institute developed an Importance-Satisfaction Matrix to display the perceived importance of major services that were assessed on the survey against the perceived quality of service delivery. The two axes on the matrix represent Satisfaction (vertical) and relative Importance (horizontal).

The I-S (Importance-Satisfaction) matrix should be interpreted as follows.

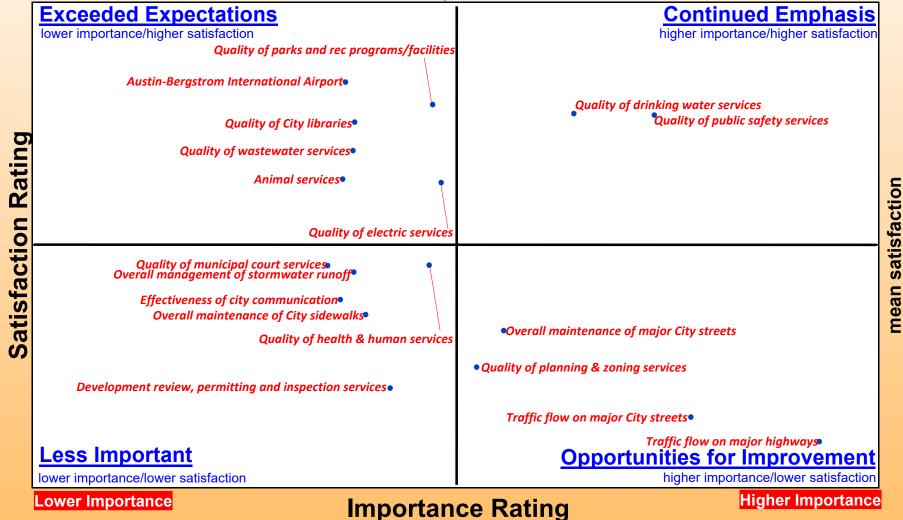

- Continued Emphasis (above average importance and above average satisfaction). This area shows where the City is meeting customer expectations. Items in this area have a significant impact on the customer's overall level of satisfaction. The City should maintain (or slightly increase) emphasis on items in this area.
- **Exceeding Expectations (below average importance and above average satisfaction).** This area shows where the City is performing significantly better than customers expect the City to perform. Items in this area do not significantly affect the overall level of satisfaction that residents have with City services. The City should maintain (or slightly decrease) emphasis on items in this area.
- Opportunities for Improvement (above average importance and below average satisfaction). This area shows where the City is not performing as well as residents expect the City to perform. This area has a significant impact on customer satisfaction, and the City should DEFINITELY increase emphasis on items in this area.
- Less Important (below average importance and below average satisfaction). This area shows where the City is not performing well relative to the City's performance in other areas; however, this area is generally considered to be less important to residents. This area does not significantly affect overall satisfaction with City services because the items are less important to residents. The agency should maintain current levels of emphasis on items in this area.

I-S Matrices for the City are on the following pages.

Section 5 *GIS Maps*

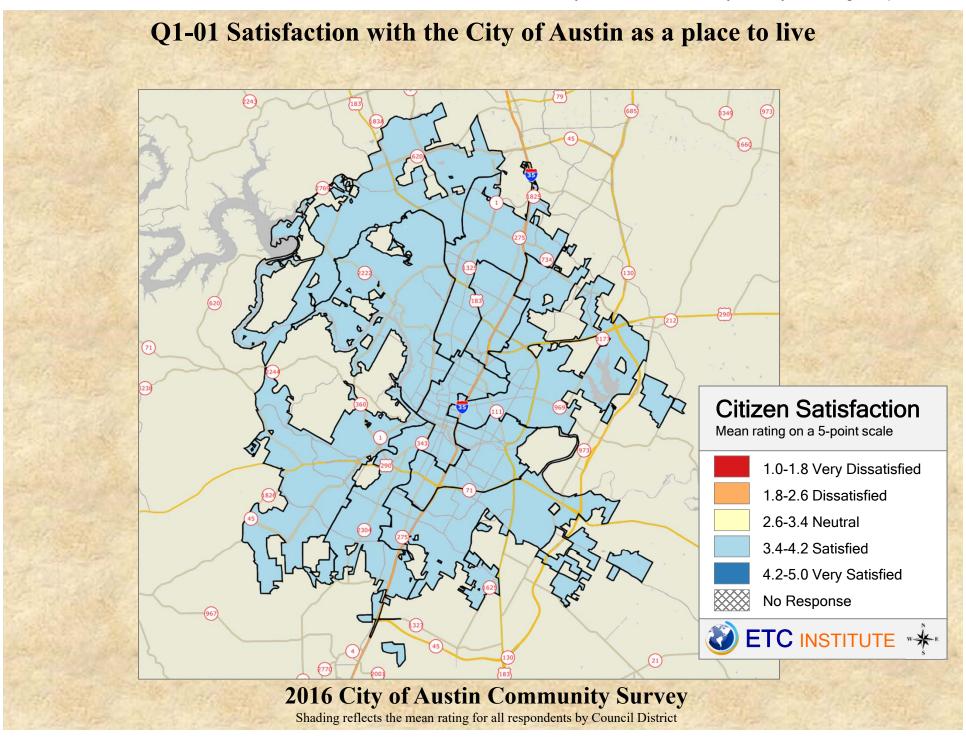

Interpreting the Maps

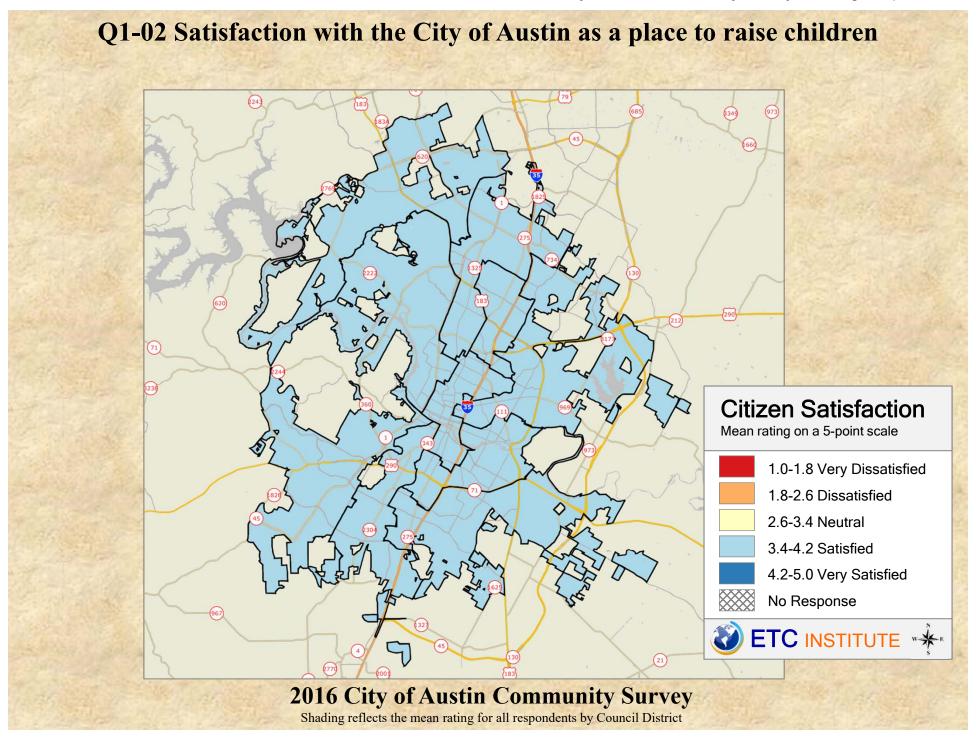

The maps on the following pages show the mean ratings for several questions on the survey by Council District. If all areas on a map are the same color, then residents generally feel the same about that issue regardless of the location of their home.

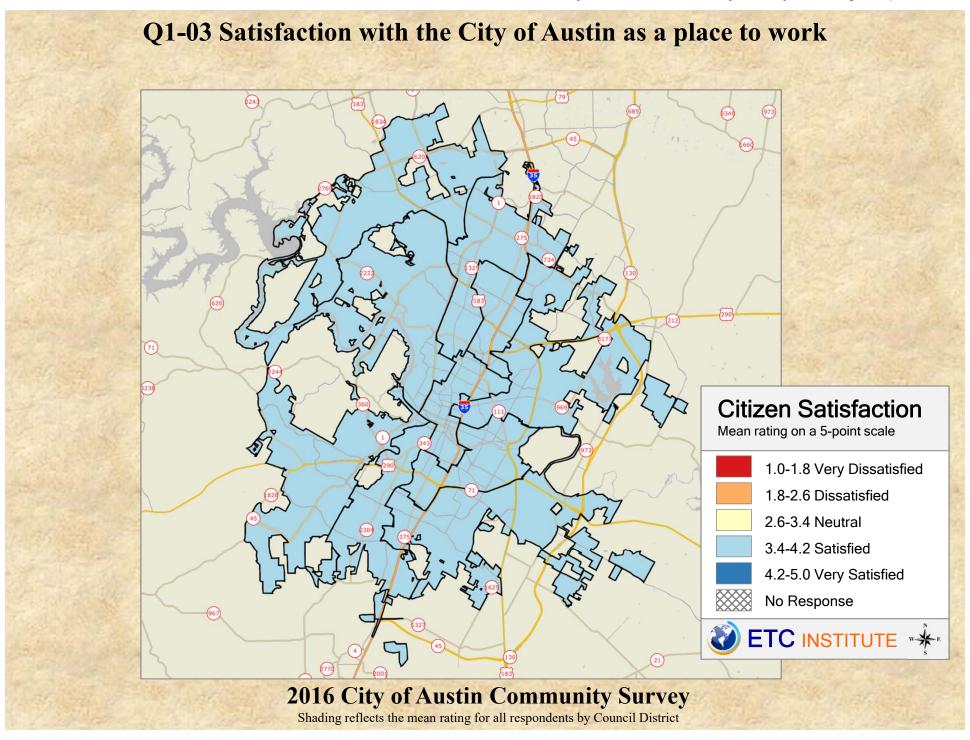

When reading the maps, please use the following color scheme as a guide:

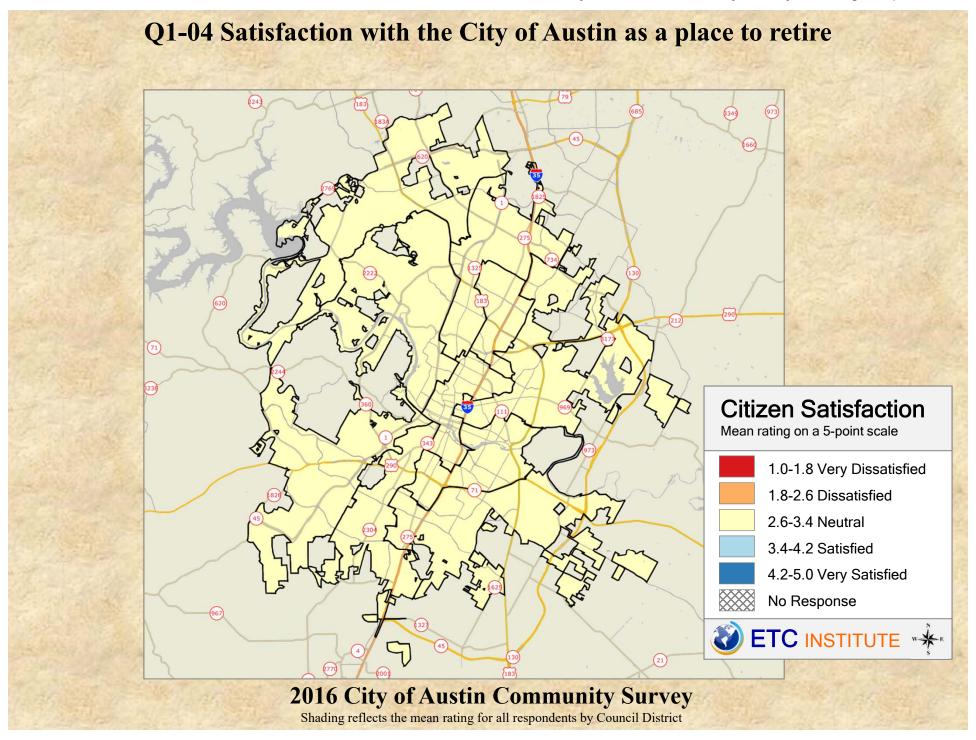

- DARK/LIGHT BLUE shades indicate <u>POSITIVE</u> ratings. Shades of blue generally indicate satisfaction with a service, ratings of "excellent" or "good" and ratings of "very safe" or "safe."
- OFF-WHITE shades indicate <u>NEUTRAL</u> ratings. Shades of neutral generally indicate that residents thought the quality of service delivery is adequate.
- ORANGE/RED shades indicate <u>NEGATIVE</u> ratings. Shades of orange/red generally indicate dissatisfaction with a service, ratings of "below average" or "poor" and ratings of "unsafe" or "very unsafe."

September 2016

Dear Austin resident,

Have you ever thought of yourself as a customer of government services? In the City of Austin, customer input helps us improve our services and meet our mission of becoming the Best Managed City in the country. Please take this opportunity to tell your City Council Members and City of Austin administrators what you think of the services provided by the Austin city government.

Please take a few minutes and tell us about:

- Your opinions of City programs, services and City staff, and
- Your preferences about how City officials should prioritize our programs and services.

Your household has been randomly selected to receive this survey and only a small percentage of Austin residents receive it. Your input and participation are an important part of the City's planning efforts. Your individual responses will remain anonymous.

If you have any questions regarding this survey or would like to discuss the questions asked, please call the City of Austin Office of Performance Management at (512) 974-2610.

In the next few days, please answer the questions and return the completed questionnaire in the enclosed postage-paid envelope addressed to ETC Institute, 725 W. Frontier Circle, Olathe, KS 66061. The ETC Institute's DirectionFinder® services will compile your responses for analysis and also provide comparison satisfaction ratings from our peer cities. Once completed, we will present the compiled results to the City Council and public, and they will also be published on our website, www.austintexas.gov.

Your input is extremely important! Thank you very much for taking the time to share your thoughts with us.

Marc A. Ott City Manager

La ciudad de Austin quiere saber que tan bien esta proporcionando servicios a la comunidad, así que le esta pidiendo su opinión. iSu opinión es importante! Sus respuestas individuales serán anónimas. Si usted prefiere hacer la encuesta en Español, por favor llame gratis al (844) 811-0411 y hable con Chris Tatham. Necesitamos recibir sus respuestas en los próximos días. Muchas gracias.

Các thành Phố Austin đang tiến hành một cuộc khảo sát để lấy ý kiến của người dân về chất lượng dịch vụ của thành phố . Phản hồi của bạn là quan trọng, và phản ứng của bạn sẽ được giữ bí mật . Nếu bạn muốn hoàn thành việc điều tra bạn có thể làm như vậy bằng cách gọi số điện thoại miễn phí 1-844-811-0411. Cảm ơn bạn.

奥斯汀市正在進行一項調查,以獲取居民對城市服務品質的反饋。您的回饋意见对我们很重要,我们將予以保密。如果您希望使用中文完成調查,請免費撥號 1-844-811-0411。 謝謝您的參與!

2016 City of Austin Community Survey

Thank you for taking the time to complete this important survey. Please circle the response that most closely matches your opinion. <u>YOUR RESPONSES WILL REMAIN ANONYMOUS</u>. When you are finished, please return your survey in the postage-paid envelope addressed to ETC Institute, 725 W. Frontier Circle, Olathe, KS 66061.
