NOTES CONTINUED

25. A future permanent easement shall be granted to the City of Austin to allow for the construction of the Tier II Moya-McKinney Falls Trail as approved by the Public Works Dept. Such easements shall be dedicated by separate instrument and shall run generally along the southern edge of the Bursen Road Right-of-Way in a location mutually agreed upon by the property owner and the City of Austin.

NOTES:

- No lot shall be occupied until the structure is connected to the City of Austin water and wastewater system.
- The water, reclaimed, and wastewater utility system serving this subdivision must be in accordance with the City of Austin Utility design criteria. The water, reclaimed, and wastewater utility plan must be reviewed and approved by Austin Water. All water, reclaimed, and wastewater construction must be inspected by the City of Austin. The landowner must pay the city inspection fee with the utility construction.
- The water and/or wastewater easements indicated on this plat are for the purpose of construction, operation, maintenance, repair, replacement, upgrade, decommissioning and removal of water and/or wastewater facilities and appurtenances. No objects, including but not limited to, buildings, retaining walls, trees or other structures are permitted in water and/or wastewater easements except as approved by Austin Water.
- All drainage easements on private property shall be maintained by the property owner and his/her assigns.
- Building setback lines shall be in conformance with City of Austin zoning ordinance requirements.
- Development of these lots shall comply with requirements of the Airport Hazard and compatible land use regulations, (Chapter 25-13) as amended.
- No buildings, fences, landscaping or other structures are permitted in drainage easements except as approved by the City of Austin.
- Property owners shall provide access to drainage easements as may be necessary and shall not prohibit access by governmental authorities.
- Prior to construction on this subdivision, a site development permit must be obtained from the City of Austin.
- Prior to construction on lots in this subdivision, drainage plans will be submitted to the City of Austin for review. Rainfall run-off shall be held to the amount existing at undeveloped status by ponding or other approved methods.
- Any relocation of electric facilities shall be at owners expense.
- All electric easements must be shown on all plan sheets, left clear for electric use and maintenance on a 24/7 basis in perpetuity and maintain necessary clearances from any proposed structures, vegetation, etc at all times. Necessary clearance information (AE, OSHA, NESC, & NEC) may be found in Austin Energy's Design Criteria Manual - section 1.5.3.9. The manual is available on Austin Energy's website under contractors / electric service design & planning.
- Austin Energy has the right to prune and/or remove trees, shrubbery and other obstructions to the extent necessary to keep the easements clear. The Utility will perform all tree work in compliance with the City of Austin Land Development Code.
- The owner/developer of this subdivision/lot shall provide Austin Energy with any easement and/or access required, in addition to those indicated, for the installation and ongoing maintenance of overhead and underground electric facilities. These easements and/or access are required to provide electric service to the building, and will not be located so as to cause the site to be out of compliance with the City of Austin Land Development Code.
- The owner of the property is responsible for maintaining clearances required by the National Electric Safety Code, Occupational Safety and Health Administration (OSHA) regulations, City of Austin rules and regulations and Texas state laws pertaining to clearances when working in close proximity to overhead power lines and equipment. Austin Energy will not render electric service unless required clearances are maintained. All costs incurred because of failure to comply with the required clearances will be charged to the owner.
- All electric easements must be shown on all plan sheets, left clear for electric use and maintenance on a 24/7 basis in perpetuity and maintain necessary clearances from any proposed structures, vegetation, etc. at all times. Necessary clearance information (AE, OSHA, NESC & NEC) may be found in Austin Energy's Design Criteria Manual - section 1.5.3.9. The manual is available on Austin Energy's website under contractor/electric service design & planning.
- The owner shall be responsible for installation of temporary erosion control, revegetation and tree protection for electric utility work required to provide electric service to this project.
- This subdivision plat was approved and recorded before the construction and acceptance of streets and other subdivision improvements. Pursuant to the terms of a Subdivision Construction Agreement between the subdivider and the City of Austin, Dated _____, 20____, the subdivider is responsible for the construction of all streets and facilities needed to serve the lots within the subdivision. This responsibility may be assigned in accordance with the terms of that agreement. For the Construction Agreement pertaining to this subdivision, see the separate instrument recorded in Doc # _____ in the Official Public Records of Travis County, Texas.
- Public sidewalks, built to City of Austin standards, are required along the following streets and as shown by a dotted line on the face of the plat: Bursen Road, Distribution Drive, and Park Vista Drive. These sidewalks shall be in place prior to the lot being occupied. Failure to construct the required sidewalks may result in the withholding of Certificates of Occupancy, building permits, or utility connections by the governing body or utility company.
- Public sidewalks, built to City of Austin standards, are required to be constructed by the property owner after the abutting roadway is improved and concrete curbs are in place along US 183 as shown by a dotted line on the face of the plat. Sidewalks along US 183 are required to be constructed by the property owner after the abutting roadway is improved and concrete curbs are in place. The sidewalks along US 183 are subject to the approval of the Texas Department of Transportation at the site plan stage. Failure to construct the required sidewalks may result in the withholding of Certificates of Occupancy, building permits, or utility connections by the governing body or utility company.
- The owner of this subdivision, and his or her successors and assigns, assumes responsibility for plans for construction of subdivision improvements which comply with applicable codes and requirements of the City of Austin. The owner understands and acknowledges that plat vacation or replatting may be required, at the owner's sole expense, if plans to construct this subdivision do not comply with such codes and requirements.
- Off-street loading and unloading facilities shall be provided on all commercial and industrial lots.
- Streets will be constructed to City of Austin standards. LDC, 25-6-171(a).
- Sidewalks along Distribution Drive will be constructed inside sidewalk easements located within private property. All sidewalk easements must be dedicated during the site plan stage and must be approved by the City of Austin prior to the site plan approval.
