☐ Y ☐ Kelly Blume (Alternate)
☐ - ☐ Martha Gonzalez (Alternate)
☐ Y ☐ Pim Mayo (Alternate)

OWNER/APPLICANT: Scott Jacobs

ADDRESS: 2003 ARPDAL ST

VARIANCE REQUESTED: The applicant has requested variance(s) to Section 25-2-492 (D) (Site Development Regulations) to:

- A. decrease the minimum side setback from 5 feet (required/permitted) to 4.4 feet (requested, existing); and to
- B. decrease the minimum rear setback from 10 feet (required/permitted) to 5.5 feet (requested, existing); and to
- C. Section 25-2-774 (Two-Family Residential Use) (C) (2) (a) to decrease the minimum distance a second dwelling unit must be located from the primary structure from 10 feet (required) to 6 feet (requested/existing)
in order to permit occupancy of an existing accessory structure and covered deck for use as a 2nd dwelling unit in a "SF-3", Family Residence zoning district.

BOARD'S DECISION: 1-9-17 POSTPONED TO FEBRUARY 13, 2017 BY APPLICANT (RE-NOTICE NEEDED); Feb. 13, 2017 Board Member Brooke Bailey motion to Postpone to March 13, 2107, Board Member Melissa Hawthorne second on a 9-0 vote; POSTPONED to March 13, 2017.

RENOTIFICATION: March 13, 2017 The applicant has requested variance(s) to:

- A. Section 25-2-492 (D) (Site Development Regulations) to decrease the minimum east side setback from 5 feet (required/permitted) to 4.4 feet (requested, existing); and to
- B. decrease the minimum rear setback from 10 feet (required/permitted) to 5.5 feet (requested, existing); and to
- C. decrease the minimum lot size from 5,750 square feet (required/permitted) to 5,500 square feet (requested, existing); and to
- D. decrease the maximum building cover from 40% (required/permitted) to 41% (requested, existing); and to

E. decrease the maximum impervious cover from 45% (required/permitted) to 52% (requested, existing); and to

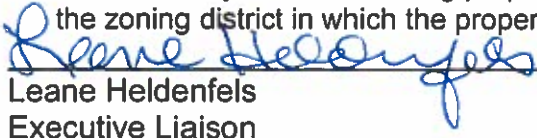

F. Section 25-2-774 (Two-Family Residential Use) (B) to decrease the minimum lot area for a two-family residential use from standard lot size of 5,750 square feet (required) to 5,540 square feet (requested, existing); and to

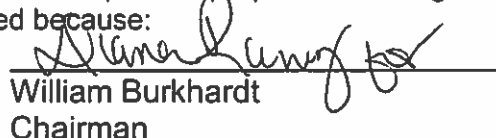

G. (C) (2) (a) to decrease the minimum distance a second dwelling unit must be located from the primary structure from 10 feet (required) to 6 feet (requested/existing) in order to permit occupancy of an existing accessory structure for use as a 2nd dwelling unit in a "SF-3", Family Residence zoning district.

BOARD'S DECISION: 3-3-17 Board Member Melissa Hawthorne motion to Postpone to April 10, 2017 (last postponement), Board Member Melissa Neslund second on a 10-1 vote (Board member Bryan King nay); **POSTPONED TO APRIL 10, 2017 (LAST POSTPONEMENT)**; April 10, 2017 The public hearing was closed on Board Member Bryan King motion to Deny, Board Member Don Leighton-Burwell second on an 11-0 vote; **DENIED.**

FINDING:

1. The Zoning regulations applicable to the property do not allow for a reasonable use because:
2. (a) The hardship for which the variance is requested is unique to the property in that:
 - (b) The hardship is not general to the area in which the property is located because:
3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

2003 Arpdale Street Reconsideration Request

MAY 2017

Letter to the Board

To the Board of Adjustment,

I respectfully request a reconsideration of your 4/10 decision on my case. I will be flying in for the hearing (if you decide to rehear it) during the final week of the spring semester of my MBA program. There are some key points and facts that were not clearly communicated to the board during the last meeting. The clarifications are:

- **Reason for reconsideration** – My case was denied under the assumption that I could achieve the variances in my application through a special exception. Unfortunately, this is not the case. A special exception will help with the side and rear set backs to use only as an accessory structure. It would not cover the variances related to the sub-standard lot size or distance between dwellings.
- **Strong neighborhood support** – Over 80% of my neighbors living within 300 ft of me signed a petition in support of me keeping my ADU.
- **Historical timelines** – Further detail regarding homeownership, homestead exemptions, renting, etc.

I have also worked diligently over the last week to coordinate contractors and conduct further research to provide the following new evidence:

- **Aerial photos** – Hired a drone to take new photos of house
- **New survey** – Hired surveyor to draft new survey for coverage calculations
- **Construction plan** – Plan calls for adding fireproof siding and bringing impervious and building coverage into compliance
- **Proof for when the garage was converted to an ADU** – 7 past residents have given testimonials providing further proof of conversion prior to 1990
- **Photo proof of driveway and ADU** – Photos prove driveway and ADU have been there for over 11 years

I'd like to reiterate that **over 80% of my neighbors living within 300 ft of me signed a petition in support of me keeping my ADU**. I would also like to note that my **new development plans bring me into compliance with coverage requirements** so I will be reducing my variances requested.

I appreciate your reconsideration of this case.

Sincerely,

Scott Jacobs

Revised Variance Summary

Decrease min side setback from 5ft to 4ft

Decrease min rear setback from 10ft to 6ft

Decrease min distance between dwellings from 10ft to 7.3ft

Decrease min lot size from 5750 sq ft to 5500 sq ft

Why is this variance request the only option?

A **special exception** would only grant me variances for the rear and side setbacks for use as an accessory structure.

I would still need the variances to use the structure as an accessory dwelling.

I am **3 years short** from meeting the **substandard lot requirements** of 25-2-943.

The grandfather clause pertains to properties deed divided prior to 1946. My lot was deed divided in 1949.

I am **4 years short** from meeting the requirements for an **amnesty certificate of occupancy** for the ADU.

The requirement is to prove occupancy in or before 1986. I can only prove occupancy since 1990.

Key points to remember

- Over 80% of my immediate neighbors are in support of the accessory dwelling variances
- Strong evidence proves occupancy of accessory dwelling since before 1990
- Owner has been fully cooperative in process and brought impervious coverage into compliance

Overview

New Material for Reconsideration.....5

- Requested aerial photograph
- New impervious coverage survey
- Development plan to resolve safety issues and meet impervious and building coverage
- New evidence of ADU conversion prior to 1990

Clarifications.....13

- Owner and rental history
- Support letter from Friends of Zilker Neighborhood Association
- Petition signed by over 80% of neighborhood in support of ADU

Appendix.....17

- Past resident testimonials

New Material for Reconsideration

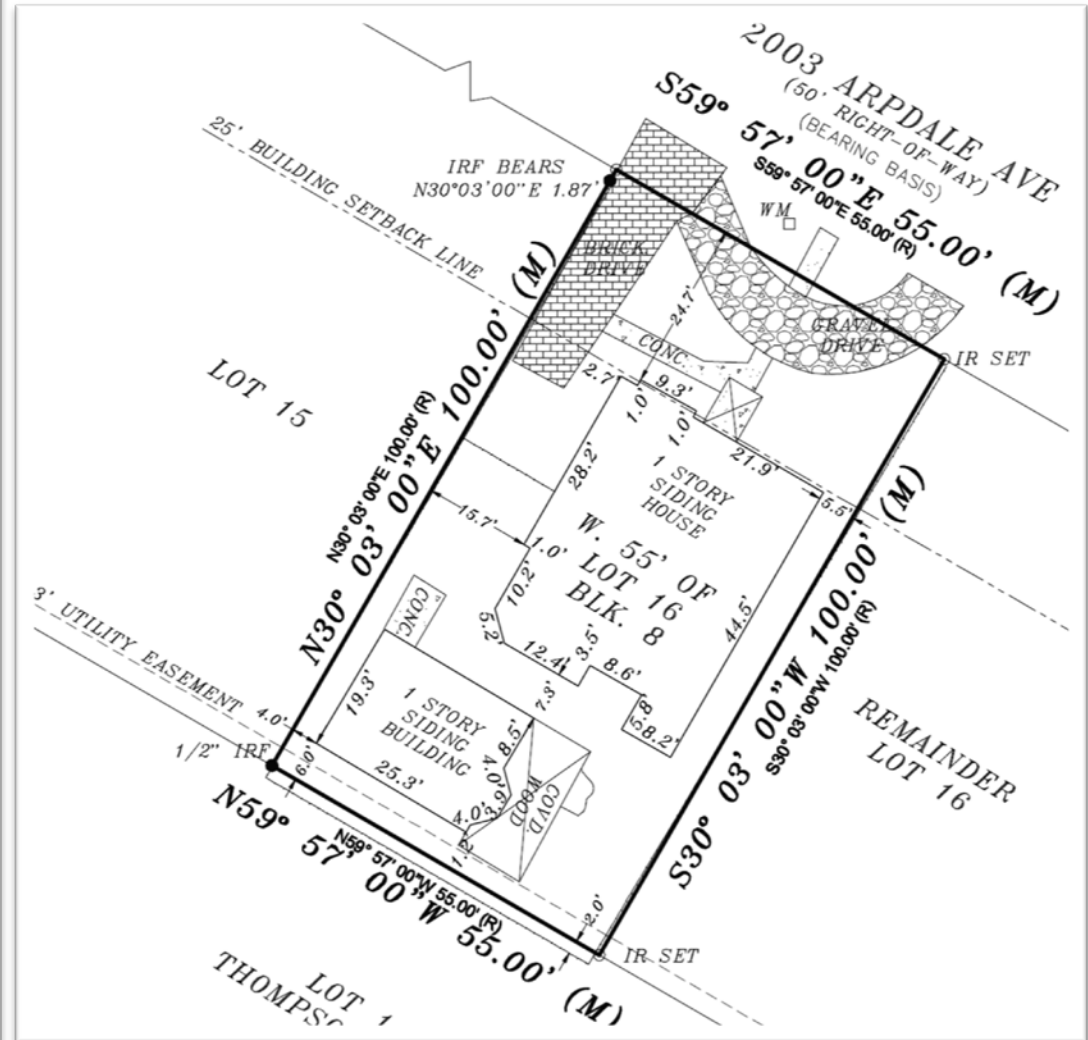

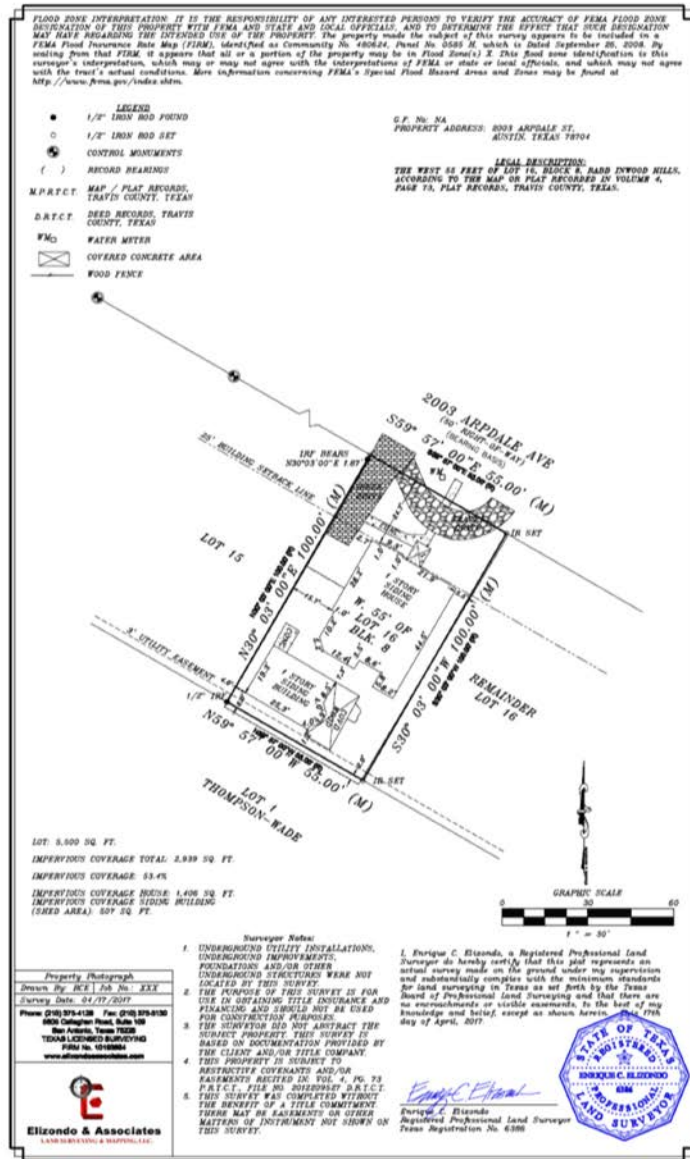

K01/8

Aerial photograph

New survey (drafted 4/17/17)

Evidence for conversion prior to 1990

Back-house Tenants	David Spears 1993-1998 "I lived in the back house. It had everything. A full kitchen and bath."	David Rodriguez 1998-2002 "I lived in the back garage apt. for 5 yrs...it had a bedroom, bathroom, kitchen, and living room ."	Greg Nisbet 2000-2002 "I lived back there for a short while. There had to be a kitchen and a bathroom"	Ryan Schuermann 2002-2007 "I lived back there until Gilbert had to sell the house. I added the deck though."
	Gilbert Carrasco 1990-2007 "There was someone living in the garage apartment when I purchased the house"			
Home- owners				
Front-house Tenants	Chris Dykes 1997-2003 "John and Gilbert rented the back unit out...I am almost positive that it had a bathroom and some type of kitchen or kitchenette."		Jana Moore 2002-2007 "I lived in the front master of 2003 Arpdale. From 2002 until Gilbert put it on the market. Ryan and Becky lived in the back house."	

The back structure has been occupied as an ADU since before 1990

Covered porch was built at least 11 years ago

Ryan Schuermann
Back-house tenant
2002-2007

"Yes, I lived back there for many years. My girlfriend at the time lived there with me too. No contracts though.

The garage apartment had a full kitchen and bathroom, I have plenty of photos as proof. I installed the tile in the living areas and built a front porch. I definitely moved out in Feb of 2007 as my last photos are from Jan 2007 and 2002 is probably accurate for move in."

Covered porch and ADU existed in 2006

Circular driveway built at least 11 years ago

Ryan's testimonial suggests that the driveway was there in 2002

Ryan Schuermann
Back-house Tenant
2002-2007

"I recall a non-paved circular driveway-ish that the owners did use that was there when I moved in, it is shown in the photos."

Photos and license plate evidence **prove** that circular driveway existed prior to April of 2007

Owners Occupation					
Consultant at Accenture Austin, TX 2012-2014 This job required 90% travel, but I hardly ever rented the place out.		Launched Charitable Organization, Charity Charge Austin, TX 2014-2015 Rented out to help with living expenses since I had no income.		MBA Candidate at Yale New Haven, CT 2015-Current Rented out back house to make sure house was kept up. Primarily Long-Term Renting	
Homestead					
I bought 2003 Arpdale St. as my first and only house in 2012, moved my belongings are in the back house, and have never moved out since. There has never been a permanent resident; however, I have people stay there as a means of house-sitting and occasionally for financial reasons (like when I was founding Charity Charge).					
Renting					
Long Term Renting + SXSW 2013-2014 Average length of stay: 30 days		Mix of Long Term / Short Term Renting 2014-2016 Average length of stay: 9 days		Long Term Renting 2016-Current Average length of stay: 66 days	
		STR Permit ⁽¹⁾ 2014-2016			

(1) – I had no intentions of renting short-term until the owner of 2005 Arpdale asked me to get the permit after renting during SXSW. Then, after obtaining the permit, the volume of short term rentals picked up, and the owner of 2005 Arpdale asked me to stop renting short term. I voluntarily let the permit expire to try to ease the tension with the owner of 2005 Arpdale St.

Homeowner has tried to be cooperative and compliant

Friends of Zilker NA supports the variance

March 4, 2016

From : Friends of Zilker Neighborhood Association
To : Board of Adjustment
Regarding : 2003 Arpdale St Austin TX 78704

To whom it may concern,

Friends of Zilker Neighborhood Association supports the following resolution that:

"Land use determinations shall be made based on City and neighborhood zoning and planning documents and private deed restrictions shall only be enforced through action in civil court."

(This is in response to punitive actions made against a property owner at 2003 Arpdale for an existing development that is perceived to be in conflict with private deed restrictions. This case is arbitrary given that multiple other similar conditions exist in the neighborhood and on the same street.)

Furthermore, our organization found at least a dozen other properties in the Rabb Inwood Subdivision that currently have (or previously had) ADUs / guest houses including :

- 2202 Paramount Ave
- 2112 Montclair St
- 2102 Montclair St
- 2006 Montclair St
- 2205 La Casa Dr
- 2110 La Casa Dr
- 2108 La Casa Dr
- 2104 La Casa Dr
- 2200 De Verne
- 2012 Arpdale St
- 2007 Arpdale St
- 2003 Arpdale St

Thank you,
Mary Owens, Secretary of Friends of Zilker

The neighborhood is in near full support of the ADU variances

Over 80% of the owners within 300ft support the variances for the ADU

The Zilker Neighborhood Association doesn't seem to be aligned with the neighborhood.

*Highlighted property owners signed petition in support of variances for ADU

The neighborhood is in near full support of the ADU variances

Appendix

Testimonials from past residents of 2003 Arpdale

I got in touch with past owners, backhouse residents, and front house residents using the White Pages.

They not only confirmed the use of the back structure as a dwelling, but they also confirmed that it had a bathroom and kitchen.

Testimonials further support claim that ADU was converted prior to 1990

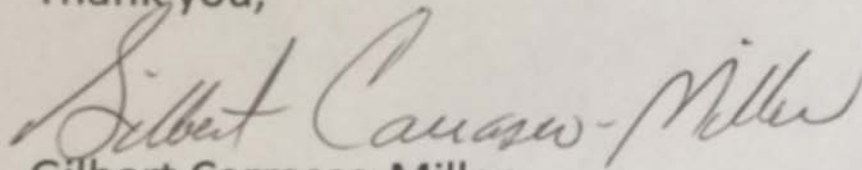

Testimonial from Gilbert Carrasco-Miller

Gilbert owned the house from 1990-2007.

Scott,

I bought the house at 2003 Arpdale as a foreclosure in 1990. The garage apartment had a functioning bath and small kitchen. I can't remember the name of the person who stayed at the garage apartment.

Thank you,

Gilbert Carrasco-Miller

Confirms ADU occupancy in 1990

Testimonial from David Spears

White pages suggests David lived at 2003 Arpdale from 1993 to 1998.

04-18-17

Howdy Scott,

I did indeed reside in the garage residence at 2003 Arpdale, in Austin, TX, during the early 90's.

The garage unit, which was an efficiency unit, had a small kitchen and a fully functional bathroom. My brother, his new wife, and their first child resided in the house next door on the western side.

The main house was occupied by the two owners, Gilbert and John.

At the time of my residence they also had a roommate named Donnie, who later died at an AIDS Hospice, newly opened in East Austin. While I helped as a volunteer, to construct the facility, I do not know the address.

Sincerely,

David W. Spears

Confirms ADU occupancy in 1993

Testimonial from Chris Dykes

White pages suggests Chris lived at 2003 Arpdale from 1997 to 2003.

Hi Scott,

I can tell you that when I lived there the owners, John and Gilbert, rented the back unit out. That is, a paying tenant actually lived there. I am almost positive that it had a bathroom and some type of kitchen or kitchenette. I hope that helps. Feel free to reply with any more questions.

Chris

Testimonial from Ryan Schuermann

To whom it may concern,

I attest that I resided in the back garage apartment located at 2003 Arpdale, Austin Texas 78704 from 2002 until February of 2007. Upon moving into said property, the garage apartment was furnished with a full kitchen, full bathroom, bedroom, and living space (see photos). There was a small wood deck attached to the front. In addition, there was a driveway extending from the curb to the garage apartment and a circular driveway located in the front of the property where I would park my two vehicles (see photos).

Below is a copy of an email receipt from an online purchase. In addition, date and timestamps are embedded in the photographs' metadata. I attest that I personally took all photos attached with my own digital equipment and only modified them for reduction in size purposes in Photoshop Elements.

Hi there Scott.

I lived in the front master of 2003 Arpdale. From 2002 until Gilbert put it on the market. Ryan and Becky lived in the back house. We had epic parties in that back yard. Lots of bands played on that stage and on the roof of the main house. Lots of memories of that fun house.

Cheers,

Jana Moore

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, **you are not required to attend**. However, if you do attend, you have the opportunity to speak **FOR** or **AGAINST** the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be given.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing; and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/devservices

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. **All comments received will become part of the public record of this case.**

OWNER/APPLICANT: Scott Jacobs

ADDRESS: 2003 ARPDAL ST

VARIANCE REQUESTED: The applicant has requested variance(s) to Section 25-2-492 (D) (Site Development Regulations) to:

A. decrease the minimum side setback from 5 feet (required/permitted) to 4.4 feet (requested, existing); and to

B. decrease the minimum rear setback from 10 feet (required/permitted) to 5.5 feet (requested, existing); and to

C. Section 25-2-774 (Two-Family Residential Use) (C) (2) (a) to decrease the minimum distance a second dwelling unit must be located from the primary structure from 10 feet (required) to 6 feet (requested/existing)

in order to permit occupancy of an existing accessory structure and covered deck for use as a 2nd dwelling unit in a "SF-3", Family Residence zoning district.

BOARD'S DECISION: POSTPONED TO FEBRUARY 13, 2017 BY APPLICANT (RE-NOTICE NEEDED); Feb. 13, 2017 Board Member Brooke Bailey motion to Postpone to March 13, 2107, Board Member Melissa Hawthorne second on a 9-0 vote; POSTPONED to March 13, 2017.

RENOTIFICATION: March 13, 2017 The applicant has requested variance(s) to:

A. Section 25-2-492 (D) (Site Development Regulations) to decrease the minimum east side setback from 5 feet (required/permitted) to 4.4 feet (requested, existing); and to

B. decrease the minimum rear setback from 10 feet (required/permitted) to 5.5 feet (requested, existing); and to

C. decrease the minimum lot size from 5,750 square feet (required/permitted) to 5,500 square feet (requested, existing); and to

D. decrease the maximum building cover from 40% (required/permitted) to 41% (requested, existing); and to

E. decrease the maximum impervious cover from 45% (required/permitted) to 52% (requested, existing); and to

F. Section 25-2-774 (Two-Family Residential Use) (B) to decrease the minimum lot area for a two-family residential use from standard lot size of 5,750 square feet (required) to 5,540 square feet (requested, existing); and to

G. (C) (2) (a) to decrease the minimum distance a second dwelling unit must be located from the primary structure from 10 feet (required) to 6 feet (requested/existing) in order to permit occupancy of an existing accessory structure for use as a 2nd dwelling unit in a "SF-3", Family Residence zoning district.

BOARD'S DECISION: The public hearing was closed on Board Member Melissa Hawthorne motion to Postpone to April 10, 2017 (last postponement), Board Member Melissa Neslund second on a 10-1 vote (Board member Bryan King nay); **POSTPONED TO APRIL 10, 2017 (LAST POSTPONEMENT).**

FINDING:

1. The Zoning regulations applicable to the property do not allow for a reasonable use because:
2. (a) The hardship for which the variance is requested is unique to the property in that:
 - (b) The hardship is not general to the area in which the property is located because:
3. The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

Attachments: BOA Variance Appocation - 2003 Arpdale - Updated 2.28.17 - Feb 28 2017 - 2-55 PM.pdf

Hi Leane,

Please see attached for the updated application. **NOTE: The lot size in the variance request (section E) needs to be updated from 5540 to 5500.** That's the only big change. My calculations on building and impervious coverage came out lower than your calculations, but it's probably better to stick with your numbers to play it safe. I suppose the worst case is that the board negotiates that number lower. Do I run the risk of the board rejecting the entire variance request or do they can vote on each sub-topic in my variance request?

Will you also please take note to request a postponement at the March meeting based on the following:

- Prior two postponements have been requested due to discrepancies in the City of Austin's data, not for personal reasons.
- This is the first postponement I have requested due to personal needs. I will be on a school trip with the Yale MBA Program in March.
- I already have a flight booked for the April meeting
- The owner let the STR permit expire at the outset of these permitting issues. The back house has not been used as a short term rental in over 2 years.

I'm going to try to get someone from Friends of Zilker to represent me if there is opposition for my postponement requested.

Thanks again for all your help. I'm looking forward to seeing you at the April meeting.

Best,
 Scott

Board of Adjustment General/Parking Variance Application

WARNING: Filing of this appeal stops all affected construction activity.

This application is a fillable PDF that can be completed electronically. To ensure your information is saved, [click here to Save](#) the form to your computer, then open your copy and continue.

The Tab key may be used to navigate to each field; Shift + Tab moves to the previous field. The Enter key activates links, emails, and buttons. Use the Up & Down Arrow keys to scroll through drop-down lists and check boxes, and hit Enter to make a selection.

The application must be complete and accurate prior to submittal. *If more space is required, please complete Section 6 as needed.* All information is required (if applicable).

For Office Use Only

Case # C15-2016-084 Row # _____ Tax # _____

Section 1: Applicant Statement

Street Address: 2003 Arpdale St

Subdivision Legal Description:

W 55FT OF LOT 16 BLK 8 RABB INWOOD HILLS

Lot(s): W 55FT OF LOT 16

Block(s): 8

Outlot: _____

Division: _____

Zoning District: SF-3

I/We Scott Jacobs on behalf of myself/ourselves as
authorized agent for Scott Jacobs affirm that on
Month February, Day 28, Year 2017, hereby apply for a hearing before the
Board of Adjustment for consideration to (select appropriate option below):

☐ Erect ☐ Attach ☐ Complete ☐ Remodel ☒ Maintain ☐ Other: _____

Type of Structure: Accessory Dwelling Unit

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

Section 25-2- 492 (D) to decrease the min east side setback from 5 ft to 4.4 ft; decrease the min rear setback from 10 feet to 5.5 ft; decrease the max building cover from 40% to 41%; decrease the max impervious cover from 45% to 52%; Section 25-2- 774 (B) decrease the min lot area of two-family residential use from 5750 to 5500 sq ft; (C)(2)(a) to decrease (see below)

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

The existing accessory structure was constructed in 1949 and remodeled at least once in the 1990's. The exact year is unknown. Permit history suggests work on the accessory structure began in 1990. When the property was purchased by the current owner in 2011, the owner was not informed that the accessory structure was not compliant with city code. There are no public records or any signs that suggest the secondary dwelling has been a problem for the neighborhood.

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

Not all lots in the area have a structure built in 1949 that was converted to a secondary dwelling unit in the 1990's. Poor construction record keeping and poor permit enforcement resulted in the new owner inheriting an unpermitted dwelling.
The construction required to eradicate the issue would cause unwarranted noise disturbance and traffic for the neighborhood.

b) The hardship is not general to the area in which the property is located because:

Lots in my area do not have a garage built in 1949 in the rear of their property that are of sufficient size to be converted into a secondary dwelling unit.

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The front residence, built in 1949, and rear residence have existed in their current configuration since the 1990's and, as such, have been in keeping with the character of the area adjacent to the property.

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

Section 3: Applicant Certificate

I affirm that my statements contained in the complete application are true and correct to the best of my knowledge and belief.

Board of Adjustment for consideration to (select appropriate option below):

☐ Erect ☐ Attach ☐ Complete ☐ Remodel ☒ Maintain ☐ Other: _____

Type of Structure: Accessory Dwelling Unit

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

Property Setback Requirement LDC 25-2-492

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

The existing accessory structure was constructed in 1949 and remodeled at least once in the 1990's. The exact year is unknown. Permit history suggests work on the accessory structure began in 1990 and ended in 1997. The accessory structure is the primary reason I purchased the property in 2011. I was not informed that the accessory structure was not compliant with city code. If the structure is forced to be compliant with setback requirements, it will need to be demolished completely.

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

I purchased the property with the intention of having a second dwelling unit in order to accomodate the housing needs of extended family. Demolition of the accessory dwelling unit would create fewer options for my family and unnecessary environmental hazards for my neighbors.

b) The hardship is not general to the area in which the property is located because:

It was reasonable to awssume the property I purchased was compliant with current city code. I have no intention to modify the structures on the property which have existed with the current footprint for approxiamtely 20 years. The set back issues were brought to my attention by a city of Austin code enforcement officer and since that time I have been working to seek a resolution that will create the least disruption for my neighbors and my self.

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

The front residence, built in 1949, and rear residence have existed in their current configuration since the 1990's and, such as, have been in keeping with the character of the area adjacent to the property.

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

This is an existing structure and has been used as an accessory dwelling for well over 10 years. No additional traffic or parking changes will occur.

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

This is an existing structure and has been used as an accessory dwelling for well over 10 years. No additional traffic or parking changes will occur.

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

This is an existing structure and has been used as an accessory dwelling for well over 10 years. No additional traffic or parking changes will occur.

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

This is an existing structure and has been used as an accessory dwelling for well over 10 years. No additional traffic or parking changes will occur.

Section 3: Applicant Certificate

July 20th, 2016

Members of the Board,

I, Scott Jacobs, purchased 2003 Arpdale St. in 2011. I was not informed at the time of purchase that my accessory dwelling unit was not compliant with city of Austin building code.

According to the city of Austin aerial photographs, permit history of my property, and Travis County records, it appears that the second dwelling unit was originally constructed in 1949 most likely as a detached garage. This detached garage was converted to a dwelling unit sometime in the 1990's. In 2007, a new roof on the front house was permitted with the city of Austin. There are no expired permits connected to 2003 Arpdale St.

I am requesting 3 minor variances which are detailed in the evidence packet in order to maintain the existing footprint of the accessory dwelling structure which has been in the same place for 57 years.

I originally purchased 2003 Arpdale St. with the intention of having a housing option for my grandmother. She is living independently at age 92 but will soon need to downsize from the large house in which she currently resides. The accessory dwelling unit is intended for her, but I currently use it as my homestead for the time being since the main house is leased as a long term rental.

I respectfully ask the board to allow the accessory dwelling unit to remain in place.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott Jacobs", written in a cursive style.

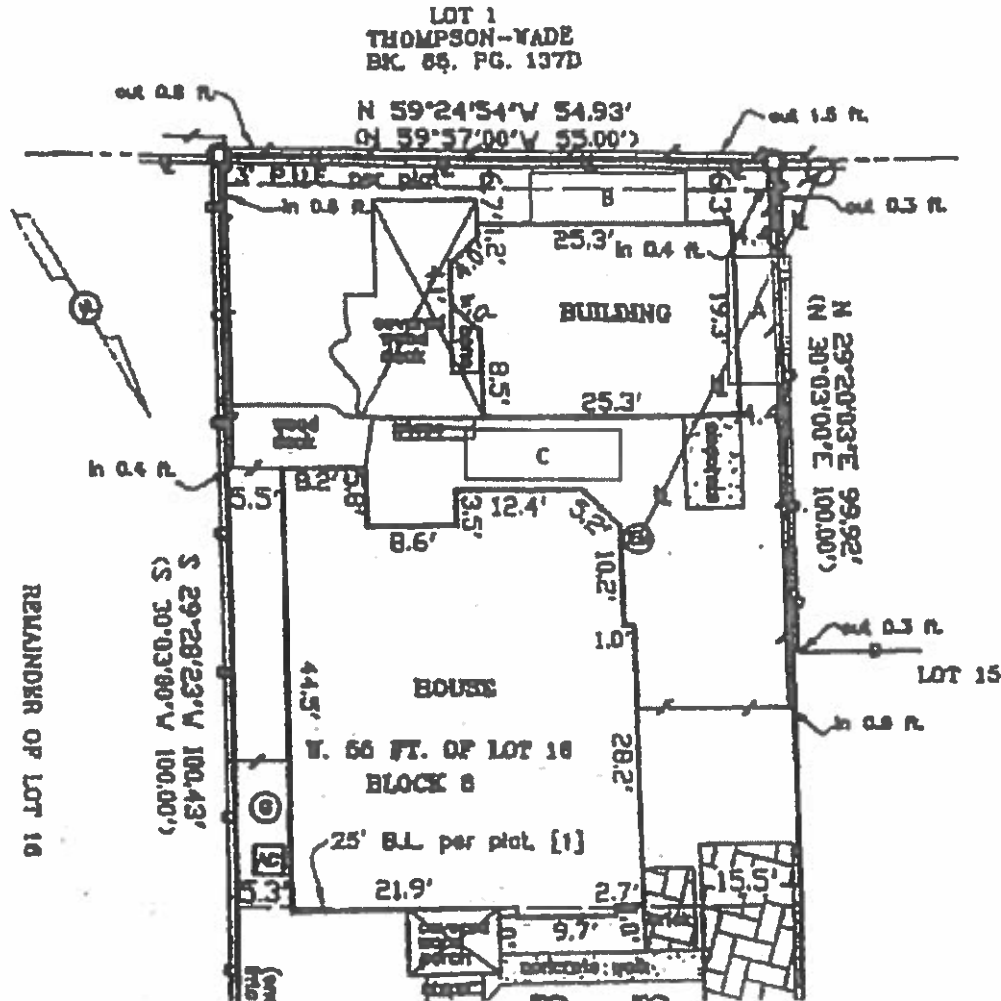

Scott Jacobs

History of 2003 Arpdale Unit B

- Structure was built in 1949
- Previous owner converted the garage to an ADU in the 90's
- Property was purchased in 2011
- Unaware the ADU was not compliant with Austin Code
- Intended use was to be my homestead and eventually serve as a residence for my aging grandmother
- Currently used as my homestead

Over 80% of the owners within 300ft are in support the variance request

I, Scott Jacobs, am applying for a variance from the Board of Adjustment regarding Section 25-2-492 of the Land Development Code. The variance would allow me the ability to keep my backhouse which is currently in violation of set back requirements. The structure was built in 1949, but I inherited this problem when I bought the property in 2012.
By signing this form, I understand that I am declaring my support for the variance being requested.

Occupants

I, Scott Jacobs, am applying for a variance from the Board of Adjustment regarding Section 25-2-492 of the Land Development Code. The variance would allow me the ability to keep my backhouse which is in violation of a far set back requirements. The structure was built without a permit in 1949 and I inherited this problem when I purchased the house in 2012.
By signing this form, I understand that I am declaring my support for the variance being requested.

Property Owner Name	Address	Signature

Board of Adjustment
City of Austin Watershed Protection and
Development Review Dept.

Re: Variance request C15-2016-0084, 2003 Arpdale

Dear Chairman and Board Members:

On August 1, 2016, the executive committee of the Zilker Neighborhood Association voted to oppose the variances requested by Scott Jacobs at 2003 Arpdale, C15-2016-0084, because the application contains errors in the lot size and impervious cover calculations. When these errors are corrected, other variances will be required to satisfy the applicant's desire to create a secondary dwelling on his substandard lot. Also, the executive committee is opposed to the variances because the application meets none of the required findings regarding reasonable use, hardship, and area character.

Thank you for your service on the Board of Adjustment.

Sincerely yours,

David King,
President, ZNA

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, **you are not required to attend**. However, if you do attend, you have the opportunity to speak **FOR** or **AGAINST** the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing; and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/devservices

Written comments must be submitted to the contact person listed on the notice before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice. All comments received will become part of the public record of this case.

Subject: BoA Agenda M-1, C15-2016-0084, 2003 Arpdale
Attachments: 2003ArpdaleBoA letter.pdf

Hello, Leane.

This is regarding the variance requested at 2003 Arpdale, C15-2016-0084, item M-1 on the Board of Adjustment agenda for August 8. The attached PDF contains my personal letter of opposition to the variances, a history of the property, and a copy of an aerial photo, for a total of 5 pages. Please let me know if I will have to provide copies for the Board members.

I would be very grateful if you would include these pages in the Board's backup material and in the file for this case.

Many thanks,

Lorraine Atherton

Re: Variance requests C15-2016-0084. 2003 Arpdale

Dear Chairman and Board Members:

As a homeowner on Arpdale Street, I am opposed to the variances requested by Scott Jacobs at 2003 Arpdale, C15-2016-0084, to allow an outbuilding remodeled without permits to be occupied as an accessory dwelling unit.

Dimensions of the property and variances required

Based on the photographs, survey, and site plan submitted by the owner, this lot is 5514 square feet and the impervious cover is more than 60%. City Code 25-2-492 (Site development regulations) requires a minimum lot size of 5750 sf and limits this site to 45% impervious cover.

I alerted the owner and City staff to these errors on August 1 and suggested that the variance application be withdrawn, corrected to reflect the actual lot size and other dimensions, and reposted with all the variances that will be required. If the application is not withdrawn by August 8, I request that the Board of Adjustment deny the requested variances because of the substandard lot size.

Deed restrictions and single-family status

I have owned and occupied the property at 2009 Arpdale since 1983. The same deed restrictions that apply to my property apply to 2003 Arpdale. In 1939, those restrictions prohibited the use of any outbuildings as residences, and they are still in effect. I have not found any other properties in this subdivision in violation of that deed restriction. According to the documentation listed in the attached history of the property, the Travis Central Appraisal District and the City of Austin have no record of the existence of a garage or other outbuilding at 2003 Arpdale, and the property has never been classified as anything other than a single-family residence.

Construction and use of the structure

The attached aerial photo from 1966 shows a small outbuilding in the back corner of the lot. Aerial photos from 1984 and 1987 show the same structure. No aerial photos or surveys are available between 1987 and 1997. The earliest evidence of an addition to the small outbuilding is the 1997 aerial photo supplied by Mr. Jacobs. Regardless of when the addition was built, it is clear to me that it was not used as a separate dwelling before the property was sold in 2007, less than 10 years ago. The owners shared the house with two other persons, they were all listed on the same mailbox at the front door, and some of them appeared to be related.

My recollection of the remodeling of 2003 Arpdale is that the house was "re-roofed" three times in the three or four years following the sale. A great deal of work was done under CoA building permit 07-141411, dated August 6, 2007. Several color aerial photos are available

from this period, beginning in 2006. They show a series of changes to the outbuilding, including the eastward extension of the roof over the deck.

Finally, TCAD recorded the sale to Jacobs in December 2012, and the CoA issued a permit for "window replacement" in January 2013. Again, from the street, it looked to me like the window replacement required a great deal of work on other parts of the property. When it was eventually completed, I was no longer able to tell who was living in the house, or if anyone was living there. It soon became clear that at least part of the property was being used as a commercial short-term rental. The attached history also lists the code enforcement cases from May 27, 2014, to March 22, 2016.

To summarize, I request that the Board deny the variances requested by Scott Jacobs at 2003 Arpdale, C15-2016-0084, first because the application contains errors that when corrected will require additional variances to satisfy the applicant's desire to create a second dwelling on his substandard lot; second, because the deed restrictions prohibit the use desired by the applicant; third, because the applicant has not established that the desired use existed before he purchased the property less than five years ago; and finally, because the application meets none of the required findings regarding reasonable use, hardship, and area character.

Thank you for your attention and for your service on the Board of Adjustment.

Sincerely yours,

Lorraine Atherton

PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak **FOR** or **AGAINST** the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
- appearing and speaking for the record at the public hearing; and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.austintexas.gov/devservices

Leane,

Attached I submit my **objection** to the land development code variance for the above mentioned case and address. It is unacceptable to bend the law for Scott Jacobs. He has no regards for his neighbors and just this past weekend his short term rental brought more people honking horns and partying loudly in the middle of the night. Unfortunately his neighbors bedroom window is very close. I don't know how they get any sleep.

Please respond to confirm receipt of the attachment.

Enjoy your day!

Comments: I bought my house in 2007 w/ the expectation that there are no serious zoning advances and that they would be minimal. I did not expect the neighbor to move out and turn his residence into an unlicensed short-term rental w/ many complaints & violations or so. As the neighbor unprofessionally, not effected / appose all variance especially related to how close the drive has come to my house. I am more concerned by the zoning matters & effects of unlicensed conversions. Comments must be returned by noon the day of the hearing in order for the Board to see them at this hearing. They may be sent via: than any other that ostensibly would be caused

LETTER TO THE BOARD

3/27/17

Dear Members of the Board:

When I, Scott Jacobs, purchased 2003 Arpdale St in 2012, I was not informed that my accessory dwelling unit was not compliant with City of Austin building code. However, in March of 2016, during a sewer line inspection, a code enforcement officer noticed the unpermitted accessory dwelling unit. I immediately made it my priority to bring the house up to code and submitted a permit application a few months later.

According to the City of Austin aerial photographs, phone records, permit history, and Travis County records, it appears that the accessory dwelling unit was originally constructed in 1949 as a detached garage. This detached garage was converted to an accessory dwelling unit sometime in the early 1990's.

I haven't made any material change to the property since 2012 when I purchased the home. I am requesting a few variances in order to maintain the existing property characteristics which have been in the same place for 57 years.

2003 Arpdale St has been my homestead since I purchased the house in 2012. I'm currently attending graduate school at Yale to obtain my Masters in Business Administration. The BOA process has been quite challenging as this is my first time being a homeowner and going through this process, so I appreciate the patience granted to me thus far with the variance postponements or any mistakes made within the applications.

I want you to know that I'm determined to bring my house up to code and have every intention to work out a solution with the Board of Adjustment and the City of Austin. I've spent countless numbers of hours meeting with city officials and researching on my own.

While I'm attending graduate school in Connecticut, I will continue renting out my house on a long-term basis so that I can have someone maintaining the house. I let my STR license expire since my neighbors expressed concerns with short term rentals in the area.

You'll notice that nearly all of my neighbors are in support of the variance request. There have also been no issues recorded with the accessory dwelling unit for over 20 years, so I respectfully ask the board to allow the accessory dwelling unit to remain in place and for the property to remain as is.

Regards,

Scott Jacobs

4/10/2017

BOA Variance Request Evidence

FRIENDS OF ZILKER SUPPORT THE VARIANCE REQUEST

March 4, 2016

From : Friends of Zilker Neighborhood Association
 To : Board of Adjustment
 Regarding : 2003 Arpdale St Austin TX 78704

To whom it may concern,

Friends of Zilker Neighborhood Association supports the following resolution that:

"Land use determinations shall be made based on City and neighborhood zoning and planning documents and private deed restrictions shall only be enforced through action in civil court."

(This is in response to punitive actions made against a property owner at 2003 Arpdale for an existing development that is perceived to be in conflict with private deed restrictions. This case is arbitrary given that multiple other similar conditions exist in the neighborhood and on the same street.)

Furthermore, our organization found at least a dozen other properties in the Rabb Inwood Subdivision that currently have (or previously had) ADUs / guest houses including :

- 2202 Paramount Ave
- 2112 Montclair St
- 2102 Montclair St
- 2006 Montclair St
- 2205 La Casa Dr
- 2110 La Casa Dr
- 2108 La Casa Dr
- 2104 La Casa Dr
- 2200 De Verne
- 2012 Arpdale St
- 2007 Arpdale St
- 2003 Arpdale St

Thank you,
 Mary Owens, Secretary of Friends of Zilker

PERMIT / VARIANCE REQUEST HISTORY

3/14/16 – Owner discovers permit violation

- During an inspection of a sewer line project at the residence, the City of Austin Code Department discovered the unpermitted ADU.
- Upon hearing the news, the owner of the residence was quick to take action to acquire a permit and legalize the ADU.

6/13/16 – Owner submits permit application

- Owner submitted the permit application, but was informed that a variance would be needed.

8/5/16 – Owner lets STR Permit expire

- Owner let the STR permit expire and no longer uses the ADU as a short term rental. The owner has every intention to return to Austin to live in the ADU, but for now is renting the ADU as a long-term rental to supplement the cost of his education while he completes his MBA at Yale.

8/18/16 – City of Austin's error requires postponement

- Owner was ready to appear in front of the board, but realized that TCAD's lot size of 5750 was inconsistent with the size on the site plan (5500). An additional variance would be needed due to the substandard lot size. The case was postponed to 2/13/17.

Note: the postponement was a result of the city's error

2/08/17 - City of Austin's error requires postponement

- Owner was informed that the city forgot to add the additional variance to the "notice" sent to the neighbors. Therefore, a re-notice would be needed in order to carry forward with the hearing. As a result, during the 2/13/17 meeting, the case was postponed to the month of March.

Note: the postponement was a result of the city's error

3/13/17 – Owner requests postponement

- Owner was unable to attend the hearing due to a pre-existing academic trip with his MBA program.

HISTORY OF 2003 ARPDAL ST.

1939 – Deed for Rabb Inwood Hills was created

1949 – Lot 16, Block 8 was subdivided

– 2003 Arpdale was built with detached garage

1990's – Garage was converted to ADU

- Aerial views in GIS (which only go back to 1997) show the converted ADU which suggests that it was converted prior to 1997
- There are two separate phone records with different names registered in 1994 which suggests the ADU was converted prior to 1994
- Several permits were taken out for 2003 Arpdale in 1990 which suggests that contractors were permitted to work on site suggesting that the conversion happened in 1990

2012 – Property was purchased by current owner

- Owner was unaware that the ADU was not legally permitted
- Owner moved into the ADU and added an "A" and "B" address to the property
- Front house is rented on a long-term basis

2017 – Property remains as owner's homestead

- Owner rents out both units on a long-term basis while he is attending graduate school at Yale
- Owner has every intention of moving back into the ADU

VARIANCE REQUEST FOR EXISTING RESIDENCE

Variance request to Section 25-2-492 (D)

- (A) Decrease the minimum side setback from 5ft to 4.4ft
- (B) Decrease the minimum rear setback from 10ft to 5.5ft

Variance request to Section 25-2-774 (C) (2) (a)

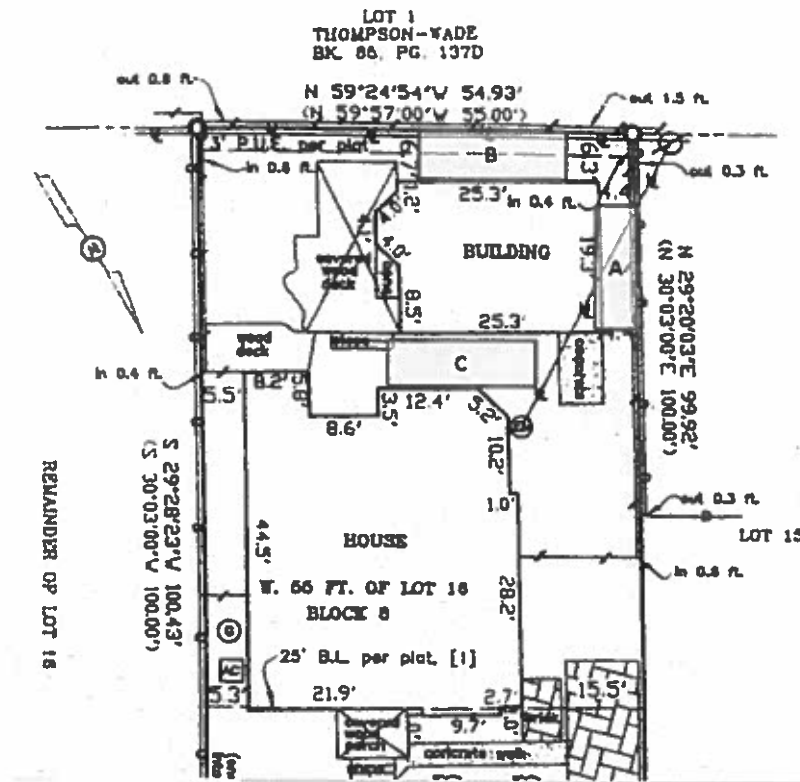

- (C) Decrease the minimum distance a second dwelling unit must be located from the primary structure from 10ft to 6ft

Variance request to Section 25-2- 774 (Two-Family Use) (B)

- Decrease the minimum lot area for a two-family residential use from standard single family lot size of 5,750 square feet to 5,500 square feet

Other Variance requests

- Increase the maximum building cover from 40% to 41%
- Increase the maximum impervious cover from 45% to 52%

SUPPORTING EVIDENCE FOR THE VARIANCE REQUEST

Friends of Zilker Neighborhood Association supports the request

Neighborhood is in support

- Over 80% of the owners within 300ft are in support the variance request
- Verified by signatures

This is to maintain an existing structure (no new construction)

- The site of 2003 Arpdale has been in its current state for over 20 years
- Several other houses in the Rabb Inwood subdivision have ADU's

No history of issues

- No complaints against the house or ADU have been recorded for over 57 years
- Verified by open record request

Deed restrictions are irrelevant to City Code

- Not all deed restrictions for Rabb Inwood Hills are being enforced

Affordable housing at-risk

- Removal of ADU will decrease the "affordable housing" stock

Neighborhood will be upset if variance is rejected

- Rejection of variance will cause unwarranted construction noise, pollution, and traffic on Arpdale St. The neighbors will be upset with the city for causing this disturbance
- "Don't try to fix what isn't broken"

STR LICENSE

Although the owner is no longer renting the ADU as a short-term rental, this operating license is to prove that the owner rented legally as a short-term rental and paid the associated taxes.

PHONE RECORDS SUGGEST THAT THE ADU WAS CONVERTED PRIOR TO 1994

OVER 80% OF THE OWNERS WITHIN 300FT ARE IN SUPPORT OF THE VARIANCE REQUEST

Neighbors felt like this variance is a non-issue since this request involves an existing structure which shouldn't be subject to regulations intended to limit the amount of new construction and conversions in the area.

sell, transfer, assign and convey, unto the said Robert Baurle that certain Mechanic's lien and note executed by J. Thad Lowe and wife, Barbara Ann Lowe, dated the 15th day of June, A.D. 1939, for the sum of Three thousand five hundred dollars (\$3,500.00), payable to L. A. Barditt, or order, at Austin, Texas, which Mechanic's lien and note were on and date by him, the said L. A. Barditt, transferred and assigned to the said R. E. Rawls Lumber Co., Inc., who is now the legal owner and holder of the same.

Said Mechanic's Lien and note having been given by said J. Thad Lowe and wife, Barbara Ann Lowe, to said L. A. Barditt as payment for the location of improvements on that certain tract or parcel of land, situated in the County of Travis, State of Texas, fully described in the said Mechanic's lien herein transferred, recorded in Volume 286, at pages 224 to 237 of the Mechanic's Lien Records of Travis County, Texas, which records are hereby referred to and made a part hereof for all pertinent purposes in the premises.

To have and to hold the above mentioned Mechanic's lien and note, together with all and singular the contract lien, rights, equities and interest in said land, which said R. E. Rawls Lumber Co., Inc. has by virtue of being the assignee and payee of said Mechanic's Lien and note, unto the said Robert Baurle, his heirs and assigns, this conveyance is made, however, without recourse on the said R. E. Rawls Lumber Co., Inc., except as follows, to-wit, that said R. E. Rawls Lumber Co., Inc. does hereby warrant and bind itself that said Mechanic's lien and note are and constitute the first lien on the said land and premises above described, and that all payments, offsets and credits have been allowed.

In witness whereof the said R. E. Rawls Lumber Co., Inc. has caused these presents to be executed by its President, R. E. Rawls, therefor first duly empowered and authorized, this, the 15 day of July, A.D. 1939.

+ R. E. Rawls Lumber Co., Inc.

By R. E. Rawls
Its President.

THE STATE OF TEXAS #

COUNTY OF TRAVIS # BEFORE ME, the undersigned authority in and for said County and State, on this day personally appeared R. E. that all improvements shall be used for residential purposes only; no buildings shall be constructed on said premises other than one detached single family dwelling, constructed of frame, brick or masonry; the floor space to occupy not less than eight hundred square feet shall not exceed two stories in height, with one, two or three car garage. Dwellings shall not be constructed less than twenty-five feet from front property line. No residential lot shall be subdivided into building plots having less than 5000 square feet of area or a width of less than 50 feet each, nor shall any building be erected on any plot having an area of less than 5000 square feet or a frontage of less than 20 feet. Note exception: a two family dwelling will be permitted of same construction above mentioned; the floor space to occupy not less than 1400 square feet.

2. No part of the premises hereby conveyed shall ever be owned by, held or rented to any person of African descent; provided, however, that this clause shall not prevent the employment of such persons as domestic servants and providing customary accommodations for them on said premises.

or placed on said premises herein conveyed as a temporary or permanent residence.

The grantee in this conveyance accepts same subject to the foregoing restrictions and conditions, which is agreed shall be deemed to be covenants running with the land, and the grantee for himself, his heirs and assigns covenant to and with grantor his heirs and assigns that he will faithfully observe the foregoing restrictions, whether or not they are repeated in subsequent conveyances of the above described property.

If the grantee or any person claiming under him, shall at any time violate or attempt to violate or shall omit to perform or observe any of the foregoing restrictions, then it shall be lawful for any person owning land in the residential portion of Rabb Inwood Hills Addition to institute and prosecute appropriate proceedings at law or in equity against the grantee, his heirs or assigns to enforce the provisions herein; and a failure to bring such proceedings for a violation of the provisions herein shall not be deemed or taken as a waiver of any subsequent violation.

I, De Rance C. Rabb, owner of Rabb Inwood Hills as per Plat duly recorded and as above set forth, designate that all Residential Lots above mentioned will be sold subject to Restrictive Covenants as set forth.

De Rance C. Rabb.

STATE OF TEXAS,)

COUNTY OF TRAVIS,)

BEFORE ME, the undersigned authority, a Notary Public in and for said County and State, on this day personally appeared De Rance C. Rabb, known to me to be the person whose name is subscribed to the foregoing instrument and acknowledged to me that he executed the same for the purposes and considerations therein expressed.

Given under my hand and seal of office, this 15th day of July, 1939.

Frances McWilliams,

(Notary Seal).

Notary Public, Travis County, Texas.

LAND STATUS DETERMINATION – 1987 RULE PLATTING EXCEPTION

City of Austin
Watershed Protections & Development Review

LAND STATUS DETERMINATION
1987 RULE PLATTING EXCEPTION

01/12/2007

File Number: C8I-07-0014

Address: 2003 ARPDAL ST

Tax Parcel ID: 0401090909

Map Date: 12/10/2003

The Watershed Protections & Development Review has determined that this parcel, as described in the attached description and map, **IS EXCEPTED FROM THE REQUIREMENT TO PLAT** in accordance with the Land Development Code, Section 25-4-2(C), and is eligible to receive utility service.

The parcel of land consists of five acres or less, and is described as being the West 55 feet of Lot 16, Block 16, Rabb Inwood Hills Subdivision in the current deed, recorded on 03/15/2004, in Document #2004047737, County Deed Records. This parcel existed in its current configuration on January 1, 1995, as evidenced by a deed recorded on 05/01/1990, in Volume 11177, Page 201, County Deed Records. The parcel was lawfully receiving utility service, as defined in Section 212.012 of the Texas Local Government Code, on January 1, 1995, as evidenced by service on . The parcel meets the requirements of the Land Development Code for roadway frontage and is located on an existing street.

Additional Notes/Conditions:
NONE

This determination of the status of the property is based on the application of Chapter 212, Municipal Regulation of Subdivisions and Property Development, Texas Local Government Code; and the City of Austin Land Development Code, Chapter 25-4, Subdivision. Recognition hereby does not imply approval of any other portion of the City Code or any other regulation.

SIGNATURES IN SUPPORT OF VARIANCE REQUEST

Answers

I, Scott Jacobs, am applying for a variance from the Board of Adjustment regarding Section 25-2-492 of the Land Development Code. The variance would allow me the ability to keep my backhouse which is currently in violation of set back requirements. The structure was built in 1949, but I inherited this problem when I bought the property in 2012.

By signing this form, I understand that I am declaring my support for the variance being requested.

Re: 1301 Koenig Lane, comprising approximately 5.416 acres (the “Property”) – Board of Adjustment General Variance Application (Case C15-2017-0018, the “Variance Application”)

Dear Ms. Heldenfels:

On behalf of the applicant, owner of the Property in the above-referenced matter, we submitted the Variance Application.

The Property is located on the south side of West Koenig Lane, between Woodrow Avenue and Grover Avenue, and was previously occupied by an automotive sales and repair use. Property zoned SF-3 adjacent to the subject tract -- McCallum High School to the east, and SF-lots to the west – trigger Article 10 (Compatibility Standards) of Subchapter A, Chapter 25-2, of the Austin Land Development Code with respect to the subject tract. (See Exhibits 6-8 of the Variance Application).

The Property is currently zoned CS-MU-CO-NP, and a conditional overlay to the Brentwood Neighborhood Plan approved May 2004 limits height of the Property to 40 feet and 3 stories. The applicant filed a zoning application Case C14-2016-0071 to rezone the 5.04 Tract 1 MF-6 for proposed apartments, and contemplated Tract 2 (0.37 acres) as proposed retail use per existing zoning. The zoning application also requested modifying the existing CO to authorize a maximum of 4 stories on the Property (the zoning application otherwise did not propose to modify the 40’ maximum height limitation per the existing CO). The Planning Commission unanimously approved the rezoning request, with conditions, on December 14, 2016, and it is scheduled for first reading by the City Council on 4-20-17.

In early 2017, City floodplain staff informed the Property project team of staff’s interpretation of City Code provisions that required raising the proposed apartment buildings slightly higher than initially contemplated. This recent floodplain staff interpretation necessitates a slight increase of the proposed maximum height for the proposed apartment buildings from 40’ as initially contemplated, to a maximum 45’. This height increase required by City floodplain staff’s interpretation requires (1) the requested variances, as described in more detail in the Variance Application, and (2) modifying the rezoning case to authorize a maximum height of 45’. The project team continues discussions with the Brentwood Neighborhood Association regarding the variances requested in the Variance Application, and we are optimistic based on discussions to date that BNA will support these requests.

We look forward to providing additional detail to Board of Adjustment Commissioners at their April 10, 2017, meeting.

Regards, David

March 9, 2017

Board of Adjustment
City of Austin
Development Review Dept.
Re: Variance requests C15-2016-0084, 2003 Arpdale

Dear Chairman and Board Members:

This is a follow-up to my letter of August 5, 2016, opposing the variances requested by Scott Jacobs at 2003 Arpdale, C15-2016-0084, to allow a garage remodeled without permits to be occupied as a second dwelling unit. I am presenting additional information regarding the lot size, impervious cover, and code inspections/building permits, all of which show that the City rejected a previous owner's attempt to convert this structure to a second dwelling unit less than 10 years ago, and Mr. Jacobs should have been aware of the status of the property when he purchased it in 2012. On March 2, I submitted 21 pages of City code inspection reports acquired through a public information request; those reports should be included in your late backup files. An AutoCAD diagram of the site plan, a table of area calculations, and photographs are being submitted separately.

A and B, requests to reduce the side and rear setbacks.

The first request should read "west side setback" (not east). Mr. Jacobs has not yet submitted a sealed survey of the property, but the site plan design he submitted with this application appears to be based on a survey from 2007. It shows the west wall to be 4.4 feet from the property line and the rear wall to be 6.3 feet (not 5.5 feet) from the rear property line. The survey does not show the concrete skirt along the rear and west foundation, so it is not clear whether the variance request is measured from the wall or from the edge of the concrete.

If the 2007 survey is correct, it is safe to say that the west wall has existed 4.4 feet from the property line for more than 10 years, and that the rear wall has existed 6.3 feet from the back property line for more than 10 years. If the applicant wishes to maintain the existing garage structure, those two setback measurements will most likely qualify for a special exception, but the measurements to the edge of the concrete would not. The special exception, however, would not allow the change of use to a second dwelling unit. In this case, the applicant has chosen to remodel the entire structure for a new use, a project that normally would not be allowed to encroach on the setbacks. The City's Development Review Department has correctly rejected his argument that "second dwelling" is an existing use, so all of the variance requests, including the side and rear setbacks, must meet the findings for reasonable use, hardship, and area character.

Findings:

- (1) The applicant has not shown that the zoning regulations do not allow for reasonable use. The zoning regulations allow him to maintain his existing structures, but he has chosen instead to seek additional privileges not available to his neighbors. Under "**Deed transactions, building permits, and single-family designation**" on the next page, I address his

contentions regarding the permit history and the lack of “public records or any signs that suggest the secondary dwelling has been a problem for the neighborhood.”

- (2) He has not demonstrated any hardship that is not self-inflicted.
- (3) His statement regarding Area Character does not address the central issue of the change of use, and it contradicts Building Permit #141411 from 2007. The building permit is evidence that the City rejected the previous owner’s attempt to create a second dwelling on the property less than 10 years ago.

Deed transactions, building permits, and single-family designation

Since the first postponement of this case last August, I have reviewed the results of a public information request for City code inspection reports and a search of Travis County real estate records available to the public online. This research shows that in 2007 a new owner attempted, without permits, to convert the structure in question to a dwelling unit that could be rented separately from the main house. A “work without permit” complaint was investigated and resolved within about a week when the contractor submitted a permit application to reroof the existing single-family residence. The addition to the garage and conversion to a second dwelling were not included in the permit.

The property was sold to Mr. Jacobs in December 2012. The general warranty deed with vendor’s lien can be viewed online. It includes a paragraph stating that the seller cannot represent that the square footage calculations are correct. It looks like the seller tried to warn Mr. Jacobs that there was a problem with this lot.

Almost immediately after Mr. Jacobs closed on the property, neighbors started to complain about short-term rentals there. The first complaint recorded in the PIR materials is dated March 25, 2013. Three years later, after several changes in the Code Department’s handling of STR inspections, a code inspector noted in response to a complaint on February 18, 2016, that there was no record of a Certificate of Occupancy for the structure’s use, that a valid license was not displayed as required for short-term rentals, and that it did not appear to meet the requirements for a Type 1 (owner occupied) short-term rental. A notice of other violations was posted March 25, 2016, after an inspector discovered that a new sewer line was being run through the front yard without a permit. (In that report, the inspector identified the TCAD reference to a first-floor addition in 2007 as the rear structure, but it is more likely to be an acknowledgement of an addition to the rear of the main house, probably made in the 1980s. See the AutoCAD calculations.)

Three months after the sewer permit violation, Mr. Jacobs applied for a building permit to convert the garage to a dwelling unit, which then precipitated the current request for seven variances. Here is a summary of the permit and deed activity for 2003 Arpdale since 2007:

Gino Fuentes applied for a land status determination **Jan. 12, 2007**.

The Carrasco-Millers sold to Gino Fuentes **Feb. 13, 2007**.

Gino Fuentes closed on a mortgage **March 8, 2007**, that included a 1-4 family rider (the previous mortgages required owner occupancy).

Gino Fuentes sold to St. John’s Properties LLC (B. Carter Fisk of LA, Calif.) **July 3, 2007**; warranty deed included a bold-face “as is” condition clause.

“Work without a permit” complaint CC-2007-139812 was recorded **July 30, 2007**, and inspector found violations **Aug. 3, 2007**, “building a roof over frame and also interior and added on to garage for accessory dwelling.”

Contractor Jeremy Wren submitted building permit application (2007-141411 BP) **Aug. 6, 2007**, issued same day; permit was to “Reroof exst 1 story sf res, replace/modify framing, rafter to complete gable roof.” Proposed use is shown as one-story single-family residence, current zoning SF-3; the building permit info does not mention a garage addition or an accessory dwelling. (In 2007, converting a garage to a second dwelling on a lot less than 7000 sf would have required a variance and triggered the current variance requests.)

Code inspector Matthew Noriega closed the code complaint **Sept. 7, 2007**, “due to voluntary compliance” after verifying that permits had been obtained for “remodel.”

St. John’s Properties LLC sold to Scott Jacobs **Dec. 10, 2012**; general warranty deed with vendor’s lien includes this paragraph: “The Company is prohibited from insuring the area or quantity of the land described herein. Therefore, the Company does not represent that the acreage or square footage calculations are correct and references to the quantity are for informational purposes only.”

The first recorded short-term rental “without permit” complaint is dated **March 25, 2013** (CC-2013-029340), three months after Jacobs bought the property.

Short-term rental Type 1 permit 2014-075612 OL is the only OL permit at 2003 Arpdale. Application date **July 18, 2014**, Issued August 5, 2014, Expired **August 5, 2016** (The adjacent property at 2001 Arpdale applied for its first short-term rental permit Type 2 in January 2013 and has kept up with its renewals ever since.)

Austin Water violation, plumbing permit, **Feb. 16, 2016**

Notice of code violation sent **March 21, 2016**

Scott Jacobs submitted residential permit application **May 25, 2016**.

Master comment report issued **June 27, 2016**, requiring variance to change use from single family to two family, among others.

C, request to reduce the minimum lot size.

Under City Code 25-2-493(B)(2) a “lot recorded in the county real property records after March 14, 1946 must: (a) have an area of not less than 5,750 square feet; and (b) be not less than 50 feet wide at the street or at the building line.” This means that City staff cannot issue a building permit for a property that was reduced to less than 5,750 sf after March 14, 1946.

It is clear that the property at 2003 Arpdale was originally 65 feet wide when it was platted in 1939 and described as Lot 16 of Block 8 in the Rabb Inwood Hills subdivision. Through 1984, the Travis County records available online continue to describe the property as Lot 16. Records of the 1990 sale are not available online, but there is a 1992 record describing the property next door, at 2001 Arpdale, as “east 10 feet of Lot 16 and all of Lot 17 in Block 8 Rabb Inwood Hills.” A plausible explanation for this is that the owner of the house and garage apartment at 2001 Arpdale bought 10 feet of Lot 16 after the City Code changed in 1984, requiring a minimum lot size of 7,000 sf for two dwellings.

But that does not explain why the appraisal district listed the lot size for 2003 Arpdale as 5,752.9 sf, instead of 5,500 sf. The land status determination issued by the City in 2007 established that the property was described as the west 55 feet of Lot 16 in 1990, and the survey (apparently from 2007) shows the property to be 5,500 sf. As noted above, the company that sold the property to Mr. Jacobs refused to confirm the area of the land described in the deed.

Findings:

- (1) The applicant has not shown that the zoning regulations do not allow for reasonable use. The zoning regulations do allow him to maintain his existing structures, but he has chosen instead to seek additional privileges not available to his neighbors.
- (2) He has not demonstrated any hardship that is not self-inflicted. A buyer's failure to read his deed documents, title search, and inspector's reports does not justify a variance. Any hardship in this case can be attributed entirely to the applicant's lack of due diligence.
- (3) His statement regarding Area Character does not address the central issue of the change of use, and it does not accurately reflect the character of the area.

D and E, requests to increase the building and impervious cover limits.

Dimensions taken from the site plan submitted by the owner and estimated from recent photographs were entered into AutoCAD and used to calculate the lot size, building coverage, and total impervious cover. According to the AutoCAD calculations, the lot is 5514 sf; the impervious cover is 3357 sf (60.9%), or 876 sf over the limit; and the building coverage is 2307 sf (41.8%), or 101 sf over the limit.

The applicant is requesting impervious cover of only 52%, but so far he has not disclosed how he arrived at that number or where the remaining excess impervious cover will be removed. Based on a lot size of 5514 sf, 52% would amount to 2867 sf, or 280 sf more impervious cover than would be allowed on a standard size lot.

The impervious cover limit of 45%, based on a lot size of 5514 sf, would allow the applicant to maintain the house with its front and back porches, walkways, and main driveway, with more than 200 sf left over for a garage or carport. There is therefore no denial of reasonable use, no hardship, and no justification for a variance from the impervious cover limit of 45%.

The circular drive (which would have to count toward the minimum parking requirement if a second dwelling unit is allowed) is mentioned in the code inspector's comments in March 2016 in connection with the "illegal curbcut." Besides contributing significantly to the excess impervious cover, the gravel drive is eroding into the street and is a constant nuisance.

The applicant is also requesting building cover of 41%. That estimate agrees with the AutoCAD calculation (minus the portable building, which must be removed). But the code limit of 40% would allow the applicant to maintain the existing structures plus more than half of the covered deck on the accessory structure. Again, there is therefore no denial of reasonable use, no hardship, and no justification for a variance from the building cover limit of 40%.

Findings:

- (1) The applicant has not shown that the zoning regulations do not allow for reasonable use. The zoning regulations (40% building cover and 45% impervious cover) allow him to maintain the existing house with its front and back porches, walkways, and main driveway, with a reasonable garage or carport, but he has chosen instead to seek additional privileges not available to his neighbors.

- (2) He has not demonstrated any hardship that is not self-inflicted.
- (3) His statement regarding Area Character does not address the central issue of the change of use, and it does not accurately reflect the character of the area.

F and G, requests to reduce the minimum lot size and minimum distance for a two-family use.

See A, B, and C above.

Findings:

- (1) The applicant has not shown that the zoning regulations do not allow for reasonable use. The zoning regulations do allow him to maintain his existing structures, but he has chosen instead to seek additional privileges not available to his neighbors.
- (2) He has not demonstrated any hardship that is not self-inflicted. A buyer's failure to read his deed documents, title search, and inspector's reports does not justify a variance. Any hardship in this case can be attributed entirely to the applicant's lack of due diligence.
- (3) His statement regarding Area Character does not address the central issue of the change of use, and it contradicts Building Permit #141411 from 2007. The building permit is evidence that the City rejected the previous owner's attempt to create a second dwelling on the property less than 10 years ago.

To summarize, I ask that the Board deny all of the variances requested at 2003 Arpdale, C15-2016-0084, because there is evidence that the applicant was aware of the property's shortcomings before he purchased it less than five years ago, and there is evidence that the City rejected the previous owner's attempt to create a second dwelling on the property less than 10 years ago. The application meets none of the required findings regarding reasonable use, hardship, and area character.

Thank you for your attention and for your service on the Board of Adjustment.

Sincerely yours,
Lorraine Atherton

06/02/2014	Khalid Marshall	Owner Contacted
On 20140602 Investigator Marshall received an email from the owner Scott Jacobs. He stated in his email that he had tenants in the residence. I replied to his email explaining that I had a complaint on his property regarding it being used as a STR>		
06/16/2014	Khalid Marshall	Insp / Violation(s) Found
On 20140613 At 0952 hrs Investigator Marshall stopped at this location and spoke with the tenant in the front structure whom stated that he indeed was a long term renter. This gentleman stated that the rear structure also had tenants but he was unsure if they were look term or not. I asked if it was ok if entered the rear yard where the second structure was located and he said that it was fine. I knocked on the door of the rear structure and made contact with two individuals whom stated that they were only in town for a couple weeks. They had arrived on Thursday of the previous week and would be living on the 22nd of this month totaling only 12 days. I will send a notice of violation for operation of a Short-Term Rental (STR) without a license.

Case Log

DATE	STAFF NAME	ACTION TAKEN
10/23/2015	Farah Presley	Inspection Performed
On 10.23.2015 I went to the property of 2003 Arpdale Street. I did not see any vehicles at the time. I did try to make contact with the house in the front of the property but no one was home I did leave a door hanger. There is a driveway that is gated by the front house leading the house in the back. The front house has both mailbox's for the A house and the B house. I could not make contact with anyone in the B house since the gate was closed. I put the photos into the case.		
10/25/2015	Farah Presley	Inspection Performed
On 10.25.2015 I was working short term rental inspections. This was an address again we had to check. This time we were able to make contact with the tenants of house A. They informed us that the landlord rents out the house B to couples on the weekends. The A house has 3 tenants that have a year lease. They said the house in the back always has different people but the landlord does not rent to big parties of people only couples. I looked and this address has a pending short term license.		
10/27/2015	Paul Estrada	No Violation(s) Found/ Insp
I went out on follow up inspection complaint. I arrived at location. Owner of property was not there. I then received contact information. I called owner Scott Jacobs 214.908.0770 who advised me that he has not rented out his property in a while because he knows that his STR license is pending but I advised him that it does appear that it is but was issued and doesn't expire until 8.5.16. I advised he was current on license and explained due to him being in a residential area to be mindful of neighbors and make sure noise is kept to a minimum, trash is kept off property and no blocking traffic on streets with parking when renters are visiting. He is aware of STR ordinance. No violation. Clear.

03/10/2016	Khalid Marshall	Information Update
On 20160310 Investigator Marshall contacted Travis County Appraisal District in regards to this property at 2003 Arpdale and the rear structure which is not listed on the tax documents. Also it was brought to their attention that the house was being rented to long term renters which is a violation of the Homestead Exemption.		
03/18/2016	Khalid Marshall	AH Warning Prep
Posted 03180		
03/18/2016	Khalid Marshall	Contact Performed
20160318 at 19:00 Hrs Officers Marshall and Ramos arrived on scene and attempted to make contact at the main house door but knocks went unanswered. Officers then approached the gate to the rear yard and during the approach officers were met by a young lady coming out of the rear structure. When asked if she was an owner, the young lady stated that she was a friend of the renter of the rear unit. Officers asked if they were long term renters and she replied that she and her friend were from Houston and were only renting the structure for SXSW weekend and had found the rental on AirBNB. See documents for advertisement. The tenant allowed officers to photograph the rear structure. During the inspection of the property officers noticed two vehicles on the driveway and one in front of the property on the street.		

VIOLATIONS

Structure Maintenance**Land Use**

Austin City Code Section: Certificate of Occupancy (§25-1-361)

Violation: A person may not use or occupy a structure unless the building official has issued a Certificate of Occupancy for the structure. There is no record of a Certificate of Occupancy for this structure's use.

Date Observed: 03/30/2016 Status: Not Cleared

Austin City Code Section: Zoning (§25-2)

Violation: An owner, manager, operator, or person in control of a short-term rental or bed and breakfast establishment commits an offense if the owner or other person leases, rents, advertises, promotes, or otherwise solicits or induces occupancy of a room, structure, dwelling unit, or partial unit in a short-term rental or bed and breakfast establishment which does not have a valid license issued and displayed as required by this chapter or as required by Title 25 of City Code (Land Development).

Date Observed: 03/30/2016 Status: Not Cleared

Austin City Code Section: Short-Term Rental (Type 1) Regulations (§25-2-788)

Violation: This section applies to a short-term rental use that is owner-occupied or is associated with an owner-occupied principal residential unit. A short-term rental use under this section may not include the rental of less than an entire dwelling unit, operate without a license as required by Section 25-2-790 (License Requirements), or operate without providing notification to renters as required by Section 25-2-791 (Notification Requirements). For a short-term rental use under this section, a secondary residential unit on the same property may be rented for periods of less than 30 consecutive days for an annual total of more than 90 days.

Case Log

DATE	STAFF NAME	ACTION TAKEN
03/14/2016	Michael Reeves	Insp / Violation(s) Found
I went to this property and observed there was new sewer line ran in the yard that was cited by Austin Water for a violation for no permit and that there is also an illegal curbcut besides the approved drive for the property that is being used for parking. I spoke with the long term tenant in the front house and she stated the rear structure is rented as an STR. The rear structure which is 430 sq ft and 102 sq ft open porch shows to be on TCAD as of 2007 but was built prior to 1997 due to the fact that is as far back as the historical ariel views are in GIS. TCAD does not show there to ever be a garage or storage on the property.

Legal Description: W 55FT OF LOT 16 BLK 8 RABB INWOOD HILLS

Property Owner(s):

Complaint Date: August 2, 2016

Complaint: Based on the photographs and site plan submitted by the owner in connection with a setback variance request at 2003 Arpdale (case # C15-2016-0084), the impervious cover on this property is between 55 and 58%. City Code 25-2-492 (Site development regulations) limits this site to 45% impervious cover. The circular drive (which is used as parking) is the source of most of the excess impervious cover. The gravel drive is eroding into the street and is a constant nuisance. Please require that the circular drive be removed and the curb and gutter restored.
