Plotted On: April 5, 2017

Group 19 Location Map

Map depicts approximately 30% of the sidewalk projects to be completed under this contract. These include the "early out" sidewalk projects funded by the Sidewalk Program portion of the 2016 Mobility Bond and noted in the 02/28/17 bond overview presentation and report to Council. The remaining projects to be completed under this contract are still undergoing feasibility review and will be included in the annual local mobility implementation plan as outlined in the 02/28/17 report.

Note: Evaluation of the Potential Sidewalk Projects identified on this map is not complete. Further review including engineering analysis and utility conflict identification as well as public and private development coordination opportunities will be used to determine which projects move forward.
