Subject: Item C20 Case C8-2016-0141-0A 3901 Brookview Rd

Mr. Moore -

The item referenced above was postponed from last month's planning commission meeting pending action by the historical landmark commission. Last night the Historic Landmark Commission was forced to postpone their decision regarding historic zoning for the current structure to June 26. Once again they did not have a minimum of eight commission members present.

Since the current house at 3901 Brookview spans at least two of the proposed three subdivided lots, the planning commission will not be able to decide the subdivision request until after the historic landmark commission has completed its decision making.

Therefore I am requesting that the planning commission postpone discussion of item C-20 until after June 26, 2017.
