

Joint Sustainability Committee

5/24/2017 Meeting: Draft template for new actions

Topic (Is this a new or existing sector? Introduce the topic, including background, methodology used, quantifications of emissions (where feasible), and process to develop the strategy and actions including a description of subject matter expert and citizen engagement.)

Challenges and Opportunities (Describe these as they relate to the topic introduced above.)

Existing Plans and Initiatives (Describe any strategic plans or ongoing programs/initiatives that the City of Austin is currently implementing related to the topic.)

Strategy (Identify an existing Strategy category or if a new one is to be created. Clearly define the Strategy outcome desired.)

Actions (These should be specific and identify what will occur in order to influence the Strategy outcome desired. The following chart should be developed for each proposed action, putting it in line with the existing appendices in the Community Climate Plan.)

Strategy category	Action #	Actions	Timeframe 2015-2020 2020-2030 2030-2050	Currently in adopted City/County plan?	Action status	Action owner	Participating/Active Stakeholders
