

**RESOURCE MANAGEMENT COMMISSION
RECOMMENDATION 20170620-011**

Date: June 20, 2017

Subject: The recommendations of the Electric Utility Commission Resource Planning Working Group for the update to the Austin Energy Resource, Generation and Climate Protection Plan to include long-range planning through 2027.

Motioned By: Commissioner Susanne Vaughan **Seconded By:** Commissioner James Babyak

Recommendation: In addition to the goals and recommendations endorsed by the Working Group, including a study on the potential to reach 80 percent renewable energy by 2027, Austin Energy should also be directed to study the potential to meet the policy of reducing carbon dioxide from all city controlled generation resources to zero by 2030, and report back to the Resource Management Commission and the Electric Utility Commission by the end of 2019 on the potential benefits and costs of reaching this goal.

Vote: 7-1
