#### Solar Rebates & MW Tracking FY 2017 Oct-Aug

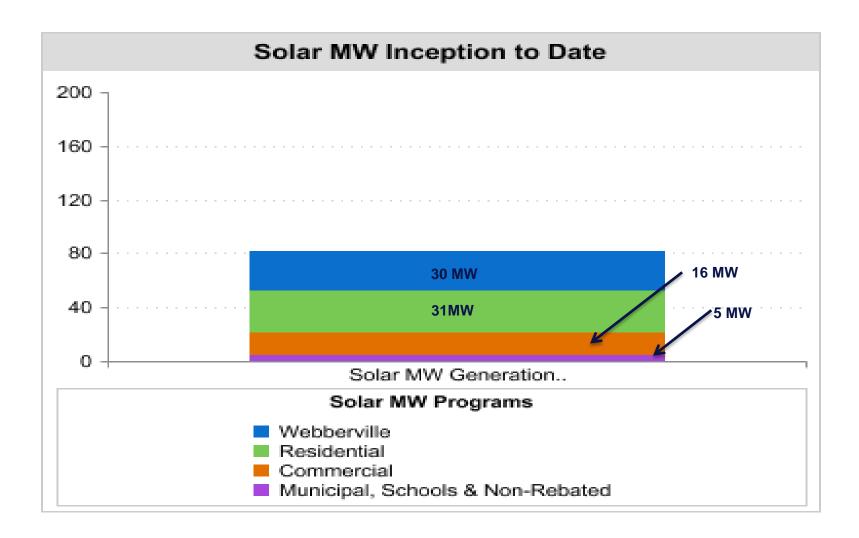

## Solar Rebates & MW Tracking FY 2017 Oct-Aug

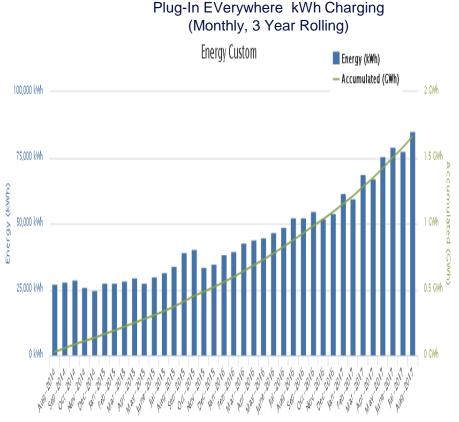

#### Solar MW Inception to Date as of Aug 2017

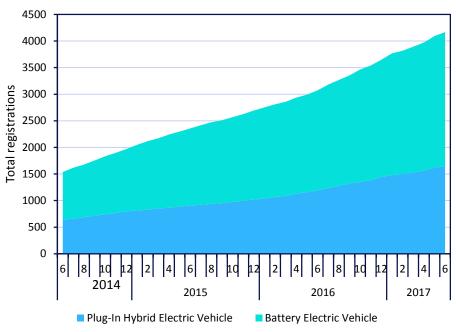

#### **Electric Vehicles Charging & Adoption**

Public Charging: 2GWh consumed through 286,985 charging sessions since 2012.

Austin Area EV Consumer Adoption (Monthly, 3 Year Rolling)

#### Cumulative registrations by type

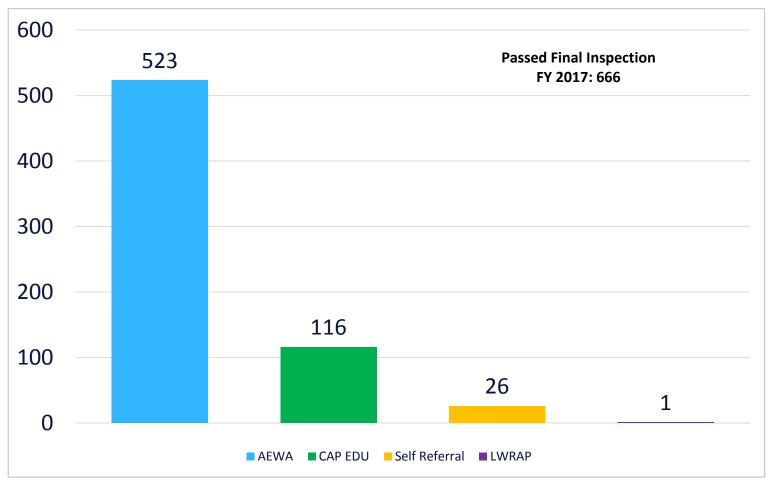

4,168 EVs consume approx. 12.5 GWh/year.

\*Data provided from EPRI for Travis and Williamson County.

#### Weatherization FY 2017 Oct-Aug

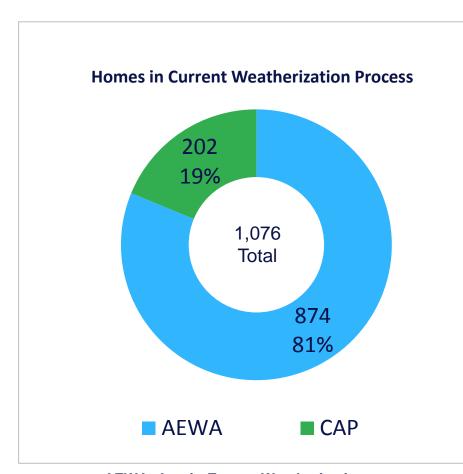

Self Referral = a customer who filled out an application for weatherization and is not a CAP customer For the CES Dashboard Report, Total Jobs Completed is defined as all homes that have been weatherized, inspected, and invoiced.

#### Weatherization FY 2017 Oct-Aug

Weatherization/CAPs Budgets FY 2017 \$3.00 \$2.61 \$2.40 \$2.00 \$1.27 \$1.24 \$1.00 \$0.03 \$0.00 (\$0.22)(\$1.00)Weatherization CAPs **Dollars in Thousands** Budget Amount Total Obligated Remaining

**AEWA=Austin Energy Weatherization CAP=Customer Assistance Program** 

Applicants assessed by the Austin Energy Weatherization Team may be referred to other home repair resources for assistance before weatherization may be completed. Updated on 8/08/17

#### **CES RMC SAVINGS REPORT**

#### FY2017 Report As of 08/31/2017

#### NOTES:

Effective April 2017, energy code savings from building permits will be reported in the corresponding month, one year post-permit. Therefore, reporting of energy code savings is suspended until April 2018.

The August savings numbers for SPUR (Strategic Partnership between Utilities and Retailers) were not available at the time of the August RMC reporting. The August Residential savings totals will be updated when those numbers become available.

Due to updates from the SPUR program Manager and the GB program manager on 9/6/17 and 9/7/17 respectively, the July, 2017 MW savings increased by 0.15 MW and the mWh savings increased by 292 mWh.

Per notification from program manager on 8/4/17, the June GB Residential Participant number was updated from 62 to 61. The resulting MW remained at 0.04 when rounded to 2 decimal places, but the MWH amount changed from 75 to 74.

Per notification from the program manager on 3/9/17, the November savings for GB-Commercial Rating should be 0.32 MW vs. 0.37 MW and 2,539 MWH vs. 2,489 MWH. Numbers adjusted accordingly.

Per notification from the program manager on 3/7/17, the January savings for GB-Commercial Rating should be 0.23 MW vs. 0.94 MW and 389 MWH vs. 4,696 MWH. Numbers adjusted accordingly.

Money spent on the DR-Cycle Saver program is funded from the DR Power Partner (Residential) Rebate Budget.

Per notification from the program manager on 12/05/16, the Commercial MW goals were updated as follows: EES-Commercial Rebate changed from 11.45 to 10.05,

EES-Small Business changed from 2.20 to 3.40, EES-Multifamily changed from 3.80 to 4.00, and EES/GB Commercial Projects changed from 2.50 to 1.74.

SPUR numbers are unaudited and are updated quarterly.

Total commercial participation does not include GB commercial square foot.

Thermal Energy Storage Budget is not part of Customer Energy Solutions Budget.

Low Income weatherization budgets do not include FY16 rollover until officially approved by Council.

- \*Currently maintaining existing population of Cycle Saver water heater timers through replacement of units at 10 years.
- \*\*Free thermostats were not adjusted in FY16 for attrition.
- ++Budgets are maintained within other residential programs and tracked outside of eCOMBS.

Goals and savings are calculated to included T&D line losses and spinning reserves.

The ERS MW total is based on contracted and ERCOT-tested capacity.

June's report included FY16 data. That has been removed for July. ERS now only reports incremental MW increases.

For FY17, AE added 0 MW coincident peak demand and 0.35 MW non-coincident peak demand in the ERS program.
