

MEMORANDUM

TO: Robert Spillar, Director, Austin Transportation Department
Rolando Fernandez, Capital Contracting Officer, Financial Services Department

FROM: Veronica Briseño, Director, Small & Minority Business Resources Department 

DATE: June 29, 2017

SUBJECT: DBE Goal Determination for the *Pedestrian Safety Improvement-Hybrid Beacon Installations-TAP Grant Project* (Solicitation Number CLMC654)

The Small and Minority Business Resources Department (SMBR) initially recommended a DBE goal of 8.69 % on the *Pedestrian Safety Improvement-Hybrid Beacon Installations-TAP Grant Project*. However, the Texas Department of Transportation's (TxDOT's) DBE goal review concluded that the solicitation does not warrant a DBE goal due to the size, type of work, cost estimate, the number of other projects in the region as well as limited subcontracting opportunities for certified DBE firms in the project location.

In order to comply with TxDOT's review and recommendation, SMBR has assigned a DBE goal of 0% to this solicitation and will encourage the use of certified DBE firms.

SMBR's initial proposed project goal and TxDOT's approved DBE Goal for this project is as follows:

Project Goal	SMBR Proposed DBE Goal	TxDOT Approved DBE Goal
DBE	8.69%	0.00%
