

ZONING CHANGE REVIEW SHEET

CASE: C14-2017-0106
Tillery MF

P.C. DATE: November 28, 2017

ADDRESS: 507 Tillery Street

TOTAL AREA: 13,200 s.f. (0.30 acres)

DISTRICT: 3

OWNER: 507 Tillery House LLC (Caren W. Wendt & Kathryn L. Ingerly)

AGENT: Rize Planning, Development & Construction (Ross Frie)

ZONING FROM: SF-3-NP

TO: MF-2-NP

NEIGHBORHOOD PLAN AREA: Govalle-Johnston Terrace

TIA: N/A

WATERSHED: Colorado River & Boggy Creek

CAPITOL VIEW CORRIDOR: No

DESIRED DEVELOPMENT ZONE: Yes

SUMMARY STAFF RECOMMENDATION:

Staff supports the Applicant's request for Multifamily residence low density-neighborhood plan (MF-2-NP) combining district zoning, with conditions (MF-2-CO). Staff recommends that multifamily land use be prohibited, making the recommendation MF-2-CO-NP.

ISSUES:

The Applicant proposes developing five to six townhouse/condominium units on the subject property. No multifamily use is proposed. MF-2 zoning has been requested because the site development standards of MF-2 make it feasible to develop the townhouse/condominium units as proposed.

PLANNING COMMISSION RECOMMENDATION:

December 12, 2017:

November 28, 2017: April 25, 2017; *TO GRANT POSTPONEMENT AS REQUESTED BY STAFF TO DECEMBER 12, 2017, ON CONSENT. (11-0) [P. Seeger- 1st; N. Zaragosa- 2nd*

DEPARTMENT COMMENTS:

The subject property is located one lot north of the northeast corner of the intersection of East 5th Street and Tillery Street. The lot is currently zoned SF-3-NP and developed with a single family residence. To the south, between the subject property and East 5th Street are a townhouse/condominium development and mini-storage land uses, zoned MF-3-NP and W/LO-NP, respectively. The mini-storage (W/LO-NP) property is also immediately east of the subject property. Further east of the subject property are a mix of properties developed with automotive repair (GR-MU-NP), single family residences (SF-3-NP), and multifamily uses (MF-2-NP). Immediately north of the subject property are several lots zoned SF-3-NP that are developed with single family residences. Across Tillery Street, to the west, are several single family residential lots, zoned GR-MU-NP and SF-3-NP. Also across Tillery Street is the site known as 618 Tillery / The Rail Spur building, which is currently in the rezoning and NPA process (C14-2017-0020 and NPA-2016-0016.04). The site is developed with a single office/warehouse with a mix of commercial and office uses. The Rail Spur site is currently zoned LO-CO-NP and LO-MU-CO-NP; the rezoning request is for GR-CO-NP and GR-MU-CO-NP. *Please refer to Exhibits A and B (Zoning Map and Aerial View).*

Staff supports the rezoning request with the condition that multifamily land use be prohibited. MF-2-CO-NP would allow development of approximately six residences on a lot that is adjacent to single family, townhouse/condominium and commercial properties. The density on this lot would be a transition between the SF-3 to the west and north to the MF-3 and W/LO to the south and east. The wider area also has a mix of uses and zoning, with single family, multifamily, commercial, light industrial and public land uses (Brooke Elementary) nearby.

Staff has received correspondence in opposition to the proposed rezoning request. *Please refer to Exhibit C (Correspondence).*

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	SF-3-NP	Single family residential
<i>North</i>	SF-3-NP	Single family residential
<i>South</i>	MF-3-NP, W/LO-NP	Multifamily residential, Convenience storage
<i>East</i>	W/LO-NP, GR-MU-NP, SF-3-NP, MF-2-NP	Convenience storage, Automotive repair, Single family residential, Multifamily residential
<i>West</i>	SF-3-NP, LO-MU-CO-NP, LO-CO-NP	Single family residential, Mixed commercial and light industrial uses

PHONE: 512-974-2122

SUMMARY STAFF RECOMMENDATION:

Staff supports the Applicant's request for Multifamily residence low density-neighborhood plan (MF-2-NP) combining district zoning, with conditions (MF-2-CO-NP). Staff recommends that multifamily land use be prohibited.

The Applicant proposes developing five to six townhouse/condominium units on the subject property. No multifamily use is proposed. MF-2 zoning has been requested because the site development standards of MF-2 make it feasible to develop the townhouse/condominium units as proposed. MF-2-NP would allow development of approximately five to six residences on a lot that is adjacent to single family, townhouse/condominium and commercial properties. The density of MF-2 on this lot would be a transition between the SF-3 to the west and north to the MF-3 and W/LO to the south and east. By prohibiting multifamily land use, the site would reflect the mix of residential uses in the vicinity. The wider area also has a mix of uses and zoning, with single family, multifamily, commercial, light industrial and public land uses (Brooke Elementary) nearby.

BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*
Multifamily residence low density (MF-2) district is the designation for a multifamily use with a maximum density of up to 23 units per acre, depending on unit size. An MF-2 district designation may be applied to a use in a multifamily residential area located near single family neighborhoods or in an area for which low density multifamily use is desired.
2. *Zoning changes should promote compatibility with adjacent and nearby uses and should not result in detrimental impacts to the neighborhood character.*
The subject property is adjacent to single family, multifamily and commercial properties. The wider area also has a mix of uses and zoning, with single family, multifamily, commercial, light industrial and public land uses (Brooke Elementary) nearby. The proposed zoning is suitable for this area of mixed zoning and land uses.
3. *Zoning should promote a transition between adjacent and nearby zoning districts, land uses, and development intensities.*
The density of MF-2 on this lot would be a transition between the SF-3 to the west and north to the MF-3 and W/LO to the south and east.

Site Plan:

- SP 1. Site plans will be required for any new development other than single-family or duplex residential.
- SP 2. Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.
- SP 3. Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.
- SP 4. Compatibility Standards- The site is subject to compatibility standards. Along the west and north property lines, the following standards apply:
- No structure may be built within 25 feet of the property line.
 - No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
 - No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
 - No parking or driveways are allowed within 25 feet of the property line.
 - A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
 - For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.

- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- A landscape area at least 25 feet in width is required along the property line if the tract is zoned LR, GO, GR, L, CS, CS-1, or CH.

SP 5. Additional design regulations will be enforced at the time a site plan is submitted

SP 6. FYI – This site is located within the Govalle/Johnston Terrace Combined NPA. Additional comments may be generated during the site plan review process.

Transportation:

- TR1. Per Ordinance No. 20170302-077, off-site transportation improvements and mitigations may be required at the time of site plan application.
- TR2. Additional right-of-way maybe required at the time of subdivision and/or site plan.
- TR3. According to the Austin 2014 Bicycle Plan approved by Austin City Council in November, 2014, a buffered bike lane is recommended for Tillery Street.
- TR4. TR5. Janae Ryan, Urban Trails, Public Works Department and Nathan Wilkes, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.
- TR5. Existing Street Characteristics:

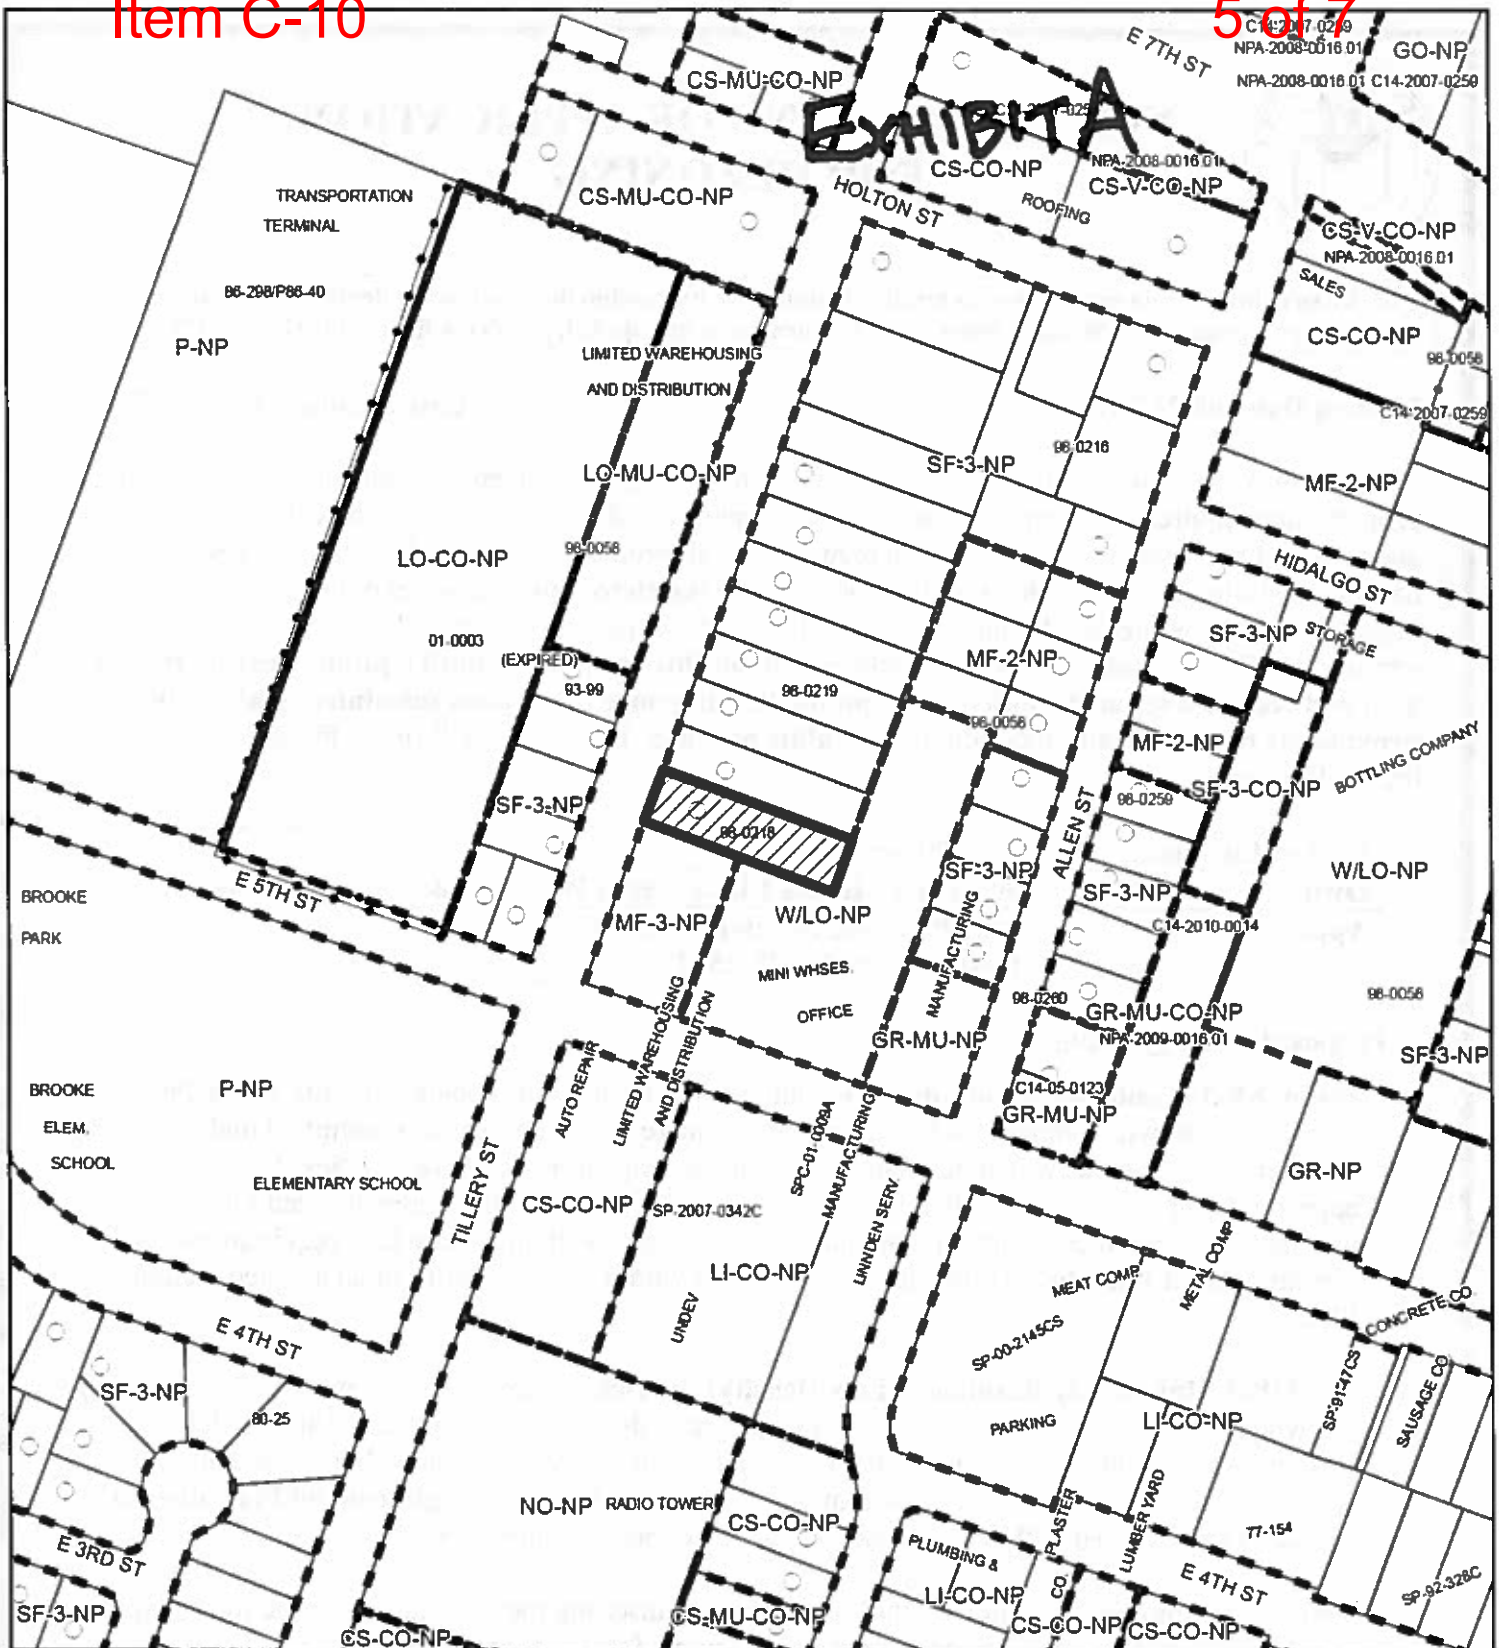

Name	ROW	Pavement	Classification	Sidewalks	Bike Route	Capital Metro (within ¼ mile)
Tillery Street	66 ft.	45 ft.	Collector	Yes, one side	Yes, Bike Lane	No

Environmental:

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Colorado River and Boggy Creek Watersheds of the Colorado River Basin, which are classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.
2. Zoning district impervious cover limits apply in the Urban Watershed classification.
3. According to floodplain maps there is no floodplain within or adjacent to the project location.
4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
5. Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
6. This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 s.f. cumulative is exceeded, and on site control for the two-year storm.

Water/Wastewater:

FYI: The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the proposed land use. Depending on the development plans submitted, water and or wastewater service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Maureen,

As I mentioned to you on the phone, we met with the applicant once, he presented, we gave our input, and they were to return with an adjusted proposal, but they did not return and have not asked for a reschedule.

If they do not reschedule with us prior to going to planning commission, then please accept this email as notice that

G/JTNP Contact Team will have will have to **oppose the project application** in its present form.

Once again, we suggest completion of negotiations with the Contact Team prior to putting this case on the Planning Commission and City Council schedules.

thank you,

Daniel Llanes, Chair
G/JTNP Contact Team
