

Water & Wastewater Commission Review and Recommendation

Commission Meeting Date:	December 13, 2017
Council Meeting Date:	December 14, 2017
Department:	Public Works
Client:	Yvonne Gil, Kevin Koeller, and Chris Chen
Agenda Item	
Authorize award and execution of a construction contract with DeNucci Constructors, LLC , for East Austin Wastewater Line Improvements in the amount of \$2,178,127 plus a \$217,813 contingency, for a total contract amount not to exceed \$2,395,940. (District 1 & 4)	
Amount and Source of Funding	
Funding is available in the Fiscal Year 2017-2018 Capital Budget of the Austin Water.	
Purchasing Language:	Lowest responsive bid of five bids received through a competitive Invitation for Bid solicitation.
Prior Council Action:	N/A
Boards and Commission Action:	December 13, 2017- To be reviewed by the Water and Wastewater Commission.
MBE/WBE:	This contract will be awarded in compliance with City Code Chapter 2-9A (Minority Owned and Women Owned Business Enterprise Procurement Program) by meeting the goals with 6.34% MBE and 1.22% WBE participation.

The water and wastewater infrastructure and appurtenances included in this project have been identified as deteriorating and aging and in need of replacement as part of the Renewing Austin Program and the Sanitary Sewer Overflow Program. The water line infrastructure being replaced has a well-documented history of breaks in the area.

This contract will replace the existing water and wastewater lines to prevent future wastewater overflows and water line breaks. The project is necessary to reduce further expenditures from the Operating and Management budget to prevent frequent overflows and prevent water line breaks. The work consists of the abandonment of 5,129 linear feet of existing 8-inch diameter wastewater lines with 8-inch diameter PVC wastewater lines, the installation of 44 new wastewater manholes, and the installation of new wastewater service lines. Also included is the replacement of 915 linear feet of 8-inch diameter cast iron water line with 8-inch diameter PVC pipe and associated service lines.

This contract includes one allowance. The allowance of \$160,000 will be used to address the relocation of the existing Private Laterals at 16 various locations. An allowance is an amount that is specified and included in the construction contract or specifications for a certain item of work whose details are not yet determined at the time of bidding.

A neighborhood meeting will be scheduled prior to construction start up in February 2018 so that residents and businesses can ask questions and get more information on the project. In addition, affected residents and businesses will be notified of upcoming work by flyer. This project was placed on "hold" several years ago and was recently reactivated for construction. Since the "hold" there has been an increase in service and capacity. This project is necessary to increase the capacity and prevent any future breaks or sewer leakage.

Due to the potential for unknown subsurface condition and utility conflicts, a 10% contingency in funding has been included to allow for the expeditious processing of any change orders. A contingency is an additional amount of money added to the construction budget to cover any unforeseen construction costs associated with the project.

The contract allows 330 calendar days for completion of this project. This project is located within zip codes 78721 & 78723 (District 1 & 4). The project will be managed by the Public Works Department.

DeNucci Constructors, LLC. is located in Austin, Texas.
