Four horizontal blue lines for text entry.

**Section 2: Variance Findings**

Please attach any additional supporting documents.

**NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.**

I contend that my entitlement to the requested variance is based on the following findings:

**Reasonable Use**

The zoning regulations applicable to the property do not allow for a reasonable use because:

Seven horizontal blue lines for text entry.

**Hardship**

a) The hardship for which the variance is requested is unique to the property in that:

**Parking** (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. - 1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

---

---

---

---

- 2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

---

---

---

---

- 3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

**Section 6: Additional Space (if applicable)**

Please use the space below to provide additional information as needed. To ensure the information is referenced to the proper item, include the Section and Field names as well (continued on next page).

This application requests the Board to utilize its authority as stated in LDC 25-2-476(B)(3)(a)(ii) to ~~allow the aforementioned property to maintain a detached accessory structure erected in 1941 which has maintained the same footprint encroaching 1.5' into the rear setback and 1.5' into the side setback.~~

**Additional Space (continued)**

The building was originally constructed as garage and storage in 1941. The city then issued permit approval and Certificate of Occupancy for a Change of Use for "Remodel and Addition to Existing Residence to Create Duplex, 313 SF." That CO was issued 9/21/73.

The City then issued building permit #160506 on 11/9/76 for "Remodel Accessory Building to Create Storage." (On 8/6/74 the City recognized the 313 SF duplex use via Framing Inspection.) We believe this permit was for a small storage closet which is accessed from the exterior and is used to store typical lawn tools. We do not believe it was utilized to convert the duplex to a non-habitable unit.

Thus, the current owner has maintained the detached accessory dwelling unit with storage closet since it was her understanding that the unit was legal due to it being converted via the 9/21/73 permit.

However, the property owner has recently removed the kitchen sink in order to clear what we believe is an erroneous Notice of Violation issued by Code Compliance for no C.O. The building now has a full bath only.

The applicant only asks the Board to consider the building's original footprint, which has not changed since 1941. Included in this packet is a copy of aforementioned permit approvals, CO's, 1994 survey, 2003 and 2006 aerials, as well as 2012 COA GIS aerial.

Should the Board grant this request, the applicant is prepared to seek a partial PUE vacation of 68 SF (which existed at the time of 1970's permit approvals), along the side and rear portions of the building.

**PUBLIC HEARING INFORMATION**

Although applicants and/or their agent(s) are expected to attend a public hearing, **you are not required to attend.** However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed application. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice will be sent.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
  - appearing and speaking for the record at the public hearing;
- and:

- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

Comments: The set backs are vital to keeping the houses in the neighborhood from being too densely packed. I see no urgent/vital reason for an exemption. Home owners can build up if extra space is needed.
