5. ITEMS FROM PAC

A. 2018 Bond Development Recommendations – Discussion and Possible Action

PAC members reviewed draft recommendation language developed by PAC members Jay Crossley and Heyden Walker for the full PAC's consideration which, after debate and amendment, read as follows:

NOW, THEREFORE, BE IT RESOLVED, that the Pedestrian Advisory Council (PAC) asks that the Bond Election Advisory Task Force (BEATF) prioritize inclusion of the following proposed bond programs in this order: Sidewalk Rehabilitation / Replacement; Vision Zero Pedestrian Safety Improvements, Vision Zero Speed Management, Vision Zero Transit Speed & Reliability, and Vision Zero Intersection Safety;

And be it further resolved that the PAC asks that the BEATF send a 2018 bond proposal to the Austin City Council that includes at least \$20 million for Sidewalks and at least \$20 million for Vision Zero;

And be it further resolved that the PAC asks that the Austin City Council work with the City Manager, Austin Transportation Department, Public Works Department, and Federal, State, and regional partners to develop a plan by June 2018 for fully funding the Sidewalk Master Plan / ADA Transition Plan within its ten year horizon in a way that ensures a consistent source of funding. This plan could recommend that 2018 bond sidewalk funding be increased beyond the BEATF proposal; And be it further resolved that the PAC asks that the Austin City Council include at least \$20 million for Sidewalks and at least \$20 million for Vision Zero in the 2018 bond proposal;

And be it further resolved that the PAC asks that the Austin City Council ensure that this year's city budget - including any bond funds available or planned - will meet the funding targets of the Sidewalk Master Plan / ADA Transition Plan.

Action taken: A motion to approve the recommendation as amended passed unanimously (9-0) on Girard Kinney motion, and Heyden Walker second. The [recommendation](#) can be found on the PAC's [webpage](#). More information about 2018 Bond Development can be found [here](#).
