

#	Option Name	Source Water (If Applicable)	Targeted Sectors and End Uses Include:	Type of Development	Initial Assumption: Savings Achieved Via Incentive or Ordinance?	Target 2040 Yield (AF/yr)	Initial Assumption on Potential Code Changes Required
D3	Commercial, Institutional, and Industrial Ordinances	N/A	MFR, COM, COA HVAC	Existing	Ordinance	1,063	Already in Effect – Located in Plumbing and Mechanical Codes
D12	AC Condensate Reuse Ordinance	AC Condensate	MFR, COM, COA	New and Existing	Ordinance	1,084	Already in Effect – Located in Mechanical Codes
D4	Water Use Benchmarking and Budgeting	N/A	COM, MFR, Others TBD	New	Ordinance	5,953	Potentially §6-4 of the city code (Water Conservation); §6-7 of the city code (Energy Conservation); and/or Land Development Code
D5	Landscape Transformation Ordinance	N/A	Majority of savings from SFR Outdoor Irrigation; COM, MFR Outdoor Irrigation	New	Ordinance	3,038	Potentially Environmental Criteria Manual (ECM) Section 2-4 Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
D8		Lot Scale Stormwater Harvesting	MFR Outdoor Irrigation	Existing and New	Incentive 50%, Ordinance 50%	180	Combination of code requirements potentially located in the Plumbing Code, or the Land Development Code (§ 25-7), or the Environmental Criteria Manual (ECM) as well as incentives provided by both WPD and AW. Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
			COM Outdoor Irrigation	Existing and New	Incentive 50%, Ordinance 50%	149	Combination of code requirements potentially located in the Plumbing Code, or the Land Development Code (§ 25-7), or the Environmental Criteria Manual (ECM) as well as incentives provided by both WPD and AW.. Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
D9	Alternative Water Incentives and Ordinances	Lot Scale Rainwater Harvesting	SFR Outdoor Irrigation	Existing and New	Incentive	937	Initial approach will focus on incentives provided by both WPD and AW.
			MFR Outdoor Irrigation	Existing and New	Incentive 50%, Ordinance 50%	54	Combination of code requirements potentially located in Environmental Criteria Manual or the Plumbing Code as well as incentives provided by both WPD and AW. Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
			COM Outdoor Irrigation	Existing and New	Incentive 50%, Ordinance 50%	82	Combination of code requirements potentially located in Environmental Criteria Manual or the Plumbing Code as well as incentives provided by both WPD and AW. Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
			MFR Outdoor Irrigation and Toilet Flushing	New	Ordinance	195	Potentially Environmental Criteria Manual and the Plumbing Code Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
			COM Outdoor Irrigation, Toilet Flushing, and Cooling	New	Ordinance	281	Potentially Environmental Criteria and the Plumbing Code Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
D10		Lot Scale Gray Water Harvesting	SFR Outdoor Irrigation	Existing and New	Incentive	244	Initial approach will focus on incentives provided by AW.
			SFR Outdoor Irrigation, Toilet Flushing, and Clothes Washing	Existing and New	Incentive	571	Initial approach will focus on incentives provided by AW.
			MFR Outdoor Irrigation, Toilet Flushing, and Clothes Washing	New	Ordinance	991	Potentially Plumbing Code Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
			COM Outdoor Irrigation and Toilet Flushing	New	Ordinance	321	Potentially Plumbing Code Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
D11		Lot Scale Wastewater Reuse	MFR Outdoor Irrigation, Toilet Flushing, Clothes Washing, and Cooling	New	Ordinance	1,323	Potentially Plumbing Code Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
S11		Community Scale Stormwater Harvesting	SFR, MFR, COM, COA Outdoor Irrigation	Existing and New	Incentive	48	Initial approach will focus on incentives provided by AW as well as water quality requirements already in code or proposed in Land Development Code.
			SFR, MFR, COM, COA Outdoor Irrigation, Toilet Flushing, Clothes Washing, and Cooling	Existing and New	Incentive	109	Initial approach will focus on incentives provided by AW as well as water quality requirements already in code or proposed in Land Development Code.

#	Option Name	Source Water (If Applicable)	Targeted Sectors and End Uses Include:	Type of Development	Initial Assumption: Savings Achieved Via Incentive or Ordinance?	Target 2040 Yield (AF/yr)	Initial Assumption on Potential Code Changes Required
S3	Direct Non-Potable Reuse (Centralized Purple Pipe)	Wastewater Reuse	SFR, MFR, COM, COA	New	Implementation will include ordinance components	12,000	Potentially the Plumbing Code Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
S9	Community Scale Distributed Wastewater Reuse	Wastewater Reuse	SFR, MFR, COM, COA Outdoor Irrigation, Toilet Flushing, Clothes Washing, and Cooling	New	Implementation may include ordinance components	3,154	Potentially Title 15 – Utility Regulations of the City Code Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
S10	Community Scale Sewer Mining	Wastewater Reuse	SFR, MFR, COM, COA Outdoor Irrigation, Toilet Flushing, Clothes Washing, and Cooling	New	Implementation may include ordinance components	1,000	Potentially Title 15 – Utility Regulations of the City Code Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
	Dual Plumbing Ordinance	Any Alternative Water Source	MFR, COM, COA indoor non-potable end uses	New	Ordinance	N/A	Potentially Plumbing Code Future stakeholder process will include refinement of ordinance scope, applicability, location in code, and enforcement considerations and development of ordinance language.
