AP-15	Expected Resources	33	Updated Publically Owned Land referencing Tillery Street and Henninger Street. <i>Acres on Tillery Street and Henninger Street - Pecan Grove development to be determined. Parcels of land were acquired over a period of years and assembled into the 5-acre tract, part of which contains a grove of mature pecan trees and a vacant stone house. The house was built circa 1935, and is rare for the area, which is surrounded mostly by 1960's-era wood frame single-family homes. The age of the trees and their placement on the property will provide a unique setting for the type of development that is ultimately chosen and a new use for the stone house could be incorporated into the development plan. AHFC is exploring future development of this site and proposes to release a Request for Proposal.</i>
