

**ZONING CHANGE REVIEW SHEET****CASE:** C14-2018-0039 – Alpine Road Rezoning**P.C. DATE:** August 14, 2018**ADDRESS:** 410 West Alpine Road**DISTRICT AREA:** 3**OWNER:** West Alpine Partners LLC**APPLICANT:** Thrower Design  
(Ron Thrower)**ZONING FROM:** SF-2-NP**TO:** MF-2-NP**AREA:** 0.9855 acres**NEIGHBORHOOD PLANNING AREA:** Dawson**SUMMARY STAFF RECOMMENDATION:**

The Staff recommendation is to grant the Applicant's request for multi-family residence-low density-neighborhood plan (MF-2-NP) combining district zoning.

**PLANNING COMMISSION RECOMMENDATION:**

August 14, 2018:

**ISSUES:**

The Dawson Neighborhood Plan Contact Team does not object to the requested zoning change. Please refer to the correspondence attached at the back of this report.

**DEPARTMENT COMMENTS:**

The subject tract is located on West Alpine Road, contains one single family residence and has family residence – neighborhood plan (SF-3-NP) zoning. The tract is situated between apartments to the west and a recently constructed 45 unit townhouse development to the east (MF-2-NP). There is a single family residential subdivision and apartments to the south (SF-3-NP; MF-3-NP) and single family residences to the north that front on Lightsey Road. Please refer to Exhibits A (Zoning Map) and A-1 (Aerial View).

The Applicant proposes to rezone the property to the multi-family residence-low density-neighborhood plan (MF-2-NP) district and develop between 17 and 20 units. Based on review of the zoning map and existing land uses, Staff believes the tract is well-suited for additional residential development and would be compatible with the apartments to the west and the townhouses to the east. Under MF-2 zoning, the maximum height is 40 feet and the average density is 20 units per acre.

**EXISTING ZONING AND LAND USES:**

	<b>ZONING</b>	<b>LAND USES</b>
<i>Site</i>	SF-3-NP	One single family residence
<i>North</i>	SF-3-NP	Single family residences
<i>South</i>	SF-3-NP; MF-3-NP	Single family residences; Apartments
<i>East</i>	MF-2-NP	Townhomes
<i>West</i>	MF-2-NP	Apartments

<b>NUMBER</b>	<b>REQUEST</b>	<b>COMMISSION</b>	<b>CITY COUNCIL</b>
C14-04-0006 – Dawson Mixed Use Building (City Initiated) – 3507 S 1st. ST	LR-NP to LR-CO-NP, to add the Neighborhood Mixed Use Building Special Use to a commercial zoned property	To Grant LR-CO-NP as requested and make the following uses conditional: service station and drive through services as an accessory use	Apvd as Commission recommended (03-11-2004).

**RELATED CASES:**

The subject property is located within the boundaries of the Dawson Neighborhood Planning Area and the –NP combining district was appended to the SF-3 zoning at that time (C14-01-0061 – Ordinance No. 011206-10). There is a corresponding neighborhood plan amendment case to change the land use designation on the Future Land Use Map (FLUM) from Single Family land use to Multifamily land use (NPA-2018-0001.01).

The property is unplatted and there are no related subdivision or site plan cases in process.

**SUMMARY STAFF RECOMMENDATION:**

The Staff recommendation is to grant the Applicant's request for multi-family residence-low density-neighborhood plan (MF-2-NP) combining district zoning.

**BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)**

*1. The proposed zoning should be consistent with the purpose statement of the district sought.*

The MF-2, Multifamily Residence (Low Density) district is intended for multifamily developments with a maximum density of up to 23 units per acre, dependent on unit size. This district is appropriate for multifamily residential areas near single family neighborhoods, and in selected areas where low density multifamily use is desirable. The neighborhood plan (NP) district denotes a tract located within the boundaries of an adopted Neighborhood Plan.

- 2. Zoning changes should promote consistency and orderly planning.*  
*3. Zoning should be consistent with approved and existing densities.*

Based on review of the zoning map and existing land uses, Staff believes the tract is well-suited for additional residential development and would be compatible with the apartments to the west and the townhouses to the east.

**EXISTING CONDITIONS****Site Characteristics**

The subject rezoning area contains one residence and is heavily treed.

**Impervious Cover**

The maximum impervious cover allowed by MF-2 zoning district would be 60%, which is based on the zoning regulations.

**Drainage**

The developer is required to submit a pre- and post-development drainage analysis at the subdivision and site plan stage of the development process. The City's Land Development Code and Drainage Criteria Manual require that the Applicant demonstrate through engineering analysis that the proposed development will have no identifiable adverse impact on surrounding properties.

**Environmental**

The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the East Bouldin Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

Zoning district impervious cover limits apply in the Urban Watershed classification.

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Numerous trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876.

At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 s.f. cumulative is exceeded, and on site control for the two-year storm.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

**Site Plan**

Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

**Compatibility Standards**

The site is subject to compatibility standards. Along the South property line, the following standards apply:

- No structure may be built within 25 feet of the property line.

- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.

FYI – This site is located on an urban roadway.

### **Transportation**

A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day [LDC 25-6-113].

### **Water / Wastewater**

FYI: The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonments required by the proposed land use. Depending on the development plans submitted, water and or wastewater service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fees once the landowner makes an application for Austin Water utility tap permits.

**Subject:** 401 Alpine Project Zoning Change Request

Meredith,

The Dawson Neighborhood Plan Contact Team does not object to the request to change the zoning from SF3 to MF2 for this project.

The proposed usage is consistent with the use of the neighboring properties.

We appreciate the developer's efforts to preserve the many trees on the property and to provide an appropriate amount of parking.

Cheers,

Eliot Kimber  
Chair, Dawson Neighborhood Plan Contact Team
