

**MOTION SHEET**

Per the 2008 Families and Children Task Force Report recommendations, as well as Resolution No. 20120301-051, the improvements to the Seaholm Waterfront should include innovative, child-friendly designs, features, and play spaces.

Through this motion, the City memorializes its intent that the programming plan and design of the Seaholm Waterfront contain features and activities that appeal to Austinites of all ages and particularly to children and families.
