Additional Backup Information:

These contracts are for minority and small business consulting services for the Small and Minority Business Resource (SMBR) department. As outlined in the City Code, it is the policy of the City to provide equal opportunities to all contractors, and to redress the discrimination found in the City’s marketplace and in public contracting against minority and women owned businesses. The purpose of the SMBR department is to administer the Minority Owned Business Enterprise/Women Owned Business Enterprise (MBE/WBE) Procurement Program and provide development opportunities and resources for small businesses so they have affirmative access to city procurement opportunities and show productive growth.

The construction industry is one of the largest areas of opportunity for contractors seeking to do business with the City of Austin. SMBR is seeking assistance from minority construction trade associations representing African Americans, Hispanics, and Asian Americans to ensure optimum outreach to these populations. These trade associations were selected because they have demonstrated expertise in effective community outreach that is necessary to conduct targeted efforts to minority groups for successful participation in city projects.

Each contractor will:

- provide outreach to recruit and inform new or existing minority and women-owned businesses of the benefits of the City’s MBE/WBE Procurement Program, thereby increasing the number of City-certified MBE/WBE firms;
- contribute to retaining City MBE/MBE certified firms to help preserve gains in MBE/WBE recruitment by contacting lapsed firms to learn why they did not re-certify, reminding them of the services available, and offering assistance in re-establishing certification;
- inform MBE/WBE firms of City contracting opportunities; and
- to provide workshops and one-on-one technical assistance to enhance the capacity of firms seeking to contract with the City as a prime or subcontractor.

These efforts will be beneficial as the City prepares to enter into construction of the Corridor Mobility Program and other construction improvement projects during the contract period.

These contracts will replace the current contracts which expire September 30, 2018. The requested authorization amounts are based upon historical expenditures. The recommended contractors are the current providers for these services.
