FY18 - Tree Maintenance through Q3

5-year Plan Goal 1:

Improve the efficiency, effectiveness, and sustainability of tree maintenance activities on parkland.

- Complete park land inventory
- Increase proactive maintenance
- Identify alternative end-uses for wood

5-year Plan Goal 2:

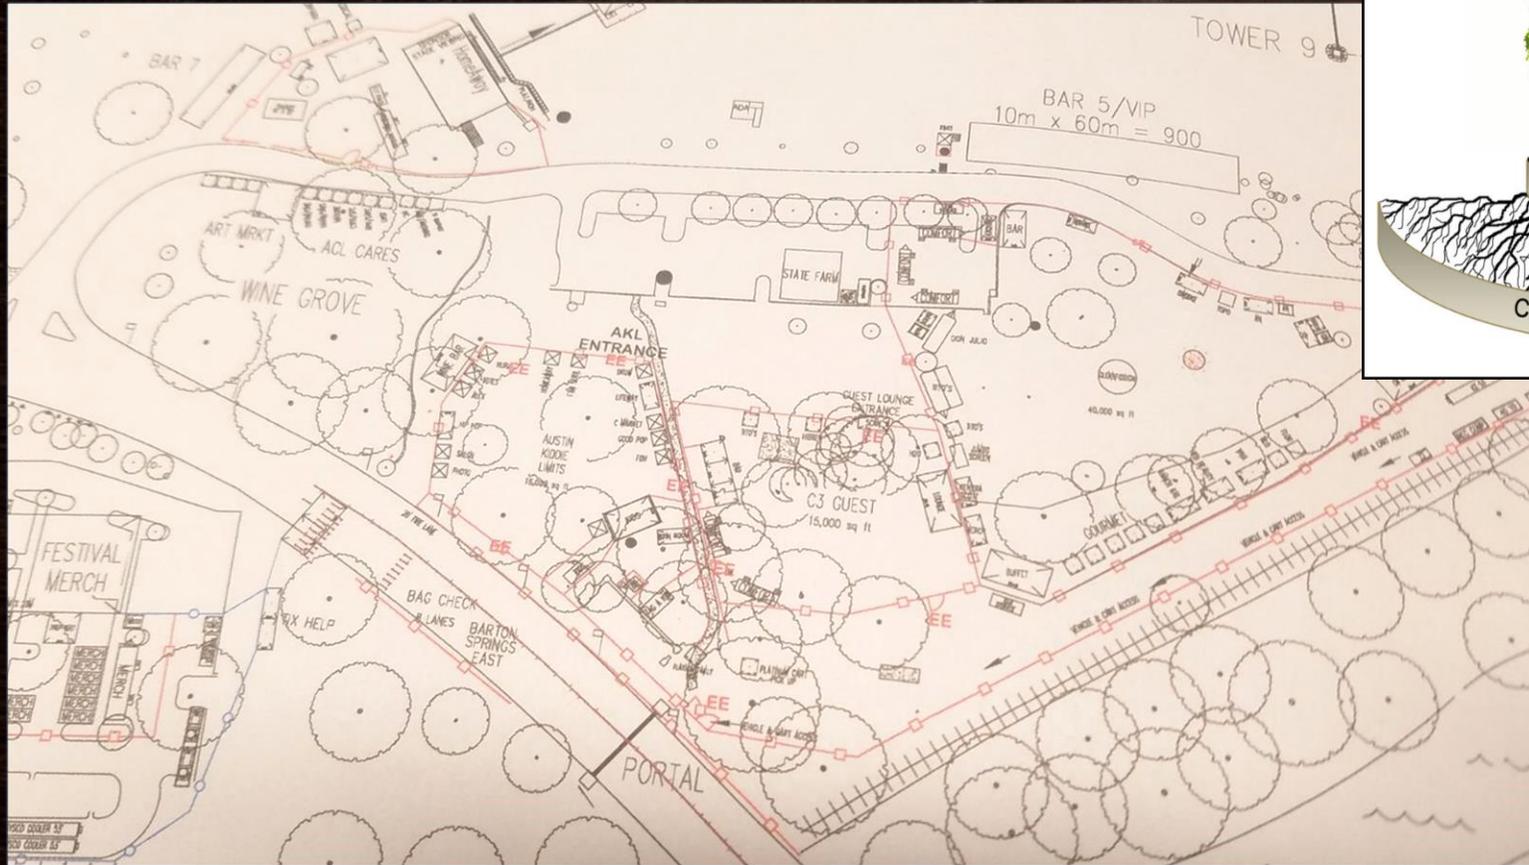

Increase our community's resiliency and quality of life through tree planting.

- Develop planting guidelines
- Identify alternative watering methods
- Inventory analysis

5-year Plan Goal 3:

Promote tree preservation in parks

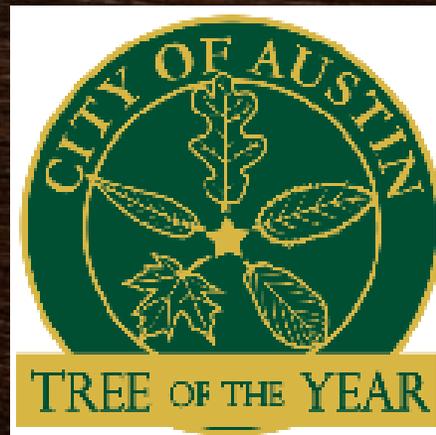

- Process improvements

5-year Plan Goal 4:

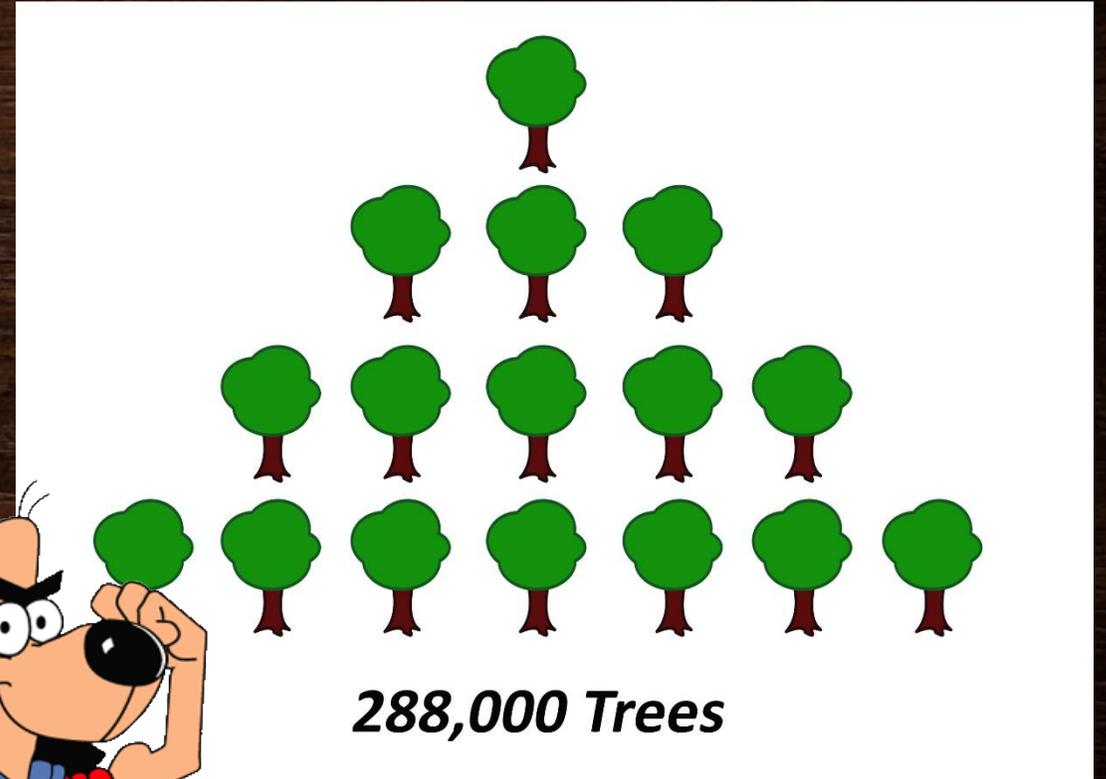

Develop community participation and investment in Urban Forestry through education, outreach, and partnerships.

- Increase public communication and transparency
- Develop programs for engagement and stewardship
- Support and promote partnerships

Challenges:

- Staff size : Quantity of trees
- Watering as a limiting factor
- Forestry dispersal across departments

211 miles of trail...
300 parks...
