Section 1: Applicant Statement

Street Address: 1800 E Martin Luther King Blvd

Subdivision Legal Description:

W 43.33 ft of Lot 1 Blk 4 OLT 45 Div B Johns CR Subd

Lot(s): 1 Block(s): 4

Outlot: 45 Division: B Johns CR Subd

Zoning District: LO-MU-V-NP

I/We Lila Nelson, ATX Permit and Consulting on behalf of myself/ourselves as authorized agent for Frank Chef and Sharon Shuppert affirm that on Month September, Day 11, Year 2021, hereby apply for a hearing before the Board of Adjustment for consideration to (select appropriate option below):

☐ Erect ☐ Attach ☐ Complete ☐ Remodel ☐ Maintain ☒ Other: _____

Type of Structure: Medical office and 5 residential apartments incl one affordable unit

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

Compatibility Standards. We are seeking a variance for the Compatibility of the adjacent single family use on the Commercial Zoned Lot located to the east (1802 E. MLK). The property to the east is zoned MF3 with a future land use plan of Mixed Use/Office which is the same as the subject property at 1800 E. MLK.

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

The current use of 1800 E MLK is single family. Zoning was approved by City Council on Sept 20, 2018 to LO-MU-V-NP. Staff recommended this change. Martin Luther King Blvd is a major transit corridor and single family use is past the viable life for that land use. In addition, the reasonable use includes office and residential units including one affordable unit which would provide increased densities. This is what the corridor wants to be and what the neighborhood associations and the community seeks.

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

The hardship in this case is a timing issue. Surrounding properties are eligible and expected to be redeveloped to Mixed Use-Vertical. We are a little ahead in the timing of redeveloping. It is a temporary condition. In our case the lot to the east is single family use although there are two SF use structures one of which is three stories or approximately 30 ft high. Without the variance we will not be able to build the residential units including the affordable unit.

b) The hardship is not general to the area in which the property is located because:

Much of the lots on E MLK have already been converted to commercial use.

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

Sharon & All,

You should already have letters or e-mails from the Blackland Neighborhood Association (BNA) and the Upper Boggy Creek Planning Team (UBC) endorsing your development. Now that the city planning department is requiring a petition of surrounding properties to allow variances, you need endorsements from *surrounding properties*.

The Blackland CDC owns the property at 1804 E. MLK and does not oppose your variances insofar as they do not deviate from the project originally presented to BNA and UBC.

Hi Bo!

Sharon here, just chiming in. My understanding from Lila is that we need *letters* from the Blackland and Upper Boggy Creek Neighborhood Associations either supporting the variance or NOT opposing it. I do believe an email may suffice. I've cc'd Lila Nelson, our zoning expeditor.

Lila, please reply and let us know if you need something different. Bo is willing to meet and sign the petition if that will suffice.

We are a bit under the gun here as the hearing is at 2:00PM Thursday (tomorrow) September 20th.

Thank you so much!
Sharon
