Raquel Ortega submitted draft recommendation language to the BAC prior to the meeting which, after debate and amendment, read as follows:

NOW, THEREFORE, BE IT RESOLVED that the Bicycle Advisory Council recommends that the following bicycle parking provisions be added to the current version and be included in future revisions of Austin's land development code (currently codified under City of Austin Title 25 Land Development Code, Chapter 6 Transportation) as it relates to all commercial and multi-family developments:

- *Apply the following equation in order to determine the required minimum number of bicycle parking spaces:*
 - *Percentage Ridership Goal x Maximum Occupancy Number of Building = Required Minimum Bicycle Parking Spaces*
 - *Percentage Ridership Goal should be determined as follows:*
 - *For Austin central city area utilize the Austin Bicycle Plan ridership goal of 15%*
 - *For citywide development excluding the Austin central city area utilize the Austin Bicycle Plan ridership goal of 5%*
- *Allow commercial and multi-family residential entities to apply for a reduction in auto parking minimums in exchange for high capacity bike corrals with one auto parking spot being replaced by a high capacity corral that can hold a minimum of 8 bicycle parking spaces. Each replaced spot must be the closest available spot to the primary entrance excluding the ADA spots. Allow option to remove any and all auto parking spaces, except those spaces for people with disabilities.*
- *Require that all entities installing single racks and corrals follow The City of Austin Active Transportation Division's rack and corral design criteria. The requirement for use of high security fasteners to the ground should be mandated.*
