Philip and Stefanie,

Thanks for the email. I did receive and review the Notice of Public hearing from the Historical Commission. I responded in writing and mailed in comments this morning, November 15, 2018, in full support of the demolition in the case of NRD-2018-0065 - 2513 Jarratt Avenue. Our family has lived on Jarratt Ave. across the street from this lot for 5+ years now, and welcome the new construction of a traditional home. We are happy to have new neighbors, and wish you the best of luck through this process.

David Jones

Molly and David-

Hope you're well. You recently received a notice from the city that they plan to review the demolition permit for 2513 Jarratt Ave we submitted next Monday, Nov 19.

As our future neighbor on Jarratt Avenue, if you all would consider replying to this email in support of the permit to demo the existing residence we would greatly appreciate it.

We plan to build a traditional home on the lot that fits in well with the neighborhood's historic and traditional charm.

Happy to discuss.

Thanks,  
Philip and Stefanie

We have lived on Jarratt since 2013, and we fully support the demolition permit for 2513!

I, along with my husband, Jesse Womack, support the Moore's demolition permit. We are completely confident that the Moores are planning to build a home that matches the character of the street and neighborhood. Please feel free to contact me with any questions or concerns.

Thank you.

Sincerely,

Lisa Womack  
2525 Jarratt Ave

Of course.

I live at 2516 Harris Blvd and support the Moore's application. I believe the house that they are contemplating will fit into and enhance the character of the neighborhood.

Hey Victor- hope you're well. You might have received notice from the city that they plan to review the demolition permit for 2513 Jarratt Ave we submitted next Monday, Nov 19.

As our future neighbor to our east, if you and Dalton would consider replying to this email in support of the permit to demo the existing residence we would greatly appreciate it.

Happy to discuss.

Thanks,  
Philip and Stefanie
