

## SUBDIVISION REVIEW SHEET

**CASE NO.:** C8-2017-0283.0A**Z.AP. DATE:** January 8, 2019**SUBDIVISION NAME:** Hayah Subdivision, Resubdivision of Lot 3 Block E, Eubank Acres  
Section 1**AREA:** 0.5447 acres**LOT(S):** 2**OWNER/APPLICANT:** Fayez S. Kazi**AGENT:** Civiltude  
(Ayed )**ADDRESS OF SUBDIVISION:** 11603 Tedford St.**WATERSHED:** Walnut Creek**COUNTY:** Travis**EXISTING ZONING:** SF-1**JURISDICTION:** Full Purpose**PROPOSED LAND USE:** Single-Family

**VARIANCES:** A variance to section 25-4-175 to allow a residential flag lot has been requested. The applicant is proposing one residential flag lot with this application. The applicant has obtained approval from the Fire Department to verify accessibility for emergency responders, approval from the Austin Water Utility, Austin Energy, and the City Arborist to verify there is adequate room for the required utilities and enhanced tree protection on the site. It is Staff's opinion that the proposed subdivision is compatible with the surrounding development since adjacent properties have been resubdivided. It should also be noted that there are no known deed restrictions on the site, and a note has been added that requires all addresses for residential lots utilizing a flag lot design must be displayed at their closest point of access to a public street for emergency responders. Because the application meets the flag lot criteria as required by the Land Development Code, the Staff recommends approval of the variance.

**DEPARTMENT COMMENTS:** The request is for the approval of the Hayah Subdivision, Resubdivision of Lot 3 Block E, Eubank Acres Section 1 composed of three lots on 0.5447 acres. The applicant is proposing to resubdivide an existing lot into a two lot subdivision for residential uses.

**STAFF RECOMMENDATION:** If the variance is approved, the staff recommends approval of the plat. With variance approval, this plat would meet all applicable State and City of Austin LDC requirements.

**PROTEST:** A protest against the case was received from the Walnut Creek Neighborhood Association which has the necessary signatures from the adjoining neighbors and requires  $\frac{3}{4}$  of the present commission members to vote for approval of the case. Texas Local Government Code Section 212.015(c) states that a plat with a variance can be protested if 20% of the adjoining property owners that are within 200 feet from the proposed plat and in the original subdivision provide signatures to make the protest valid. The protest has signatures from more than 20% of the neighboring property owners and requires  $\frac{3}{4}$  of the present commissioners to vote for the

approval of the case. Refer to Exhibit A for the map demonstrating the applicable properties within the 200 foot boundary from the proposed plat and the listing of the corresponding property owners which signed the protest letter. As well as the Texas Local Government Code Section and the petition from the neighborhood group.

MEMORANDUM

TO: Cesar Zavala, Case Manager

FROM: Fayez Kazi, PE

DATE: October 3, 2018

SUBJECT: C8-2017-0283.0A, Hayah Resubdivision, 11603 Tedford St.

This letter is a request for a variance to section 25-4-175 of the Land Development Code to utilize a flag lot design for a resubdivision of an existing single family residential lot into two single family residential lots. This resubdivision is compatible with the surrounding uses and an exhibit highlighting the different residential uses in the area is attached to this memo.

## MEMORANDUM

**TO:** Members of the Zoning & Platting Commission

**FROM:** Cesar Zavala, Planner Senior  
Development Services Department

**DATE:** November 27, 2018

**SUBJECT:** C8-2017-0283.0A Hayah Subdivision, Resubdivision of Lot 3 Block E,  
Eubank Acres Section 1

The applicant for the above referenced subdivision application has requested a variance from Section 25-4-175(A)(2) of the Land Development Code to utilize a flag lot design for a resubdivision creating 2 single family residential lots. In reviewing the variance request, staff evaluated the request based upon the criteria below, (see criteria and staff response):

**(i) has provided accessibility for emergency responders;**

*The application has been reviewed by the Austin Fire Department and AFD staff has determined that the flag lot configuration proposed will not inhibit accessibility for emergency responders.*

**(ii) has adequate room for required utilities**

*The applicant has provided a driveway and utility plan for review by the City of Austin Water and Wastewater Department and Austin Energy Department. The reviewers for both departments have determined that the utility/driveway plan has adequate room to provide utility service to both lots and utilities will not cross the proposed new lot lines.*

**(iii) enhances environmental and tree protection;**

*The applicant has provided a tree survey to arborist staff with the City of Austin and the arborist have no objections or further recommendations.*

**(iv) is otherwise compatible with the surrounding neighborhood;**

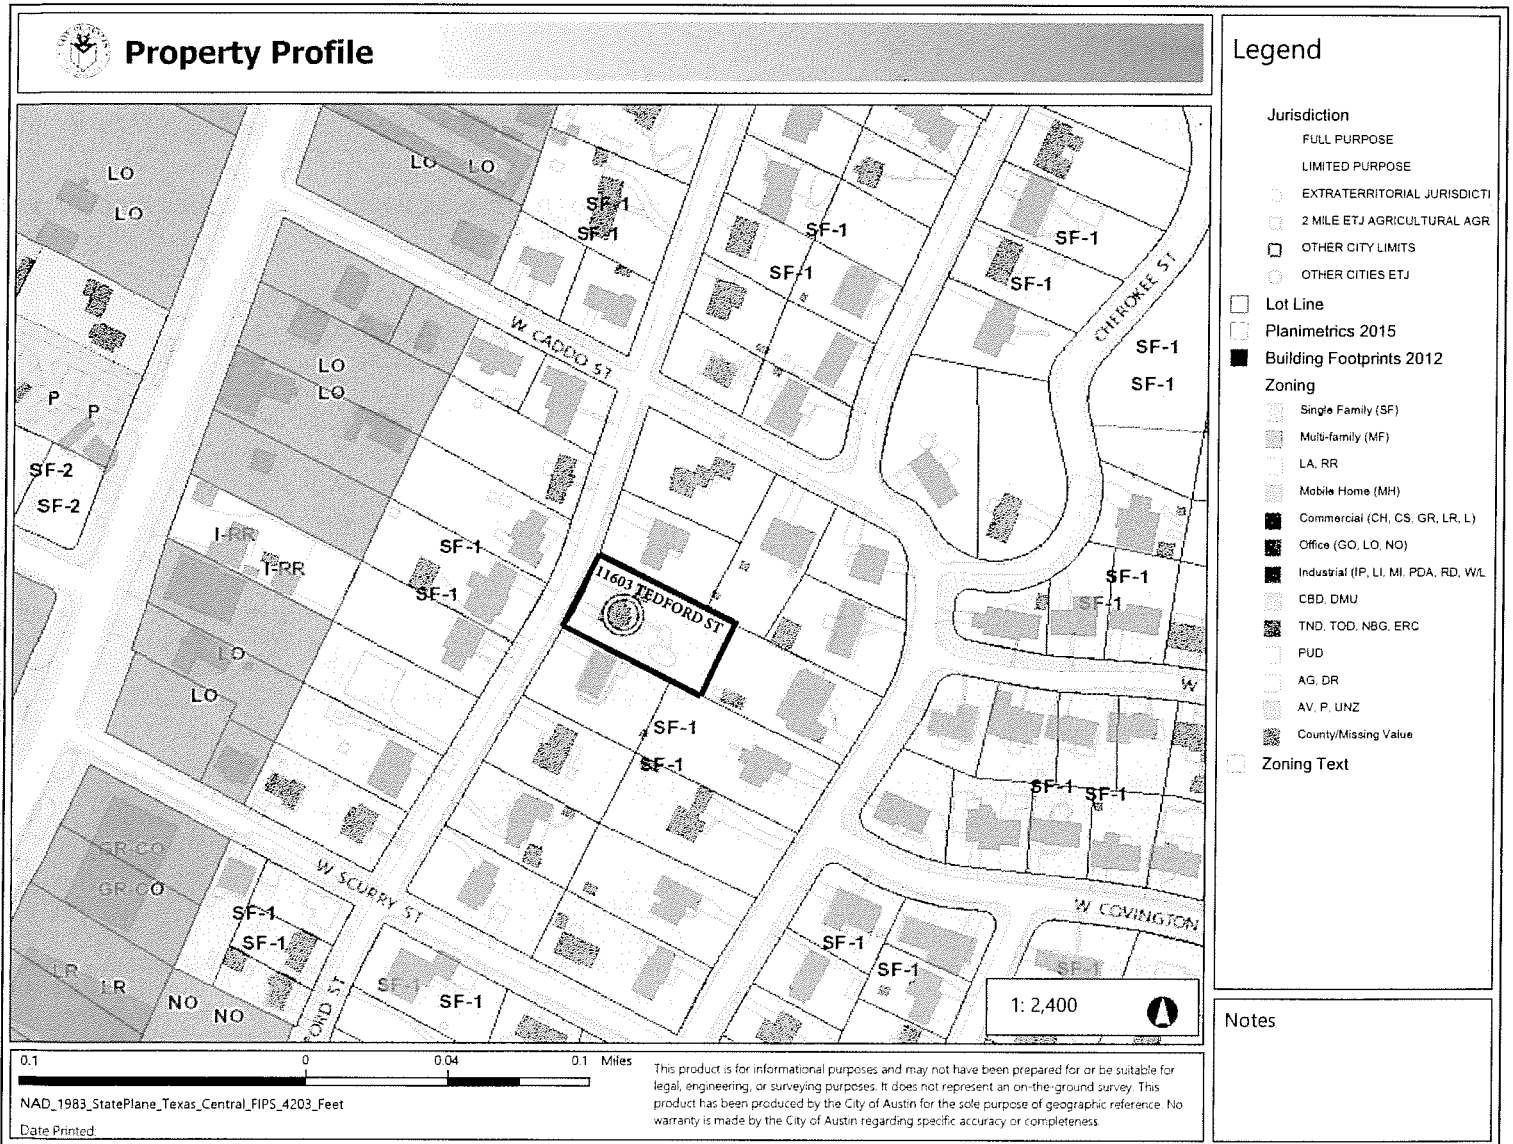

*The property is zoned SF-1 with a minimum lot size of 10,000 square feet. The proposed subdivision will meet the minimum lot size requirement with Lot 3A having a lot size of 11,493 square feet and Lot 3B 12,235 square feet. Additionally, other property within the area has been resubdivided, such as the adjacent property to the north and property located on the intersection of Tedford St. and Caddo St. As well as neighboring blocks having resubdivided lots as demonstrated on property located to the south of this block at Scurry St and Tedford St.*

*The immediate area is zoned SF-1 which is the appropriate zoning for the proposed use. See the attached neighborhood exhibit which generally shows the development pattern in the immediate vicinity.*

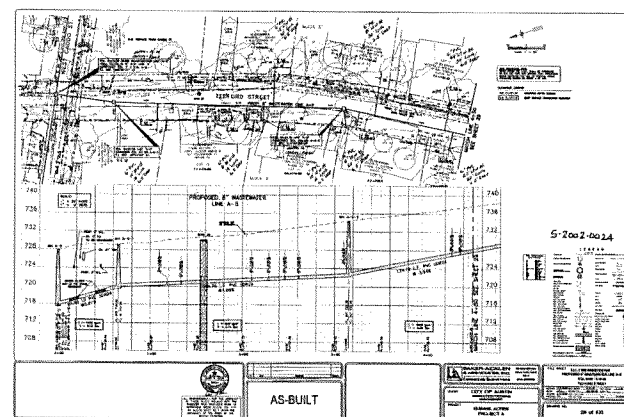

**(v) the applicant provides a copy of any existing private deed restrictions;**

*The applicant has determined that there are no existing private deed restrictions that apply to this property.*

Based upon review of these criteria, staff **recommends** the variance request to develop a flag lot as a part of this resubdivision request.

**PUBLIC HEARING INFORMATION**

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

A variance may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision. A notice of appeal must be filed with the director of the responsible department no later than 14 days after the decision. An appeal form may be available from the responsible department.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

Comments: We do not believe this subdivision is compatible with the surrounding properties: there are no other flag lots in the neighborhood, subdivision of adjacent properties such as my own took place 50 years ago. This proposed subdivision is adding increased densification. Furthermore there is very little room for the proposed driveway in this physical location.

Comments: Resubdivision is out of character with existing development. There are no flag lots in this neighborhood. Previous subdivisions took place in 50s & 60s, homes all date to this era. Neighborhood is characteristically large homes on large lots, and this would be a first flag lot here. Uncurbed and narrow streets would not be compatible with increased density in area.

**PUBLIC HEARING INFORMATION**

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

Commission is required to approve the subdivision by State law if no variances are required, and if it meets all requirements. A board or commission's decision on a subdivision may only be appealed if it involves an environmental variance. A variance may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision. A notice of appeal must be filed with the director of the responsible department no later than 14 days after the decision. An appeal form may be available from the responsible department.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (*it may be delivered to the contact person listed on a notice*); or
  - appearing and speaking for the record at the public hearing;
- and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
  - is the record owner of property within 500 feet of the subject property or proposed development; or
  - is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

For additional information on the City of Austin's land development process, visit our web site: <http://www.austintexas.gov/development>.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice.

Total Square Footage of Buffer: 168763.2361

Percentage of Square Footage Owned by Petitioners Within Buffer: 46.79%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.
