Austin Strategic Mobility Plan Final Draft Briefing
PEDESTRIAN ADVISORY COUNCIL

MARCH 4, 2019

Agenda

- Schedule

- Approach

- Community Engagement

- Motivation Behind the Plan

- ASMP Draft
  - Content Outline
  - Elements of the Plan
  - Top Strategies

- Chapter 3: Supplying Our Transportation Infrastructure

- Next Steps

Schedule

2016 **2017** **2018** **2019**

| Oct | Nov | Dec | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | Jan | Feb | Mar |

Establish Advisory Committee & Public Engagement Plan

Phase I Outreach

Phase II Outreach

Mobility Strategy review

Phase III Outreach

Approval Process starts

Project Initiation & Phase I Public Outreach

Scenario Planning/Analysis & Phase II Public Outreach

Preferred Strategy & Phase III Public Outreach

Plan Review & Adoption

The Vision

- Imagine Austin

  - Transportation Element of Imagine Austin

  - Imagine Austin recommends the creation of the ASMP

- Austin Strategic Mobility Plan

  - Goals, Policies, Objectives, and Action Items

Accessible Diverse Collaborative Efficient Connected ASMP Environmental Reliable Affordable

Imagine Austin Figure 4.5 – Growth Concept Map

Planning Approach

Technical:

Scenario Planning

Def: A method to explore how well different **mobility strategies** make progress toward achievement of **goals and objectives**.

Public Engagement:

Targeted to Historically Underserved/Underrepresented Populations

Youth (24 and younger)	Seniors (65 and older)
People of Color	People with Mobility Impairments

Community Engagement

Mobility Talks
Used to determine 8 goals of ASMP

- Prioritizing goals and gathering broad thoughts from community

Phase I: Brainstorming

Phase II: Scenario Feedback

- Consideration of 3 transportation scenarios

- 128 policies
- Citywide priority networks/projects (maps)

Phase III: Input on Policies and Projects

Phase IV: Adoption Process

- Public Hearings (Boards and Commissions, Council)
- City Council Adoption

Phase I Results

Overall Results

- Commuter Delay
- Affordability
- Health & Safety
- Travel Choice
- Sustainability
- Placemaking
- Economic Prosperity
- Innovation

Focus Populations

- Affordability
- Commuter Delay
- Travel Choice
- Health & Safety
- Sustainability
- Placemaking
- Economic Prosperity
- Innovation
Phase II – Scenarios
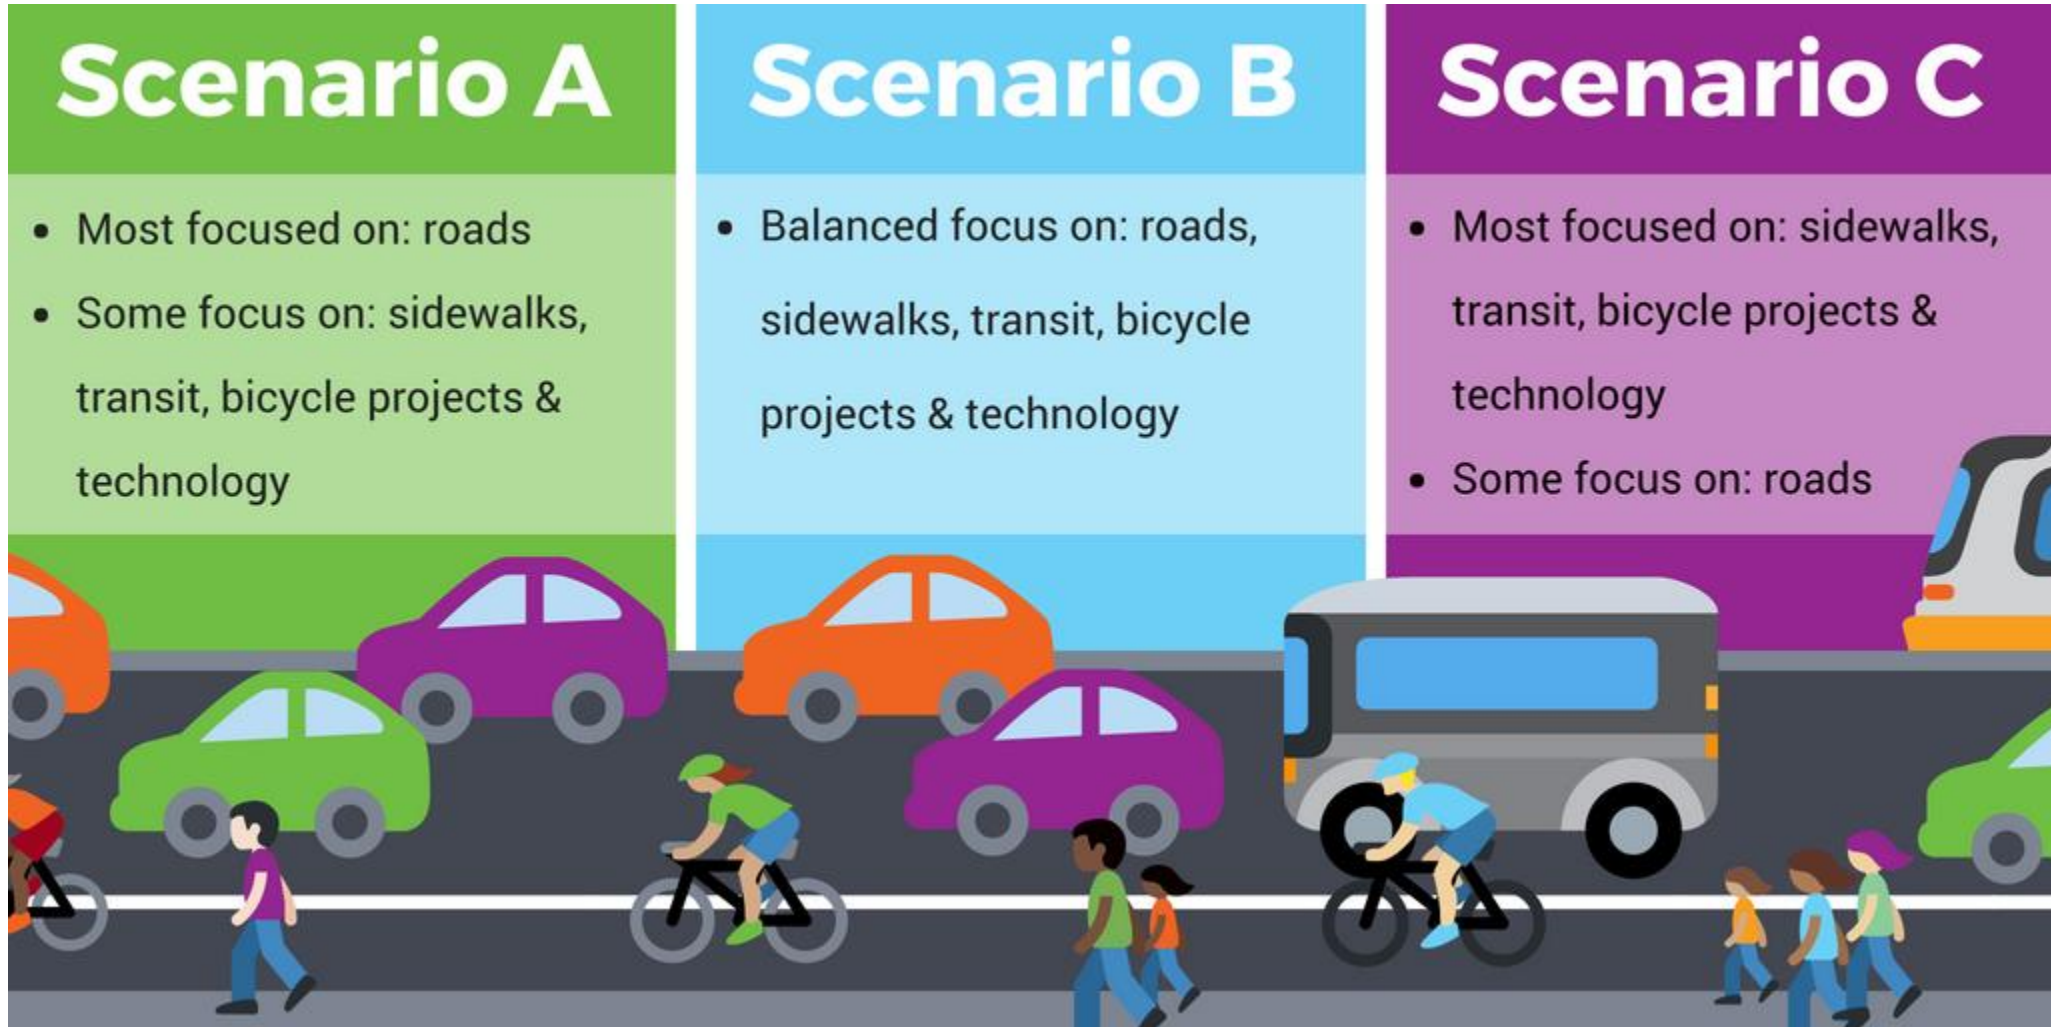

Phase II Results

Overall Population

- A 27%
- B 31%
- C 42%

Focus Populations

- A 30%
- B 32%
- C 38%
Phase III: Policies and Projects

What we heard/key changes in Phase III

Phase III Engagement focused on the draft maps and policies

All comments & staff responses are available online

Plan was adapted based on feedback

|	
50+ events attended	**2,600+ comments received on the maps**
184 survey responses on the policies	**Hosted focus groups and 23 office hours throughout Austin**

Motivation for the Plan

Motivation for the Plan
74% drive alone today vs. 50% in 2039

TODAY

Legend:
- Drive Alone
- Transit
- Telework
- Carpool / Taxicab / Other
- Bicycle
- Walk

74%
11%
8%
4%
1%
2%

2039

Sustainable Modes — 50%

Drive Alone — 50%

Mode Share Targets

TODAY

- Drive Alone
- Transit
- Telework
- Carpool / Taxicab / Other
- Bicycle
- Walk

TODAY: 74%, 4%, 8%, 11%, 1%, 2%

2039

2039: 50%, 16%, 15%, 11%, 4%, 4%

# What would it look and feel like?

Non-drive alone

Data via U.S. Census; based on commutes for square mile area of entire city

ASMP Final Draft Plan

Policy Document, Street Network Table + Map

Prioritizing Our Safety
- Safety Culture
- Designing for Safety
- Safe Behaviors

Managing Our Demand
- Land Use
- Parking
- Curb Management
- Transportation Demand Management Programming
- Shared Mobility

Supplying Our Transportation Infrastructure
- Sidewalk System
- Roadway System
- Public Transportation System
- Bicycle System
- Urban Trail System
- Condition of Infrastructure
- Emerging Mobility Solutions
- Aviation

Operating Our Transportation Network
- Transportation Operations
- Closures and Detours
- Goods Movement

Protecting Our Health and Environment
- Public Health
- Air and Climate
- Water and Stormwater
- Land and Ecology

Supporting Our Community
- Equity
- Affordability
- Accessibility
- Public Interaction

Implementing Our Plan
- Data
- Collaboration
- Financial Strategies
- Action Table

Chapters & Subchapters

How do we get to 50/50?

126 Policies

+

100s of multimodal projects to achieve ASMP goals

Elements of the Plan

Indicators + Targets: More specific measures of our goals which help us know how well we are achieving them. Some indicators have identified <u>targets</u> necessary to make ambitious yet reasonable progress toward a goal within a <u>specified timeline</u>.

Policies: A definite course or method of action to guide and determine present and future decisions

Actions: Steps necessary to support policies, programs, and projects

Elements of the Plan

Priority Networks: Designated for the roadway, public transportation, and bicycle systems to show where modes are prioritized to improve operations

Transportation Network Maps: Identify possible projects the City may pursue in the next 20 years based on a variety of factors, including the evolving needs of the transportation network, engineering analysis, public input, and available funding

Street Network Table: Inventory of our streets and their future conditions, which will be used to identify right of way dedication requirements

Top Strategies

- **Reduce traffic fatalities, serious injuries** by focusing on safety culture, behaviors

- **Move more people** by investing in public transportation

- **Manage congestion** by managing demand

- **Build active transportation access for all ages and abilities** on sidewalk, bicycle, and urban trail systems

- **Strategically add roadway capacity** to improve travel efficiency

Top Strategies

- **Connect people to services and opportunities** for better health

- **Address affordability** by linking housing and transportation investments

- **Right-size and manage parking supply** to manage demand

- **Develop shared mobility options** with data and emerging technology

- **Build and expand community relationships** with plan implementation

Chapter 3:
Supplying Our Transportation Infrastructure

Chapter 3

Supplying Our Transportation Network

(Chapter introductory body text — too small to read reliably)

GETTING THERE TOGETHER • ASMP

Sidewalk System

Policy 1 Complete the sidewalk system
Policy 2 Make the sidewalk system accessible and comfortable for all
Policy 3 Maintain the usability of the sidewalk system
Policy 4 Ensure new development connects to the sidewalk system

Policy Summary

Sidewalk System
Policy 1 Complete the sidewalk system
Policy 2 Make the sidewalk system accessible and comfortable for all
Policy 3 Maintain the usability of the sidewalk system
Policy 4 Ensure new development connects to the sidewalk system

Roadway System
Policy 1 Strategically provide new roadway connections and add capacity for vehicles
Policy 2 Improve travel time reliability
Policy 3 Increase the person-carrying capacity of the highway system
Policy 4 Work with regional partners to upgrade the highway system
Policy 5 Manage right of way space for all users

Public Transportation System
Policy 1 Give public transportation priority
Policy 2 Enhance commuter public transportation service
Policy 3 Support local public transportation service
Policy 4 Invest in a high-capacity transit system
Policy 5 Improve the public transportation experience
Policy 6 Improve access to public transportation

Bicycle System
Policy 1 Make streets safe for bicycling
Policy 2 Complete the Bicycle Priority Network
Policy 3 Remove significant infrastructure gaps in the bicycle system
Policy 4 Provide a comfortable bicycle system with end-of-trip facilities
Policy 5 Work with partner agencies and other jurisdictions to develop a regional bicycle system
Policy 6 Maintain the usability of the bicycle system

Urban Trail System
Policy 1 Recognize the urban trail system as an integral part of the transportation network
Policy 2 Provide high-quality urban trails that can serve all users
Policy 3 Pursue opportunities to connect to and expand the urban trail system

Condition of Infrastructure
Policy 1 Responsibly maximize the useful life of transportation infrastructure
Policy 2 Pursue opportunities to increase mobility options during capital projects
Policy 3 Improve multimodal mobility through maintenance activities
Policy 4 Maintain the usability of all mobility infrastructure

Emerging Mobility Solutions
Policy 1 Evaluate emerging mobility solutions to meet community needs
Policy 2 Integrate emerging mobility solutions into existing transportation infrastructure systems
Policy 3 Invest in infrastructure that enables the adoption of emerging mobility technologies

Aviation
Policy 1 Expand mobility options to and from the airport
Policy 2 Increase multimodal connectivity and options on the airport campus
Policy 3 Inform visitors about Austin's mobility options
Policy 4 Prepare for and design aviation facilities to adapt to emerging mobility solutions
Policy 5 Coordinate wayfinding to, from, and at the airport

Indicators and Targets *- Sidewalk System*

Supplying Our Transportation Network

Chapter 3

Increase the functionality of existing very high- and high-priority sidewalks

Achieve and maintain 95% functionality for very high- and high-priority sidewalks by 2026

Increase the functionality of the existing sidewalk system

Achieve and maintain 55% functionality for the sidewalk system by 2026

Increase the number of new very high- and high-priority sidewalks completed within 1/4 mile of all identified schools, bus stops, and parks, including both sides of arterial and collector streets and one side of residential streets

Complete 100% of missing very high- and high-priority sidewalks within 1/4 mile of all identified schools, bus stops, and parks by 2026

Improve the response time for sidewalk obstruction complaints

Increase the share of Austin residents who walk to work

Achieve 4% of Austin residents who walk to work by 2039 (2.3% of residents walked to work between 2013 and 2017)
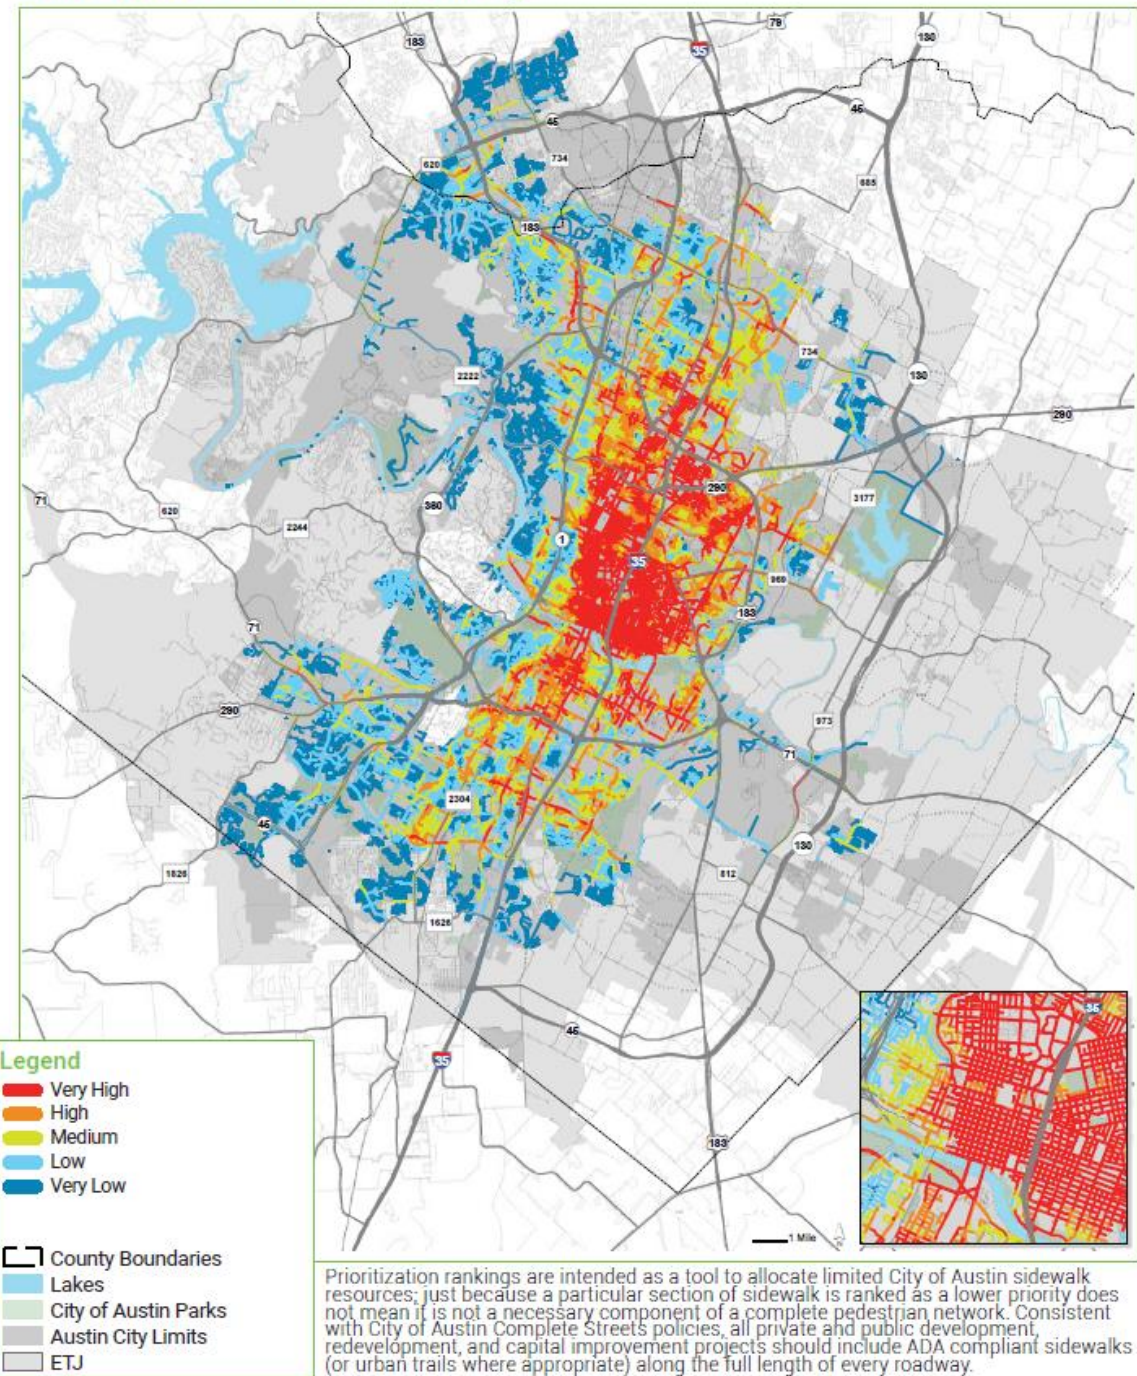

Increase the frequency of assessing the condition of the existing sidewalk system

Assess 10% of the sidewalk system annually

Increase the number of leading pedestrian intervals and pedestrian signal priority treatments

Increase the percentage of street frontages with sidewalks

Prioritization rankings are intended as a tool to allocate limited City of Austin sidewalk resources; just because a particular section of sidewalk is ranked as a lower priority does not mean it is not a necessary component of a complete pedestrian network. Consistent with City of Austin Complete Streets policies, all private and public development, redevelopment, and capital improvement projects should include ADA compliant sidewalks (or urban trails where appropriate) along the full length of every roadway.

Sidewalk Prioritization Map

Legend

- Very High
- High
- Medium
- Low
- Very Low

- County Boundaries
- Lakes
- City of Austin Parks
- Austin City Limits
- ETJ

Prioritization rankings are intended as a tool to allocate limited City of Austin sidewalk resources; just because a particular section of sidewalk is ranked as a lower priority does not mean it is not a necessary component of a complete pedestrian network. Consistent with City of Austin Complete Streets policies, all private and public development, redevelopment, and capital improvement projects should include ADA compliant sidewalks (or urban trails where appropriate) along the full length of every roadway.

How the elements work together – Pedestrian Example

Policy: **Maintain the usability of the sidewalk system**

Example Program: **Sidewalk Program**

Example Project: **2018 Bond sidewalk rehabilitation**

Replacing damaged sidewalks based on the prioritization within the Sidewalk Plan / ADA Transition Plan

Indicator: **Increase the functionality of the existing sidewalk system**

Example Action Item:

◦ Develop and implement an ongoing program to improve sidewalk functionality by promoting property owner vegetation maintenance responsibilities, enforcing violations, and proactively managing public vegetation obstructions.

◦ Encourage all City departments to develop policies regarding their responsibilities to remove accessibility barriers within the scope of their projects.

How the elements work together – Safety Example

Policy: Minimize the potential for conflicts between transportation network users

Example Program: Pedestrian Program

Example Project: 2018 Bond Vision Zero/Transportation Safety improvements

Funding for intersection and pedestrian safety improvements

Indicator: Increase the safety of pedestrian crossings

Implement improvements at 30 priority locations per year, at least 50% of which are on the High-Injury Network

Example Action Items:

◦ Update the Transportation Criteria Manual and other relevant guidelines and manuals to minimize the potential for conflicts between road users and prioritize the safety of vulnerable users.

◦ Develop guidance, evaluate, and implement pedestrian crossing improvements, including leading pedestrian intervals and pedestrian scrambles, at signalized intersections with high pedestrian volumes.

Path to Completion

- Boards & Commissions:
  - Zoning and Platting Commission (March 5 & March 19)
  - Environmental Commission (March 6)
  - Planning Commission (March 12 & March 26)
  - Urban Transportation Commission (March 18)
  - & Others

- City Council
  - March 7 – Set Public Hearing for March 28
  - March 28 – City Council Public Hearing, Ordinance Readings
