Ms. Heldenfels I would like to provide some comments regarding the above referenced case. Sorry for the late comments but I just received the request over the week end.

My husband and I owned the property at 1705 Cloverleaf Drive from 2006 - 2018. This property is located across the street and over 3 houses from the subject home.

At the time of purchase the carport was in existence at 1802 Cloverleaf Drive. We sold our home for more than double the purchase price in October of 2017 (leasing it back until March of 2018 waiting for remodel completion of home purchased 3 blocks over). At no point did we ever perceive that the carport negatively impacted our property values. Based on this experience we are in favor of the variance allowing the carport to stay.

Thank you.
