Job Title

Interests & Experiences

Please tell us about yourself and why you want to serve on a board or commission

Why are you interested in serving on a board or commission?

I am interested in serving on the Central Health Board of Managers. As Vice president of Mission Services and Outreach for the Susan Komen organization in Austin, I believe that I offer much in the development of policy for the county's provider of indigent health. My sustained involvement in our community working with many programs which are touch points for health care will enrich my ability to represent the city's interest in the role of Central Health Board of Managers. I understand city policy priorities and the overlay that these have with the provision of health services under the statutorily created Health Care District. As a professionally trained and licensed Mastered Social Worker, I fully embrace the complexity of the Central Health System, its relationship to the Dell Medical School, its role in the community health system and the ultimate challenge of meeting the mission under many constraints and demands. I believe that I will contribute to the board's insight on many of the issues faced by them as decision makers.
