**Subject:** NLGACT - Variance request regarding 601 E Powell Ln

Dear Leane,

The variance requested for 601 E Powell Ln was on our March 21 quarterly meeting agenda, which was sent our membership prior to the meeting, did not create much interest. It was discussed at our meeting and the consensus opinion was that the changes requested appear minor and useful. No vote was taken.

In short, neither the officers, the members in attendance or the membership at large has much of an opinion on the matter.

Regards,

Colin MacDougal  
vice chair NLGACT
