

HISTORIC LANDMARK COMMISSION
APRIL 22, 2019
DEMOLITION AND RELOCATION PERMITS
HDP-2019-0148
3903 PETE'S PATH

PROPOSAL

Demolish a ca. 1949 house and detached garage.

ARCHITECTURE

One-story, irregular-plan, hipped-roof frame house with a projecting front bay with a hipped roof containing a fixed-sash picture window with two flanking sash windows; partial-width inset porch with an ornamental metal support.

RESEARCH

The house was built in 1949 by Meredith H. "Babe" Green and his wife, Snowdy. Babe Green was a mail carrier for the Post Office. He and Snowdy lived here until around 1953, when they moved to a house on Ridgehaven Drive. Rev. Robert D. and Betty R. Lovell purchased the house after the Greens moved, and lived here until Rev. Lovell accepted a pastorate at a university-related church in Champaign, Illinois in 1959. While in Austin Rev. Lovell was the assistant pastor at the University Baptist Church. From around 1963 until around 1972, the house was owned and occupied by Leroy and Isabella Hinze, formerly of Bartlett, in Williamson County, Texas. Leroy Hinze was an attendant at Austin State School. He passed away in 1974. There has been a series of short-term renters and owners in the house since the 1970s, none with an occupation shown in the city directory listings.

STAFF COMMENTS

The house is beyond the scope of any City survey to date.

Staff has evaluated this house for designation as a historic landmark and has determined that the house does not meet the criteria for landmark designation as set forth in City Code:

- a. **Architecture.** The house is a post-World War II cottage with a boxy composition and little architectural distinction. The house is somewhat of an anomaly in the Ridglea neighborhood, which features more traditional styles of post-war design and construction.
- b. **Historical association.** The house reflects ownership and occupancy by middle-class families, including that of a mail carrier, an assistant minister, and an attendant at the Austin State School. There do not appear to be significant historical associations.
- c. **Archaeology.** The house was not evaluated for its potential to yield significant data concerning the human history or prehistory of the region.
- d. **Community value.** The house does not possess a unique location, physical characteristic, or significant feature that contributes to the character, image, or cultural identity of the city, the neighborhood, or a particular demographic group.
- e. **Landscape feature.** The property is not a significant natural or designed landscape with artistic, aesthetic, cultural, or historical value to the city.

STAFF RECOMMENDATION

Encourage rehabilitation and adaptive re-use, then relocation over demolition, but release the permit upon completion of a City of Austin Documentation Package, consisting of

photographs of all elevations, a dimensioned sketch plan, and a narrative history, for archiving at the Austin History Center. The house does not meet the criteria for individual designation as a historic landmark.
