Hi Diana, My Name is Venkatramreddy Vumma, Owner of 15012 Iveans Way, Austin TX 78717. My Home in line with the proposed expansion and I have received

A note from honorable Council Member Mr. Flannigan seeking home owner's input about City's initiative to extend the trail connecting to the Neenah Avenue.

I fully support City's initiation in this matter. Having a trail here is a good idea and gives us an opportunity to walk/Jog. Also, don't see any security issues it poses to my Home or to the other residents and students.

Please consider this as my consent/input and go ahead with your expansion Initiation. If you have any question/concern, Please free to reach me over by e-mail or by Phone.

Regards

Venkat Vumma

All,

As Resident of Pearson place, I feel that this proposed trail extension is an intrusive and unsafe option. It will increase the safety concern of the students and the residents.

So, I support the School's request for a waiver from the requirements for this trail.

Regards,  
Dharmesh Patel

Hello,

I am one of the residents along the proposed new trail (the red line).

We are very close from the neenah ave and iveans way intersection.

I am in agreement with the school that this trail is extremely unsafe.

It will give easy access to intruders to our homes from the trail which is a completely dark area. The fence that we have is a regular privacy fence that you usually have between 2 properties. It is not a more strong fence like you would have when backing up a public space like street, park, etc..

This is not really a trail since it is fenced on both sides. It is more like a passage and I can't see who would like to use a narrow passage through the dark and wooded area. Once you enter the path there are only 2 options: either continue till end or turn around. There is no escape/exit in between which is very unsafe.

I can only imagine this path if built being misused ,not maintained, unsafe to use and unsafe for school as well as us residents backing up this path.

I support the school and request you to waive this requirement to build this path.

Thank You  
Akshay
