RE: Approval of a Site Plan Exemption to allow for the submittal and approval of a Building Permit to install a fire sprinkler system at 1701 Toomey Rd (Casa de Luz)

Dear Mr. Hersh,

This letter is in response to our meeting on February 28, 2018 to discuss an agreeable solution for the Fire Code violations at 1701 Toomey Rd., Austin, TX, also known as Casa de Luz.

I have discussed the proposal with staff at the Development Assistance Center. The City will approve a Site Plan Exemption for the installation of the fire sprinkler system with the following conditions:

- Your submittal of a current and accurate site plan layout.
- The exemption is for the sole purpose of installing a fire sprinkler system for a school cafeteria and that it does not constitute an approval of the current site plan or use of the building.

This approval will allow for the submittal of plans for review and the ability to obtain the necessary permits for the installation of the fire sprinkler system as an alternate method of compliance to meet the requirements of the Fire Code.

Completion of that work will suffice to eliminate the life/safety violations. You will have to work separately to obtain approval of the site plan. Other violations related to unpermitted structures, uses and parking will have to be addressed separately from this submittal.

We understand that you will need time to prepare plans, get approval, secure bids, select a contractor and complete the installation. Please submit a reasonable timeline that we can all agree to in order to stop any further actions related to the Suspension of the Certificate of Occupancy.

Please feel free to contact me if you have any questions or concerns.

Respectfully,

José G. Roig, CBO
