Hi,

As resident of Pearson Place, I believe that the proposed trail behind the Resident house and school is a very unsafe proposal. It will add additional risk to the school children considering all the anti-social activities now surfacing for the safety of school kids. It will also be unsafe for the residents considering the type of the trail and the location.

Therefore, I strongly support the School's request for a waiver from the requirements for this trail.

Dear Madam/Sir,

I am a resident of Pearson place and i reside in 15116 Iveans way. I respectfully send my non agreement with the proposed trail extension, This is a very unsafe and intrusive proposal to our house and our community. This proposal increases the chances of vulnerability for our community that is experiencing severe theft and burglary incidents at a large scale in the recent times. This proposal will directly increase the risk to the safety of our household, kids and students.

Myself and my family will support the school's request for a waiver from the requirement for this trail.

Also, I just want to bring to your notice that there is an effort going on social media giving wrong impression/facts to Pearson Place community homeowners that the extension will cause issues to the community and home values will go down. You might have seen an influx of e-mails from many homeowners opposing this initiative as they do not have complete information or facts regarding this initiative and they might have sent e-mails depending upon false information shared to them. I am attaching some of the screenshots for your review.
