The Austin Police Department has partnered with the Texas Automobile Burglary and Theft Prevention Authority since the late 1990's. With the assistance of ABTPA grant funding, the APD Auto Burglary and Theft Interdiction Project has been successful in implementing a variety of strategies to reduce auto thefts, recover stolen vehicles, and prosecute offenders. Proactive crime analysis assists in identifying problems involving commercial auto thefts and in targeting "theft for profit" offenders. Examples of commercial auto theft activities occurring in Austin, Travis County include VIN switches, vehicle cloning, chop shops, illegal part dealings and international smuggling operations. Growth in population, registered vehicles and continued annexations to the City generate an increased number of vehicles, naturally leading to additional opportunities for criminal activity.
