

## Recommendation for Action

**File #: 19-2309, Agenda Item #: 13.**

6/19/2019

### **Posting Language**

Approve a resolution finding the use of Construction Manager-at-Risk method as authorized by Subchapter F, Chapter 2269 of the Texas Government Code, is the project delivery method that provides the best value to the City for construction of the Colony Park and Givens Pools.

(Note: MBE/WBE goals will be established prior to issuance of this solicitation.)

### **Lead Department**

Capital Contracting Office

### **Managing Department(s)**

Capital Contracting Office

### **Fiscal Note**

A Recommendation for Council Action with the not to exceed contract amount for the resultant contract will be presented to Council once the Construction Manager-at-Risk selection has been completed.

### **Purchasing Language:**

This request is for Council to authorize the use of the Construction Manager-at-Risk; therefore, no solicitation has yet been initiated.

### **For More Information:**

Inquiries should be directed to the City Manager's Agenda Office, at 512-974-2991 or [AgendaOffice@austintexas.gov](mailto:AgendaOffice@austintexas.gov).

NOTE: Respondents to this solicitation, and their representatives, shall direct inquiries to Rolando Fernandez, 512-974-7749 or Beverly Mendez, 512-974-9423.

### **Additional Backup Information:**

State Statute governs construction procurement for municipalities. The standard method of contracting used for construction services is competitive bidding where the contract is awarded to the lowest responsible bidder. Texas Government Code Chapter 2269 allows for methodologies alternate to low bidding method which may provide the best value to the municipality. These alternate methodologies include: Competitive Sealed proposals, Construction Manager-at-Risk (CMAR), Design-Build, and Job Order Contracting. Texas Local Government Code Section 252.022(d) allows the City to adopt and use an alternative method such as CMAR under Chapter 2269 of the Texas Government Code if such a method provides a better value for the City.

The CMAR method is a project delivery method where the City will contract with an architect/engineer to perform design services and separately contract with a CMAR to perform preconstruction and construction phase services. The role of the CMAR goes beyond performing general contractor services. The CMAR is under contract early in the design process to perform key preconstruction phase services such as collaborating

---

with the City and the design team on scope and constructability and to optimize the design and control costs and budgets, and to provide quality assurance-quality control. After design, and before the CMAR begins construction, the City will negotiate and execute a Guaranteed Maximum Price (GMP) for the remainder of the work, including actual construction.

A CMAR firm will be selected by a City-staffed evaluation panel that will evaluate and score proposals based on published evaluation criteria to determine the highest ranked proposer. As set forth in Government Code 2269, the City of Austin will select a CMAR firm that will provide the “best value” to the City for preconstruction and construction services for the Project.

A delay in authorization of the methodology will result in a delay in the issuance of the solicitation and will affect the ability to perform these improvements prior to January 2022.

This solicitation and evaluation process is approximately six months, with construction commencing in spring 2021.
