Council Committee, Boards and Commission Action:

Additional Backup Information:

The contract will provide the City with Pelco traffic signal hardware that is necessary for the installation and modification of traffic signals, school flashers, and other traffic signal devices.

This contract will replace two previous contracts which expired December 13, 2018 and March 2, 2019. The requested authorization amounts for the contract were determined using departmental estimates and historical spending. The recommended contractor is not the current provider for these goods. If the City is unable to secure a contract, staff will not be able to construct, modify, or repair traffic signals in a timely manner which could add to traffic congestion issues around the City.
