DEPARTMENT COMMENTS:

The applicant is requesting to amend a public restrictive covenant associated with zoning case C14-85-244 (Part 7) and executed on July 1, 1986 that prohibits new development on the Property from exceeding a maximum floor to area ratio (FAR) of 0.9:1, requires a public site plan review, requires that any development comply with the roadway map on page 40 of the Golden Triangle Area Study and states that at the time of subdivision approval the applicant will dedicate right-of-way to the City. The applicant's request letter is included as Attachment A to this report.

The staff recommends the applicant's request to delete the conditions of this public restrictive covenant for this 2.0974 acre site as the applicant is currently proposing to redevelop this property in accordance with the site development regulations approved in the

Re: 10001 Stonelake – Restrictive covenant termination application for the 2.0974 acre piece of property located at 10001 Stonelake Boulevard in Austin, Travis County, Texas (the “Property”)

Dear Commissioners:

As representatives of the owner of the Property, we respectfully submit the enclosed restrictive covenant termination application package. The project is titled 10001 Stonelake, consists of 2.0974 acres, and is located between Hwy 183 and MOPAC Expressway, north of N Capital of Texas Highway on Stonelake Boulevard in the North Burnet Gateway Planning Area. The Property is intended to be redeveloped as a congregate living facility and is zoned NBG-CMU, North Burnet Gateway – Commercial Mixed Use.

We are proposing to terminate the restrictive covenant on the Property executed July 1, 1986 in Volume 9839, Page 566 of the Travis County Deed Records. This restrictive covenant prohibits a new development from exceeding a maximum Floor Area Ratio (FAR) of 0.9:1.

We respectfully request approval to terminate this restrictive covenant so the Property can be developed in adherence to the site development regulations in the North Burnet Gateway regulating plan, which allows 2:1 FAR on the Property. This FAR restriction predates the North Burnet Gateway Plan and undermines the design regulations within the regulating plan which are intended to produce a dense, walkable environment.

Please let me know if you or your team members require additional information or have any questions. Thank you for your time and attention to this project.

Sincerely,

Leah M. Bojo
