Subject: AE Meter Sockets
Attachments: Sockets.png; Talon Meter Socket.png

Importance: High

Eric/Marty,

Austin Energy has decided to move away from the AE stamped meter enclosures. There is a list of part numbers of acceptable meter socket enclosures located on AE's website. We are also adding a Talon meter socket enclosure to this list but the AE website hasn't been updated yet (See Attachments). Please communicate this to your direct reports/inspectors.

Thanks,

Jose "Joey" Hernandez
