(...)

- Expand the use of the cold weather shelter model for homelessness, including both private and public facilities, as well as houses of worship, subject to controls or limitations that might be required by law.
- Partner with houses of worship, non-profit organizations, and businesses, subject to controls or limitations that might be required by law, to evaluate opportunities for the use of their facilities as emergency shelter space under conditions where the City is able to assist with the costs for staff, insurance, and other support services necessary to assist individuals experiencing homelessness with their transition to housing.
