

BE IT FURTHER RESOLVED:

The City Manager is directed to provide possible options for at least ten locations, one in each Council district, across the city for Council and community consideration so the whole city recognizes that we are all in this together, that would allow for a temporary or permanent shelter, and/or camping that are to be planned in conjunction with the delivery of and receipt of wrap-around services. Temporary locations should sunset after one year. Options should also include consideration for necessary public health and safety infrastructure, such as adequate lighting, strategies to avoid unsafe overcrowding, and access to restrooms. The City Manager is directed to consult with experts, such as Page 5 of 13 as the National Alliance to End Homelessness, on other considerations that the Council should contemplate as the pilot is developed;
