The City has not been able to assist Conditionally Exempt Small Quantity Generators (CESQG) with their hazardous waste since the State changed its interpretation of the regulations in 2008.

The increased fees will be used to fund existing services, expand the curbside compost collection program, as well as continue ARR Master Plan activities.

The typical Austin Resource Recovery residential customer (includes base customer charge, 64-gallon trash cart, and clean community fee) will not experience an overall change to their monthly bill (before applicable taxes).
